A COMING COVID CATASTROPHE -- The HighWire with Del Bigtree

World renown vaccine specialist, Geert Vanden Bossche, gave a groundbreaking interview this week risking his reputation and his career by bravely speaking out against administration of #Covid19 vaccines. In what may be one of the most important stories ever covered by The HighWire, the vaccine developer shared his extreme concerns about these vaccines in particular and why we may be on track to creating a global immunity catastrophe.

VACCINE DEATH AND INJURY STATS DON'T ADD UP [2021-03-24] - ROSEMARY FREI (VIDEO)

The government lied about the numbers of people that tested positive by inflating those numbers, they lied about the numbers of people that died from Covid-19 by inflating those numbers by calling all deaths Covid-19 deaths, and they are now lying about the numbers of people that are having adverse effects and dying from the Covid-19 vaccinations. If you haven't gotten the mRNA Experimental Vaccinations yet, you better do your own DUE DILIGENCE by doing your own research first. JUST SAY NO and DO NOT CONSENT to Bill Gates' FINAL SOLUTION. Once you do the research, you will find out LESS PEOPLE DIED IN 2020 THAN THE 3 YEARS PRIOR TO 2020. There was NO Pandemic, END OF STORY!!!

Note : The Nuremburg Code was not ratified ...

U.S. GOVT LOSES LANDMARK VACCINE LAWSUIT

Forced vaccinations now can be legally stopped-no quality control for 32 years. Wide ramifications for Australia

...This means that the US Department of Health and Human Services and all vaccine makers have been lying to the American people for over 30 years about the effectiveness and safety of vaccines; this may ultimately mean that continuing the existence -- at least in their current form -- of five US "healthcare" agencies are now in doubt: the CDC, the FDA, the IOM, the NIH and the "Health" part of DHHS itself; this may also threaten the existence of state medical boards and exclusive medical guilds like the AMA:

This means that vaccine makers have been fraudulently exempt from what all other pharmaceutical drug makers have been forced to do concerning biannual recertification for quality and effectiveness -- meaning that their vaccines have never been tested for quality and have had no proven safety or effectiveness for over 30 years;

This case can now be legally cited by all parents fraudulently mandated by any government/organizational regulation/requirements that they must vaccinate their children for school or any other activity to stop the forced vaccination of their children;

This case can now be legally cited by all employees being mandated by their employers to be vaccinated in order to retain their jobs;

This case can now be legally cited by all those who seek compensation for vaccine injury, making it likely that the pharmaceutical vaccine industry can in the near future be legally bankrupted out of existence, like Bayer-Monsanto after the landmark legal victory won by the dying landscaper in San Francisco several weeks ago, as well as their stock value plummeting precipitously...

Legal team wants 'second Nuremberg tribunal' to try global lockdown promoters for crimes against humanity

Should the technocrats who pushed governments to lockdown their citizens be tried for crimes against humanity?

One prominent German lawyer, who is also licensed to practice law in America, thinks they should. And he is organizing a team of thousands of participating lawyers who want to prosecute a "second Nuremberg tribunal" against a cadre of international elites responsible for what he calls the "corona fraud scandal."

Targeting the Davos, Switzerland-based World Economic Forum and its devotees among global political leaders, attorney Reiner Fuellmich says they are guilty of crimes against humanity for their perpetration of COVID-response policies that led to forced shutdowns, destroyed businesses, impoverished families, broken lives and a spike in suicide rates.

He has formed the German Corona Investigative Committee to pursue civil charges against the main perpetrators, among them being the head of the United Nations World Health Organization Dr. Tedros Adhanom. He hopes a successful class-action lawsuit will also lead to criminal charges...

<https://anti-empire.com/italian-researchers-vaccines-will-not-work-because-sars-cov-2-is-also-entering-bacteria/>

Italian Researchers: Vaccines Will Not Work Because SARS-CoV-2 Is Also Entering Bacteria
SARS-COV-2 is uniquely also replicating itself using bacteria cells which changes everything. Explains how it has colonized sewers.
by Monica Camozzi
Machine translated from Italian:

"Sars Cov 2 is also a bacteriophage virus. It means that it enters the bacteria and replicates its RNA from there as well. We finally have the scientific evidence, complete with photos of the virus colonizing the bacterium. This means that we are following procedures to be integrated. To eradicate it it takes more than classic viruses. Not only are closures needed, you need to disinfect and prevent. And now there is the scientific rationale for which antibiotics work. We will also need a vaccine against the toxins that we have found and our bacteria produce, much like the mechanism of diphtheria. Current vaccines will not be enough. In a while we will have many more variants: the Lombard, Venetian, Milan and Rome variant".

The discovery made by Carlo Brogna, Simone Cristoni and the other doctors of the research group with the lead partner Craniomed, founded in 2018 to study proteins, is sensational. Brogna anticipated everything, in a completely emergency way, in his book, for sale online, "Sars Cov 2, The Complete Truth", created to communicate to people who do not have a medical culture all the new major evidence on the virus. Which among other things is immortalized together with toxins while also replicating in bacteria. For the whole group that collaborated with Brogna it was a real surprise: "before having this scientific evidence, which is being approved in international journals to which we are providing additions to the research presented, I too was following the classical route".

Q: What does it mean that Sars Cov 2 is also bacteriophage, i.e. it replicates its RNA through bacteria?

It means that he injects his own genetic content into the bacterium and from there it is replicated. We have absolute and indisputable evidence of this with the many experimental tests we have performed. We are also collecting electron microscope photos. Let me explain. A virus normally attacks our cells, i.e. the epithelium and mucous membranes. It tries to enter and replicate and this induces an immune response in the host. It triggers a series of biochemical events to which the body responds with inflammation proteins. But above our cells is the microbiome, which is a layer of "good" bacteria that live with us. In the case of a bacteriophage virus, it does not pass without first interfacing with the microbiome, but also enters the bacteria. We were tied to the classic concept that the problem is that phages are usually ten times smaller than a coronavirus! Diphtheria, for example, is also a disease caused by a bacterium that produces toxins because it has been colonized by a phage virus.

Robin Monotti MA FRSA

Italian researchers: vaccines will not work against SARSCoV2 because this virus does not only replicate in human cells like other viruses, this one replicates through bacteria too. This is the fundamental reason why antibiotics work & vaccines will not...

Q: How did you understand this?

We at Craniomed do research on proteins. The absence of taste and smell in Covid patients was the subject of study and we used a very fine method, mass spectrometry, to find some abnormal proteins, which interfere with the nerve transmission of the two senses mentioned above. We have found such abnormal proteins in the blood and urine in people affected by COVID-19. Well, we have observed the same toxins several times in the same person but each time with different amino acids and this has made us go back to a concept of classical biology: when there are defects in the production of amino acids in the person, the origin of the problem is of type bacterial.

Q: Can you explain exactly how the evidence was reached that Sars Cov 2 replicates its RNA in bacteria?

I will try to explain it in a simple way. We did this by culturing bacteria from our microbiome and the virus. First, we took the fecal swab of some COVID-19 patients and cultured it for up to 7.14 and 30 days, seeing that the virus increased RNA production. Then, we took the virus and cultured it with bacteria from the fecal swab of a non-sick person, seeing that it was replicating here too. Finally, we took the bacteria from the first experiment and separated them from the virus! We grew them on their own and at 30 days they kept producing virions. The evidence was clear and we were incredulous at what we observed...

Q: What consequences does this discovery have on all that is being done to contain it?

Huge. First of all, since it is also a bacteriophage, we must accept the evidence that it is everywhere. Colonize sewers, waters, seas. Everything (that's why there was news of the virus in the papaya or in the fridge, in the Dutch or Milan sewers, ed). I do not think that it is enough to close everything periodically without continuously disinfecting schools, public places, means of transport, the streets, as they did in China. Periodic disinfection should be done with pre-established and coordinated protocols. Sure, the mask is protection, but not enough. Contact and orofecal transmission is another explanation for the continuous increases in positives. Furthermore, being ubiquitous and replicating quickly, it is reductive to speak of the Brazilian or English variant: soon we will have many variants, the Lombard, Lazio, then the Milanese and Roman ones and then the individual ones! In short, we will all have it within a few years. The good thing is that we now have the rationale on how to treat it early and the time factor is very important. It can be treated with antibiotics and avoiding some drugs but at "time zero".

Q: What antibiotics? And also here what evidence do you have?

We tested 18 antibiotics and treated 115 symptomatic infected with previous pathologies. Azithromycin, amoxicillin, metronidazole and vancomycin work great. We gave these antibiotics and probiotics immediately and at "time zero". The problem with this virus is toxins. Some enhance the drugs normally taken by people being treated for other previous diseases. For example, anti-inflammatories such as ibuprofen and even paracetamol cause many problems. Let's take an example. We have the rationale that bacteria produce a protein very similar to phospholipase A 2, which acts on inflammation and enhances pneumonia and coagulation of the vascular microcirculation. If we administer an anti-inflammatory NSAID we will amplify this effect. That is, we make pneumonia more severe. Increases in coagulation, neurological problems and pneumonia have resulted from this toxin-drug synergy. The toxin similar to conotoxin is the one that is most deleterious and is the one that acts on our autonomic nervous system and increases the effect of our neurotransmitter, acetylcholine, therefore all people who take drugs such as to name a few are at greater risk. ace inhibitors, beta blockers, calcium channel blockers, drugs for Parkinson's, and other similar diseases...

Professor Dolores Cahill & Catherine Austin Fitts: The Overwhelming Cost of Vaccine Injury

<https://leohohmann.com/2021/03/12/heres-why-mrna-injections-do-not-meet-the-legal-definition-of-vaccine/>

Here's why mRNA injections do not meet the legal definition of 'vaccine'

What is an mRNA injection? 'Let's be very clear,' says scientist David Martin, 'This is not a vaccine!'

"The use of the term vaccine is unconscionable for both the legal definition of it, but also because it actually is the sucker punch to open and free discourse, because by saying 'vaccine' you dump it into a thing where you could be anti or pro 'the therapy,' but if you actually talked about it as a therapy, and remember, and people forget this, Moderna was started as a chemotherapy company for cancer, not a vaccine manufacturer for SARS-COV2. If we said we're going to give people prophylactic therapy for the cancer they don't have, you'd be laughed out of a room, because that's a stupid idea. That's exactly what this is. This is a mechanical device in the form of a very small packet of technology that is being inserted into the human system to activate the cell to become a pathogen-manufacturing site.

"And I refuse to stipulate in any conversations that this is in fact a vaccine issue. The only reason why the term is being used was to abuse the 1905 Jacobson case that has been misrepresented since it was written. And if we were honest with this we would actually call it what it is. It is a chemical pathogen device that is actually meant to unleash a chemically pathogen production action within a cell. It is a medical device, not a drug, because it meets the CDRH [Center for Devices and Radiological Health] definition of a medical device. It is not a living system, it is not a biologic system [as it would be if it were a vaccine]. It is a physical technology. It happens to just come in the size of a molecular package.

"So we need to be really clear on making sure we don't fall for their game, because their game is if we talk about it as a vaccine then we're going to get into a vaccine conversation. But this is not, by their own admission, a vaccine. As a result it must be clear to everyone listening that we will not fall for this failed definition, just like we won't fall for their industrial-chemical definition of health, because both of them are functionally flawed and are an explicit violation of the legal construct that is being exploited.

16 Glaring Parallels Between the 9/11 and COVID Ops

<https://www.youtube.com/watch?v=t3P9CYGq9M4>

It's Here: First Court Case Against Mandatory Vaccination: Attorney Interview -- Spiro Skouras

In this interview, Spiro is joined by Attorney Ana Garner of New Mexico. Garner represents her client Isaac Legaretta, an officer at the Doña Ana County Detention Center and a military veteran, who is suing the county over its new policy for first responders to receive the COVID-19 vaccinations or face termination.

Attorney Garner explains the significance of this case and what is at stake, as it is the first of its kind and may set a new standard for legal precedent regarding mandatory vaccination. Garner says she is prepared to take this case to the Supreme Court if necessary.

Spiro and Ana Garner also discuss another case of her's that is ongoing currently. A case that challenges not only the Governor of New Mexico, but the emergency itself.

Assessing mandatory stay-at-home and business closure effects on the spread of COVID-19

Eran Bendavid, Christopher Oh, Jay Bhattacharya, John P. A. Ioannidis -- 05 January 2021

Background and Aims

The most restrictive nonpharmaceutical interventions (NPIs) for controlling the spread of COVID-19 are mandatory stay-at-home and business closures. Given the consequences of these policies, it is important to assess their effects. We evaluate the effects on epidemic case growth of more restrictive NPIs (mrNPIs), above and beyond those of less-restrictive NPIs (lrNPIs).

Methods

We first estimate COVID-19 case growth in relation to any NPI implementation in subnational regions of 10 countries: England, France, Germany, Iran, Italy, Netherlands, Spain, South Korea, Sweden and the United States. Using first-difference models with fixed effects, we isolate the effects of mrNPIs by subtracting the combined effects of lrNPIs and epidemic dynamics from all NPIs. We use case growth in Sweden and South Korea, 2 countries that did not implement mandatory stay-at-home and business closures, as comparison countries for the other 8 countries (16 total comparisons).

Results

Implementing any NPIs was associated with significant reductions in case growth in 9 out of 10 study countries, including South Korea and Sweden that implemented only lrNPIs (Spain had a nonsignificant effect). After subtracting the epidemic and lrNPI effects, we find no clear, significant beneficial effect of mrNPIs on case growth in any country. In France, for example, the effect of mrNPIs was +7% (95% CI: -5%-19%) when compared with Sweden and +13% (-12%-38%) when compared with South Korea (positive means pro-contagion). The 95% confidence intervals excluded 30% declines in all 16 comparisons and 15% declines in 11/16 comparisons.

Conclusions

While small benefits cannot be excluded, we do not find significant benefits on case growth of more restrictive NPIs. Similar reductions in case growth may be achievable with less-restrictive interventions.

California Senator Dr. Richard Pan Anointed by Big Pharma Media to Start "Domestic Terrorist" Campaign Against Those Who Refuse the Experimental COVID Vaccines

https://www.cnn.com/2021/03/08/covid-cdc-study-finds-roughly-78percent-of-people-hospitalized-were-overweight-or-obese.html?_source=sharechar%7Ctwitter&par=sharechar

CDC study finds about 78% of people hospitalized for Covid were overweight or obese

About 78% of people who have been hospitalized, needed a ventilator or died from Covid-19 have been overweight or obese, the Centers for Disease Control and Prevention said in a new study Monday. Just over 42% of the U.S. population was considered obese in 2018, according to the agency's most recent statistics. Overweight is defined as having a body mass index of 25 or more, while obesity is defined as having a BMI of 30 or more.

"As clinicians develop care plans for COVID-19 patients, they should consider the risk for severe outcomes in patients with higher BMIs, especially or those with severe obesity," the CDC wrote...

"There is absolutely no need for vaccines to extinguish the pandemic. I've never heard such nonsense talks about vaccines. You do not vaccinate people who aren't at risk from a disease. You also don't set about planning to vaccinate millions of fit and healthy people with a vaccine that hasn't been extensively tested on human subjects." – **Dr. Michael Yeadon (Former Vice President / Chief Scientist @ Pfizer)**

Johnson & Johnson to Test COVID Vaccine on Infants

Days after the FDA approved J&J's COVID vaccine for emergency use, the company announced plans to test the vaccine on newborns, despite the vaccine's risks and strong evidence that COVID poses virtually no risk to healthy children.

Covid-19: Saudi Arabia says vaccine is a must for Hajj

<https://infiniteunknown.net/2020/10/31/what-in-the-world-is-deagel-com-deagel-com-forecast-2025/>

What in the World is Deagel.com? – Deagel.com: Forecast 2025

...Perhaps most surprising of all is the revelation of who is behind Deagel, and to find that answer, Whois was the solution. Early researchers were able to uncover that the person behind the website was none other than former government insider, Edwin Deagle.

Deagle was Undersecretary of the Air Force under President Bill Clinton. He later became Assistant to the Secretary of Defense and the Deputy Secretary of Defense under Clinton in 1994.

Edwin Deagle is also listed as an active member of the CFR.

Perhaps most telling of all is the interesting fact that Deagle is the Director for International Relations for the Rockefeller Foundation, one of the leading eugenic supporters in the world...

<https://www.deagel.com/forecast>

Disclaimer

In 2014 we published a disclaimer about the forecast. In six years the scenario has changed dramatically. This new disclaimer is meant to single out the situation from 2020 onwards. Talking about the United States and the European Union as separated entities no longer makes sense. Both are the Western block, keep printing money and will share the same fate.

After COVID we can draw two major conclusions:

The Western world success model has been built over societies with no resilience that can barely withstand any hardship, even a low intensity one. It was assumed but we got the full confirmation beyond any doubt.

The COVID crisis will be used to extend the life of this dying economic system through the so called Great Reset.

The Great Reset; like the climate change, extinction rebellion, planetary crisis, green revolution, shale oil (...) hoaxes promoted by the system; is another attempt to slow down dramatically the consumption of natural resources and therefore extend the lifetime of the current system. It can be effective for awhile but finally won't address the bottom-line problem and will only delay the inevitable. The core ruling elites hope to stay in power which is in effect the only thing that really worries them.

The collapse of the Western financial system - and ultimately the Western civilization - has been the major driver in the forecast along with a confluence of crisis with a devastating outcome. As COVID has proven Western societies embracing multiculturalism and extreme liberalism are unable to deal with any real hardship. The Spanish flu one century ago represented the death of 40-50 million people. Today the world's population is four times greater with air travel in full swing which is by definition a super spreader. The death casualties in today's World would represent 160 to 200 million in relative terms but more likely 300-400 million taking into consideration the air travel factor that did not exist one century ago. So far, COVID death toll is roughly 1 million people. It is quite likely that the economic crisis due to the lockdowns will cause more deaths than the virus worldwide

The Soviet system was less able to deliver goodies to the people than the Western one. Nevertheless Soviet society was more compact and resilient under an authoritarian regime. That in mind, the collapse of the Soviet system wiped out 10 percent of the population. The stark reality of diverse and multicultural Western societies is that a collapse will have a toll of 50 to 80 percent depending on several factors but in general terms the most diverse, multicultural, indebted and wealthy (highest standard of living) will suffer the highest toll. The only glue that keeps united such aberrant collage from falling apart is overconsumption with heavy doses of bottomless degeneracy disguised as virtue. Nevertheless the widespread censorship, hate laws and contradictory signals mean that even that glue is not working any more. Not everybody has to die migration can also play a positive role in this.

The formerly known as second and third world nations are an unknown at this point. Their fate will depend upon the decisions they take in the future. Western powers are not going to take over them as they did in the past because these countries won't be able to control their own cities far less likely countries that are far away. If they remain tied to the former World Order they will go down along Western powers but won't experience the brutal decline of the late because they are poorer and not diverse enough but rather quite homogenous used to deal with some sort of hardship but not precisely the one that is coming. If they switch to China they can get a chance to stabilize but will depend upon the management of their resources.

We expected this situation to unfold and actually is unfolding right now with the November election triggering a major bomb if Trump is re-elected. If Biden is elected there will very bad consequences as well.

There is a lot of bad blood in the Western societies and the protests, demonstrations, rioting and looting are only the first symptoms of what is coming. However a new trend is taking place overshadowing this one.

The situation between the three great powers has changed dramatically. The only relevant achievement of the Western powers during the past decade has been the formation of a strategic alliance, both military and economic, between Russia and China. Right now the potential partnership between Russia and the European Union (EU) is dead with Russia turning definitively towards China. That was from the beginning the most likely outcome. Airbus never tried to establish a real partnership but rather a strategy to fade away the Russian aerospace industry. Actually Russia and China have formed a new alliance to build a long haul airliner. Western Europe (not to mention the United States) was never interested in the development of Russia or forming anything other than a master slave relationship with Russia providing raw materials and toeing the line of the West. It was clear then and today is a fact.

Russia has been preparing for a major war since 2008 and China has been increasing her military capabilities for the last 20 years. Today China is not a second tier power compared with the United States. Both in military and economic terms China is at the same level and in some specific areas are far ahead. In the domain of high-tech 5G has been a success in the commercial realm but the Type 055 destroyer is also another breakthrough with the US gaining a similar capability (DDG 51 Flight III) by mid of this decade (more likely by 2030). Nanchang, the lead ship of the Type 055 class, was commissioned amid the pandemic and lockdown in China.

Six years ago the likelihood of a major war was tiny. Since then it has grown steadily and dramatically and today is by far the most likely major event in the 2020s. The ultimate conflict can come from two ways. A conventional conflict involving at least two major powers that escalates into an open nuclear war. A second scenario is possible in the 2025-2030 timeframe. A Russian sneak first strike against the United States and its allies with the new S-500, strategic missile defenses, Yasen-M submarines, INF Zircon and Kalibr missiles and some new space asset playing the key role. The sneak first strike would involve all Russian missile strategic forces branches (bombers and ground-based missiles) at the different stages of such attack that would be strategic translation of what was seen in Syria in November 2015. There was no report that the Russian had such a capability of launching a high precision, multiple, combined arms attack at targets 2,000+ kilometers away. Western intelligence had no clue. The irony is that since the end of

the Cold War the United States has been maneuvering through NATO to achieve a position to execute a first strike over Russia and now it seems that the first strike may occur but the country finished would be the United States.

Another particularity of the Western system is that its individuals have been brainwashed to the point that the majority accept their moral high ground and technological edge as a given. This has given the rise of the supremacy of the emotional arguments over the rational ones which are ignored or deprecated. That mindset can play a key role in the upcoming catastrophic events. At least in the Soviet system the silent majority of the people were aware of the fallacies they were fed up. We can see the United States claims about G5 being stolen from them by China or hypersonic technology being stolen by Russia as the evidence that the Western elites are also infected by that hubris. Over the next decade it will become obvious that the West is falling behind the Russia-China block and the malaise might grow into desperation. Going to war might seem a quick and easy solution to restore the lost hegemony to finally find them into a France 1940 moment. Back then France did not have nuclear weapons to turn a defeat into a victory. The West might try that swap because the unpleasant prospect of not being Mars and Venus but rather a bully and his dirty bitch running away in fear while the rest of the world is laughing at them. If there is not a dramatic change of course the world is going to witness the first nuclear war. The Western block collapse may come before, during or after the war. It does not matter. A nuclear war is a game with billions of casualties and the collapse plays in the hundreds of millions.

<https://articles.mercola.com/sites/articles/archive/2021/03/01/moist-masks.aspx>

Officials Reach New Low, Say Moist Masks Are Good for You

Story at-a-glance

A study from the National Institutes of Health claims wearing a moist mask is actually good for you because inhaling through the wet mask hydrates your lungs and boosts your immune system. However, it's important to realize that the humidity inside the mask will rapidly allow pathogenic bacteria to grow and multiply. This is a documented fact not addressed by the NIH. Medical doctors have warned that bacterial pneumonia, facial rashes, fungal infections on the face, "mask mouth" (bad breath, tooth decay and gum inflammation) and candida mouth infections are all on the rise. By breathing through a bacteria-infested mask, you risk inhaling bacteria deep into your lungs, and according to recent research, the presence of microbes in your lungs can worsen lung cancer pathogenesis and contribute to advanced stage lung cancer. Face masks can also reduce oxygen intake, leading to hazardous oxygen deficiency (hypoxia), along with rapid accumulation of harmful carbon dioxide, which can have significant cognitive and physical impacts.

<https://drcircus.com/general/bicarbonate-proves-to-be-cheapest-fastest-safest-covid-treatment/>

Bicarbonate Proves to be Cheapest Fastest Safest COVID Treatment

...There is an official study in Acre, Brazil that has doctors amazed at how fast COVID infected patients got better after nebulizing with 3 grams of sodium bicarbonate (widely available baking soda) in 100 ml of water administered in a nebulizer. ... The research was carried out by the Federal University of Acre (Ufac) in partnership with the Oswaldo Cruz Foundation (Fiocruz), an organization dedicated to viral and vaccine research. The study was approved by the National Ethics and Research Commission (Cnep). The treatment, which seeks to improve oxygen saturation in the blood, has already been done in about 300 people in Acre. ... Legal team wants 'second Nuremberg tribunal' to try global lockdown promoters for crimes against humanity

Should the technocrats who pushed governments to lockdown their citizens be tried for crimes against humanity? One prominent German lawyer, who is also licensed to practice law in America, thinks they should. And he is organizing a team of thousands of participating lawyers who want to prosecute a "second Nuremberg tribunal" against a cadre of international elites responsible for what he calls the "corona fraud scandal."...

<https://davidicke.com/2021/02/28/defeating-covid-test-fraud-memo-to-lawyers-and-clients/>

Defeating 'Covid' Test Fraud: Memo to Lawyers and Clients

...If a client is told to get tested, his lawyer states the following: "My client needs a sworn affidavit from the lab declaring how many cycles will be used." If the lab refuses to comply, sue them. If the lab complies, and the cycles are higher than 35, sue them. We also know that test results from various labs are not uniform. One lab will say the patient tests positive; another lab will say negative. This fact has been an open secret in the testing community for decades. Strategy: A lawyer has his client tested at several centers, in one day, in different locations, in different states—knowing that a different lab will process each test. If the tests come back with different results, sue the labs. What would happen if, say, 50 lawyers and their clients pursued these two strategies and sued? What would happen if a significant amount of publicity surrounded each lawyer and his client? A breakthrough would occur. A huge number of people across the world would become aware that COVID PCR testing is rife with fraud. Even if judges and courts refused to hear the cases, the publicity alone would provoke a major transformation in public insight...

Respirator Specialist from Canada PROVES Masks for Coronavirus Cause Harm

<https://pubmed.ncbi.nlm.nih.gov/33546144/>

In this article, we aim to develop a political economy of mass hysteria. Using the background of COVID-19, we study past mass hysteria. Negative information which is spread through mass media repetitively can affect public health negatively in the form of nocebo effects and mass hysteria. We argue that mass and digital media in connection with the state may have had adverse consequences during the COVID-19 crisis. The resulting collective hysteria may have contributed to policy errors by governments not in line with health recommendations. While mass hysteria can occur in societies with a minimal state, we show that there exist certain self-corrective mechanisms and limits to the harm inflicted, such as sacrosanct private property rights. However, mass hysteria can be exacerbated and self-reinforcing when the negative information comes from an authoritative source, when the media are politicized, and social networks make the negative information omnipresent. We conclude that the negative long-term effects of mass hysteria are exacerbated by the size of the state.

<https://tapnewswire.com/2021/02/the-world-is-suffering-from-mass-delusional-psychosis/>

The World Is Suffering From “Mass Delusional Psychosis”

According to psychiatrist and medical legal expert Dr. Mark McDonald, the true public health crisis is not COVID-19 itself; rather, it's the fear of the infection, which has “morphed and evolved into a form of mass delusional psychosis”

Many enter a state of hysteria when they see an unmasked person, even if they look perfectly healthy and clearly are not suffering from any kind of respiratory issue. This is a highly irrational state that has no basis in reality

Delusion is defined as believing something that doesn't conform with reality

There are serious concerns about the lasting effects this widespread insanity will have on children as they grow up. One of the worst traumas children suffer as a result of all this fearmongering is the idea that they may kill their parents or grandparents simply by being around them

Treating the children's trauma in therapy is not going to be enough, as parents and other adults are the ones creating the trauma by their own exaggerated fear response. To heal a generation of traumatized children, we must first address the psychosis of the adult population...

“Instead of facing reality, the delusional person would rather live in their world of make-believe. But in order to keep faking reality, they'll have to make sure that everyone else around them also pretends to live in their imaginary world.

In simpler words, the delusional person rejects reality. And in this rejection of reality, others have to play along with how they view the world, otherwise, their world will not make sense to them. It's why the delusional person will get angry when they face someone who doesn't conform to their world view ...

It's one of the reasons why you're seeing so many people who'd happily approve the silencing of any medical experts whose views contradict the WHO or CDC guidelines. ‘Obey the rules!’ becomes more important than questioning if the rules were legitimate to begin with.”...

“There was never a medical crisis. There were always enough resources to deal with the people who were sick ... Many resources were in fact turned away ... The question then, for me, became, ‘What's the real crisis? What are people really suffering from?’

It became clear to me, very quickly, within the first two or three weeks in March [2020], that it was fear. Since then ... the fear ... has morphed and evolved, not just into a ‘I'm worried, I'm scared so I need to stay home,’ but an actual belief that is against reality — because the definition of delusion is something you believe that doesn't conform with reality.

They believe that they are going to die — no matter what age, no matter what state of health they're in — if they don't leave their house with a mask and gloves on every day and run from [other] human beings. That's delusional psychosis. It's false, it's wrong, it's not backed up by evidence. And many, many Americans are living that and believing that.”...

COVID-19 Vaccine To Be Tested on 6-Year-Olds

Story at-a-glance
COVID-19 “vaccines” do not impart immunity or inhibit transmissibility of the disease. In other words, they are not designed to keep you from getting sick with SARS-CoV-2; they only are supposed to lessen your infection symptoms if or when you get infected. As such, these products do not meet the medical definition of a vaccine

As of February 4, 2021, the U.S. Vaccine Adverse Event Reporting System (VAERS) has received 12,697 injury reports following COVID-19 vaccination and 653 deaths
University of Oxford, which is collaborating on a COVID-19 vaccine with AstraZeneca, is now enrolling children between the ages of 6 years and 17 years and 8 months in their U.K. vaccine trial

Moderna started testing its RNA-based gene therapy on American children between the ages of 12 and 17 in December 2020, and the first Pfizer trials involving adolescents began in mid-October 2020. In China, Sinovac and SinoPharm trials have been enrolling children as young as 3

Children do not need a COVID-19 vaccine as they are at extremely low risk of severe COVID-19 and are not a significant vector of infection

https://www.bibliotecapleyades.net/ciencia3/ciencia_coronavirus291.htm

https://www.bibliotecapleyades.net/archivos_pdf/fauci-covid19-dossier.pdf

The Fauci/COVID-19 Dossier – by Dr. David E. Martin.

...The National Institute of Health's grant AI23946-08 issued to Dr. Ralph Baric at the University of North Carolina at Chapel Hill (officially classified as affiliated with Dr. Anthony Fauci's NIAID by at least 2003) began the work on, "synthetically altering the Coronaviridae (the coronavirus family) for the express purpose of general research, pathogenic enhancement, detection, manipulation, and potential therapeutic interventions targeting the same."

As early as May 21, 2000, Dr. Baric and UNC sought to patent critical sections of the coronavirus family for their commercial benefit.
In one of the several papers derived from work sponsored by this grant, Dr. Baric published what he reported to be the full length cDNA of SARS CoV in which it was clearly stated that SAR CoV was based on a composite of DNA segments...

... On April 19, 2002, the Spring before the first SARS outbreak in Asia - Christopher M. Curtis, Boyd Yount, and Ralph Baric - filed an application for U.S. Patent 7,279,372 for a method of producing recombinant coronavirus.

In the first public record of the claims, they sought to patent a means of producing, "an infectious, replication defective, coronavirus."
This work was supported by the NIH grant referenced above and GM63228...

In short, the U.S. Department of Health and Human Services was involved in the funding of amplifying the infectious nature of coronavirus between 1999 and 2002 before SARS was ever detected in humans.
This legality did not deter CDC in their efforts.

Their application, updated in 2007, ultimately issued as U.S. Patent 7,220,852 and constrained anyone not licensed by their patent from manipulating SARS CoV, developing tests or kits to measure SARS coronavirus in humans or working with their patented virus for therapeutic use.

Work associated with this virus by their select collaborators included considerable amounts of,
chimeric engineering
gain-of-function studies
viral characterization
detection
treatment (both vaccine and therapeutic intervention)
weaponization inquiries

The SPARS Pandemic 2025-2028: A Futuristic Scenario to Facilitate Medical Countermeasure Communication
Emily K. Brunson, et al.

Abstract

Effective communication about medical countermeasures—including drugs, devices and biologics—is often critical in emergency situations. Such communication, however, does not just happen. It must be planned and prepared for. One mechanism to develop communication strategies is through the use of prospective scenarios, which allow readers the opportunity to rehearse responses while also weighing the implications of their actions. This article describes the development of such a scenario: The SPARS Pandemic 2025-2028. Steps in this process included deciding on a timeframe, identifying likely critical uncertainties, and then using this framework to construct a storyline covering both the response and recovery phases of a fictional emergency event. Lessons learned from the scenario development and how the scenario can be used to improve communication are also discussed.

"... Fauci says the test is useless when it's run at 35 cycles or higher. The FDA says run the test up to 40 cycles, in order to determine whether the virus is there. This is the crime in a nutshell... here are two chunks of evidence for what I've written above. First, we have a CDC quote on the FDA website, in a document titled [3] [3a] [3b]: "CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel For Emergency Use Only." See pdf page 38 (doc page 37).
FDA: "...a specimen is considered positive for 2019-nCoV [virus] if all 2019-nCoV marker (N1, N2) cycle threshold growth curves cross the threshold line within 40.00 cycles ([less than] 40.00 Ct)."...

Are We on the Verge of a 'Super-Epidemic' of Autoimmune Diseases?

Some of the world's leading immunologists blame exposure to SARS-CoV-2, others blame the experimental COVID vaccines — but could both potentially cause a devastating super-epidemic of autoimmune disease?

<https://www.nejm.org/doi/full/10.1056/NEJMra020100>

The Effect of Infections on Susceptibility to Autoimmune and Allergic Diseases
Jean-François Bach, M.D., D.Sc.

The hygiene hypothesis postulates that an environment with a high incidence of infectious diseases protects against allergic and autoimmune diseases, whereas hygienic surroundings increase the incidence of these disorders. This review examines the evidence in support of the hygiene hypothesis and offers a number of mechanisms that could explain the relation between sanitary conditions and susceptibility to allergic and autoimmune diseases.

DOI: 10.13140/RG.2.2.31754.80323

Studie zum Ursprung der Coronavirus-Pandemie

A new study from renowned University of Hamburg researcher Roland Wiesendanger concludes the Wuhan Institute of Virology was the “cause” of COVID-19.

The February study argues against two prevailing theories that COVID-19 was transmitted to humans either via a wet market or a lab accident.

“To date, there is no scientifically based rigorous evidence for either mentioned theories,” Wiesendanger, a three-time recipient of the prestigious European Research Council grant.

Wiesendanger's 105-page report continues, asking: “is the current global crisis actually the result of a coincidence in nature – a coincidental mutation of a coronavirus a bat with the assistance of an intermediate host – or the result of a Scientist carelessness when carrying out the project is high-risk research with global pandemic potential?”

To answer the question, Wiesendanger cites 600 incontrovertible facts to bolster his theory that “the number and the quality of evidence clearly indicate a laboratory accident at the Wuhan Institute of Virology.”..

<https://greatgameindia.com/sona-pekova-coronavirus-artificially-engineered/>

Czech Microbiologist Soňa Peková Claims 2nd And 3rd Wave Coronavirus Strain Was Artificially Engineered

Czech Microbiologist Soňa Peková has claimed in an interview that the coronavirus strain which caused the 2nd and the 3rd wave was artificially engineered. According to her, the COVID-19 vaccine may not work for the British coronavirus mutation, and that it is not certain what the vaccine will do in five to ten years. She also admitted that she would not be vaccinated.

Czech Microbiologist Soňa Peková Claims 2nd And 3rd Wave Coronavirus Strain Was Artificially Engineered

The Czech microbiologist Soňa Peková said in an interview for Reflex and reported by the Czech edition of CNN:

“I don't think the vaccine may work. It was developed against something that no longer exists here. Some say that his vaccine will work for the British strain, but I dare to doubt it.”

“This is mainly based on how many significant mutations this British strain carries and how much heterogeneity (sequence diversity) exists between strains. Vaccines that already exist may have a problem with the strains that are currently circulating here.”

She understands that pharmaceutical companies are bleeding a lot and need a revoluton investment. She also said that there is not enough experience in medicine with genetically modified vaccines in such a revolutionary design as coronavirus vaccines.

“We do not know their long-term safety profile. I would not be afraid of so many immediate effects, but those that can occur in five to ten years. If someone is thirty, it can be a risk. I won’t get vaccinated, “said the microbiologist.

According to her, what has circulated and is circulating in autumn and winter are other strains, other viruses that are not descendants of the spring (virus).

According to her, each wave was caused by a different, new virus and have nothing to do with the spring (virus), which has disappeared. And the British mutation is already the fourth strain in a row.

“The spring virus was the first, the second in September, the third in December and the new one, the British, is the fourth. I would almost exaggerate to say that it was SARS-CoV-2 in the spring, SARS-CoV-3 in September, and SARS-CoV-4 in December until now.”

“And the British mutation should be called SARS-CoV-5. Each wave behaves clinically a little differently, the virus has a different genome, a different program, according to which it is written, “Peková specified.

“If the second or third wave came from the first, we would see the mutations that the virus picked up over time in the viruses of the second and third waves. But this is not the case. I have no idea where they came from, “Peková said.

“But it’s something else. And I don’t know where the cave they are flying from is, “the microbiologist pointed out, adding that the viruses are artificially modified according to her.

“My message has not changed since the spring: Find the cave from which it flies, close it, close its employees and its management. Many say we should prepare for another pandemic. My God, by no means. This must not set a precedent, “Peková said in an interview.

At the same time, she added that the virus does not behave at all the way natural isolates behave.

“It goes beyond everything we’ve ever seen. It’s from a bat and it’s modified to infect humans,” Peková said.

“Let’s just be vigilant, let’s continue to test and objectify what exactly is happening at a given moment,” the microbiologist emphasized.

As reported by GreatGameIndia last year, Chinese officials deleted 300 studies of Batwoman Shi Zhengli from the top secret Wuhan lab linked to the origins of COVID-19. Details of more than 300 studies, including many investigating diseases that pass from animals to humans are no longer available.

Last year a Beijing-based media group Caixin published a shocking report that the Hubei Provincial Health and Medical Commission ordered the destruction of Coronavirus samples.

Five years ago, Italian state owned media Company, Rai – Radiotelevisione Italiana, exposed these Chinese experiments on viruses.

The video, which was broadcast in November, 2015, showed how Chinese scientists were conducting biological experiments on a SARS connected virus believed to be Coronavirus, derived from bats and mice, asking whether it was worth the risk in order to be able to modify the virus for compatibility with human organisms.

The person who covered-up this biological experiments and orchestrated the myth of the natural origin of COVID-19 is Peter Daszak.

The President of EcoHealth Alliance, Peter Daszak is the one who orchestrated the myth that COVID-19 is natural in origin.

<http://82.221.129.208/ut0.html>
The West's obituary

Coronaviruses are notorious for ADE reactions, where antibody presence potentiates the infection instead of protecting against it. Using that as a bioweapon is stupid because you will score "own goals" on your own people and there is no way to control that. As a result biological weapons generally are dumb; poison gas and such don't have this risk since it does not propagate but any disease does.

The poster child for ADE in coronaviruses was an attempted vaccine for a feline coronavirus that often made cats very sick. The vaccine killed every one of them in the test when they were later exposed, wildly potentiating the infection.

Read that again folks: NOT ONE VACCINATED CAT SURVIVED A CHALLENGE WITH THE ACTUAL VIRUS.

Ordinary vaccines we have lots of experience with, such as measles, the flu shot, mumps and similar do not carry a risk beyond that of natural infection and cannot be weaponized because they produce the exact same antibody response as a natural infection. If you have had either the measles or the shot you will have antibodies but an antibody test will not tell you which since they're not distinguishable.

I suspected from the start that due to the way these mRNA shots work -- they are not actually a vaccine at all in that they do not "mimic" natural infection but rather cause your cells to produce the spike protein that the virus has and that elicits an immune response -- that the antibodies produced by those jabs would be distinct and distinguishable from natural infection.

All of the so-called "experts" who worked to develop these and the firms involved knew damn well this was the case when they started developing them -- and did it anyway.

Now we have hard, scientific confirmation of that and it's very bad.

In fact it's potentially nation-ending bad.

An adversary that develops a virus (e.g. another modified/mutated bat virus, for example) that selectively targets ADE in people with the specific antibodies from vaccination, which are distinct from natural infection, could easily kill every single person who was vaccinated and not harm or only make mildly sick those who either had Covid-19 naturally or who were uninfected and unvaccinated.

The nightmare scenario that has always driven bioweapons research is the push to discover some genetically distinct means of targeting a bioweapon such that it only kills your adversary and leaves everyone else alone. It's even worse for your adversary if your side gets and transmits it but doesn't get sick. This has never been found despite diligent effort in the past; all attempts to find such a distinct vulnerability have failed, showing reactivity across the board and thus strongly suggesting that if that "thing" was completed and got out it would kill indiscriminately. That you cannot stop a virus from circulating (even isolated islands eventually got hit by the 1918 pandemic flu!) means that releasing a virus or bacteria that nobody on "your" side has been sensitized to yet doesn't help because when (not if) the sensitizing agent gets into your population all your people die too.

This has now, for the first time in human history, been changed by the idiotic actions of our governments and pharmaceutical companies in that we are now tagging people for death by the literal millions and they will die if an adversary is able to develop a virus that targets those specific antibodies.

Of course, said adversary will not deploy the tagging via said shots in their population and thus their people will not be attacked and killed. Since it takes an actual jab of a needle to be sensitized absent intentional action there is no risk to the adversary's population or troops.

I give the odds of an adversary (remember, we're talking nations here with nearly unlimited resources and plenty of smart people) figuring out how to selectively target Covid-19 vaccination antibodies at 50% or better within the next five years.

If they succeed every single person who took one of the vaccines that produces a distinguishable antibody dies.

You can bet your last nickel they're working on it right now.

What happens if they succeed and we forcibly vaccinated our children and anyone who wishes to have a "normal" life back? The entire procreation-capable stock of people in the United States will die and so will America.

That risk is wildly beyond the boundaries of sanity to have ever been accepted and it was deliberately concealed from the people -- not just here, but throughout the Western World.

It's clearly not enough for certain ghouls to have destroyed a full year of most school-age children's education; now they propose to risk literally extinguishing all of their lives and thus the future generations they would be able to create down the road.

I pray I'm wrong.

Unfortunately I know that I'm not -- there are plenty of people, both terrorists and evil nation-states that would love to unleash something like this on those they hate, they will work on this problem and if they discover a way to exploit it they will do so.

The use of any "vaccine" that does not produce an identical antibody to natural infection must be halted immediately and never done again. We cannot do anything for the people already stabbed but we can eliminate the incentive to develop such a weapon by not having any material percentage of the productive and young population able to be targeted.

The option to cancel the risk of self-destruction of our nation and many others will expire within weeks...

SARS- and Other Coronaviruses: Laboratory Protocols
Leen Vijgen, Elien Moës, Els Keyaerts, Sandra Li, Marc Van Ranst, Dave Cavanagh (2008)

In 2003, the word "coronavirus" spread across the globe, somewhat further than the virus that sparked the panic. In SARS- and Other Coronaviruses: Laboratory Protocols, expert researchers examine these devastating viruses through detailed laboratory protocols. Chapters deal with such subjects as detection and discovery of coronaviruses by nucleic acid and antibody-based approaches, virus isolation, propagation and titration, virus purification, structure analysis by electron cryomicroscopy, expression and crystallization of viral proteins, raising antibodies against viral proteins, manipulation of the coronavirus genome, and descriptions of how to investigate aspects of the cell surface for coronavirus receptors. Composed in the highly successful Methods in Molecular Biology™ series format, each chapter contains a brief introduction, step-by-step methods, a list of necessary materials, and a Notes section which shares tips on troubleshooting and avoiding known pitfalls.

Comprehensive and cutting-edge, SARS- and Other Coronaviruses: Laboratory Protocols serves as an ideal guide for all virologists and especially for those working with coronaviruses.

Vaxicide & The Nuremberg Code :

<https://humansarefree.com/2021/02/mandatory-masks-and-vaccines-break-the-10-points-of-the-nuremberg-code.html>

Do Mandatory Masks and Vaccines Break the 10 Points of the Nuremberg Code?

<https://humansarefree.com/wp-content/uploads/2020/05/2-2-the-nuremberg-code.pdf>

The Nuremberg Code (1949)

1.The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved, as to enable him to make an understanding and enlightened decision. This latter element requires that, before the acceptance of an affirmative decision by the experimental subject, there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person, which may possibly come from his participation in the experiment. The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity. 2.The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature. 3.The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study, that the anticipated results will justify the performance of the experiment. 4.The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury. 5.No experiment should be conducted, where there is an apriori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects. 6.The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment. 7.Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death. 8.The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment. 9.During the course of the experiment, the human subject should be at liberty to bring the experiment to an end, if he has reached the physical or mental state, where continuation of the experiment seemed to him to be impossible. 10.During the course of the experiment, the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgement required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject. "Trials of War Criminals before the Nuremberg Military Tribunals under Control Council Law No. 10", Vol. 2, pp. 181-182. Washington, D.C.: U.S. Government Printing Office, 1949.]

As stated here repeatedly for over a year : " a coup d'etat" --

<https://childrenshealthdefense.org/defender/robert-kenney-jr-instagram-removal-account/>

...Robert F. Kennedy, Jr., Chairman of Children's Health Defense, said:

"Every statement I put on Instagram was sourced from a government database, from peer-reviewed publications and from carefully confirmed news stories. None of my posts were false. Facebook, the pharmaceutical industry and its captive regulators use the term 'vaccine misinformation' as a euphemism for any factual assertion that departs from official pronouncements about vaccine health and safety, whether true or not. This kind of censorship is counterproductive if our objective is a safe and effective vaccine supply.

"The pharmaceutical industry is hastily creating vaccines using taxpayer money and untested technologies. These include a rash of risky new products that are exempt from liability, from long-term safety testing and that have not received FDA approval. Emergency Use Authorization is a mass population scientific experiment. If it has any prayer of working, it will require extraordinary scrutiny from the press and the public.

"Instead, the mainstream media and social media giants are imposing a totalitarian censorship to prevent public health advocates, like myself, from voicing concerns and from engaging in civil informed debate in the public square. They are punishing, shaming, vilifying, gaslighting and abolishing individuals who report their own vaccine injuries.

"Anyone can see that this is a formula for catastrophe and a coup d'état against the First Amendment, the foundation stone of American democracy."

Ivermectin is effective for COVID-19: real-time meta analysis of 39 studies

100% of the 39 studies to date report positive effects. Early treatment is more successful, with an estimated reduction of 81% in the effect measured using a random effects meta-analysis, RR 0.19 [0.11-0.33].

Prophylactic use also shows high effectiveness.

100% of the 20 Randomized Controlled Trials (RCTs) report positive effects, with an estimated reduction of 72%, RR 0.28 [0.17-0.47].

The probability that an ineffective treatment generated results as positive as the 39 studies to date is estimated to be 1 in 550 billion (p = 0.00000000000018).

<https://childrenshealthdefense.org/defender/moderna-pfizer-vaccines-blood-clots-brain-inflammation-heart-attacks/?eType=EmaillBlastContent&cid=d0370599-722d-4ba7-bc5a-2f799066cda0>

Could Spike Protein in Moderna, Pfizer Vaccines Cause Blood Clots, Brain Inflammation and Heart Attacks?

By Lyn Redwood

Dr. J. Patrick Whelan, a pediatric rheumatologist, warned the FDA in December that mRNA vaccines could cause microvascular injury to the brain, heart, liver and kidneys in ways not assessed in safety trials... Specifically, Whelan was concerned that the new mRNA vaccine technology utilized by Pfizer and Moderna has "the potential to cause microvascular injury (inflammation and small blood clots called microthrombi) to the brain, heart, liver and kidneys in ways that were not assessed in the safety trials."

While Whelan did not dispute the vaccines' potential to quickly arrest the spread of the virus (assuming that the vaccines prove to actually prevent transmission — also not assessed in the clinical trials), he cautioned that "it would be vastly worse if hundreds of millions of people were to suffer long-lasting or even permanent damage to their brain or heart microvasculature as a result of failing to appreciate in the short-term an unintended effect of full-length spike protein-based vaccines on other organs."

Unfortunately, Whelan's concerns were not acknowledged, and the agency instead relied on the limited clinical trial data...

How COVID-19 'Vaccines' May Destroy the Lives of Millions -- Judy Mikovits

Story at-a-glance

The COVID-19 vaccine really isn't a vaccine in the medical definition of a vaccine. It's more accurately an experimental gene therapy that could prematurely kill large amounts of the population and disable exponentially more. Since mRNA normally rapidly degrades, it must be complexed with lipids or polymers. COVID-19 vaccines use PEGylated lipid nanoparticles, and PEG is known to cause anaphylaxis. Free mRNA can signal danger to your immune system and drive inflammatory diseases. As such, injecting synthetic thermostable mRNA (mRNA that is resistant to breaking down) is highly problematic as it can fuel

chronic, long-term inflammation. Many commonly reported side effects from the COVID-19 gene therapy “vaccines” appear to be caused by brain inflammation. Anyone with an inflammatory disease such as rheumatoid arthritis, Parkinson's disease or chronic Lyme and those with acquired immune deficiency/dysfunction from any microbial pathogen, brain trauma or environmental toxin are at high risk of dying from COVID-19 mRNA vaccines.

Red Bull Test Positive For Covid

<https://thefreedomarticles.com/10-reasons-sars-cov-2-imaginary-digital-theoretical-virus/>

10 Reasons that SARS-CoV-2 Is an Imaginary and Theoretical Virus
By Makia Freeman

THE STORY:

No record found: the SARS-CoV-2 virus that allegedly causes COVID has still, to this date, never been isolated. Countless governments and organizations worldwide have failed to produce evidence of its existence when challenged.

THE IMPLICATIONS:

The world has been shut down and people's lives have been decimated over a lie and a superstition that could well be the biggest fraud ever perpetuated on humanity as a whole. The Imaginary and Theoretical Virus known as SARS-CoV-2, a concept which has been used by the NWO (New World Order) controllers to shut down the world, is becoming more and more exposed as the months go by. Although those who believe in the COVID cult – both those orchestrating the scamdemic and those blindly following along – will insist the virus is real, the truth is that there has still been no compelling or conclusive evidence that a real SARS-CoV-2 virus exists. Admissions by governmental scientists and organizations worldwide, as well as omissions and obfuscations by those same people and agencies, reveal the shocking truth. As hard as it may be for the COVID cultists to admit, the emperor truly has no clothes. There is no virus, other than a digital, theoretical abstraction made on a computer from a genomic database. The virus has never been isolated, purified, sequenced, characterized and proven 100% to exist. Don't believe it? That's okay; it's good to be skeptical. See the evidence below for yourself and make up your own mind.

#1 SARS-CoV-2 the Theoretical Virus: The Virus Has Never Been Isolated According to Koch's Postulates or River's Postulates

We'll start with this, because this is the cornerstone of the whole scam. All the following information and evidence below stems from the fact the so-called experts have never isolated and purified the virus according to the gold standard of Koch's postulates, or even the modified River's Postulates. Koch's postulates are:

- The microorganism must be identified in all individuals affected by the disease, but not in healthy individuals.
- The microorganism can be isolated from the diseased individual and grown in culture.
- When introduced into a healthy individual, the cultured microorganism must cause disease.
- The microorganism must then be re-isolated from the experimental host, and found to be identical to the original microorganism.

River's postulates were proposed by Thomas M. River in 1973 to establish the role of a specific virus as the cause of a specific disease. They are modifications of Koch's postulates. They are as follows:

- The viral agent must be found either in the host's (animal or plant) body fluids at the time of disease or in cells showing lesions specific to that disease.
- The host material with the viral agent used to inoculate the healthy host (test organism) must be free of any other microorganism.
- The viral agent obtained from the infected host must produce the specific disease in a suitable healthy host, and/or provide evidence of infection by inducing the formation of antibodies specific to that agent.
- Similar material (viral particle) from the newly infected host (test organism) must be isolated and capable of transmitting the specific disease to other healthy hosts.

Whichever set of postulates is used, SARS-CoV-2 fails the test. Dr. Andrew Kaufman does a great job explaining why in this video. The coronavirus SARS-CoV-2 (allegedly causing the disease COVID-19) has not been shown to be present only in sick people and not in healthy ones. The virus has never been isolated, which must be done with proper equipment such as electron microscopes and which cannot be achieved through CT scans (as the Chinese were using) and the flawed PCR test. The January 24th 2020 study published in the New England Journal of Medicine entitled A Novel Coronavirus from Patients with Pneumonia in China, 2019 describes how the scientists arrived at the idea of COVID-19: they took lung fluid samples and extracted RNA from them using the PCR test. It admits that the coronavirus failed Koch's postulates:

“Further development of accurate and rapid methods to identify unknown respiratory pathogens is still needed ... our study does not fulfill Koch's postulates.”

#2 SARS-CoV-2 the Theoretical Virus: Top Chinese Scientist Admitted They Never Isolated the Virus

All claims that the SARS-CoV-2 virus has been isolated have turned out to be unsubstantiated. Meanwhile, there have been actual admissions by officials that they haven't isolated it. The chief epidemiologist of the Chinese CDC (Center for Disease Control) Dr. Wu Zunyou admitted “they didn't isolate the virus” in this video clip.

#3 SARS-CoV-2 the Theoretical Virus: CDC Stated No Quantified Isolate Was Available

The US CDC (Centers for Disease Control and Prevention) in its July 2020 report CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel admits that it had been running PCR tests based not on an actual viral isolate (an actual sample or specimen taken from an infected human), but rather “stocks” of “transcribed RNA” taken from a gene bank to “mimic clinical specimen”:

“Since no quantified virus isolates of the 2019-nCoV were available for CDC use at the time the test was developed and this study conducted, assays designed for detection of the 2019-nCoV RNA were tested with characterized stocks of in vitro transcribed full length RNA (N gene; GenBank accession: MN908947.2) of known titer (RNA copies/ μ L) spiked into a diluent consisting of a suspension of human A549 cells and viral transport medium (VTM) to mimic clinical specimen.” (pg.43)

#4 SARS-CoV-2 the Theoretical Virus: CDC Admitted They Made a Digital Virus of 30,000 Base Pairs Using 37 Actual Sample Base Pairs

As covered in my previous article SARS-CoV-2: The Stitched Together, Frankenstein Virus, the CDC has already admitted that SARS-CoV-2 is a computer-generated digital virus, not a real living virus. As I wrote:

“In other words, it is a Frankenstein virus which has been concocted and stitched together using genomic database sequences (some viral, some not). It has never been properly purified and isolated so that it could be sequenced from end-to-end once derived from living tissue; instead, it's just digitally assembled from a computer database. In this paper, the CDC scientists state they took just 37 base pairs from a genome of 30,000 base pairs which means that about 0.001% of the viral sequence is derived from actual living samples or real bodily tissue. In other words, they took these 37 segments and put them into a computer program, which filled in the rest of the base pairs. This computer-generation step constitutes scientific fraud.”

In this article In June Study CDC Scientists Make 2 COVID Admissions that Destroy Official Narrative I reveal how the CDC admitted in their paper that they extrapolated their make-believe virus. Here is the quote:

“Whole-Genome Sequencing

We designed 37 pairs of nested PCRs spanning the genome on the basis of the coronavirus reference sequence (GenBank accession no. NC045512). We extracted nucleic acid from isolates and amplified by using the 37 individual nested PCRs.”

Another way to say this is that the “virus” has been constructed using a technique called de novo assembly which is a method for constructing genomes from a large number of (short or long) DNA fragments, with no a priori knowledge of the correct sequence or order of those fragments. You can read more about it here.

#5 SARS-CoV-2 the Theoretical Virus: European Corman-Drosten Paper Used an “In Silico” Genome of an “In Silico” Virus

The original Corman-Drosten paper admits they used a theoretical virus sequence for all their work and calculations. They, like the CDC and every government and agency, claim this is only because no isolate was ever available. I wonder if any of these scientists every asked WHY the isolate has never been available?

“In the present case of 2019-nCoV, virus isolates or samples from infected patients have so far not become available to the international public health community.”

A subsequent study highlighting fatal flaws in the Corman-Drosten paper was published entitled External peer review of the RTPCR test to detect SARS-CoV-2 reveals 10 major scientific flaws at the molecular and methodological level: consequences for false positive results. It highlights how the authors used in silico or theoretical sequences from computer banks, not real isolated samples from infected people. “In silico” is pseudo-Latin for “theoretical”; in plain English, synonyms for theoretical are “imaginary” and “make-believe.”

“The first and major issue is that the novel Coronavirus SARS-CoV-2 (in the publication named 2019-nCoV and in February 2020 named SARS-CoV-2 by an international consortium of virus experts) is based on in silico (theoretical) sequences, supplied by a laboratory in China, because at the time neither control material of infectious (“live”) or inactivated SARS-CoV-2 nor isolated genomic RNA of the virus was

available to the authors. To date no validation has been performed by the authorship based on isolated SARS-CoV-2 viruses or full length RNA thereof.

Nevertheless these in silico sequences were used to develop a RT-PCR test methodology to identify the aforesaid virus. This model was based on the assumption that the novel virus is very similar to SARS-CoV from 2003 (Hereafter named SARS-CoV-1) as both are beta-coronaviruses ... in short, a design relying merely on close genetic relatives does not fulfill the aim for a "robust diagnostic test" as cross reactivity and therefore false-positive results will inevitably occur. Validation was only done in regards to in silico (theoretical) sequences and within the laboratory-setting, and not as required for in-vitro diagnostics with isolated genomic viral RNA. This very fact hasn't changed even after 10 months of introduction of the test into routine diagnostics."

#6 SARS-CoV-2 the Theoretical Virus: UK Government Couldn't Produce Evidence

The governments of many nations around the world couldn't seem to come up with a real virus either when challenged to do so. More evidence proving the "virus" is constructed on a computer database from a digital gene bank comes from Frances Leader, who questioned the UK MHRA (Medicines and Healthcare products Regulatory Agency) whether a real isolated virus was used to make the COVID vax (read more about the COVID vaccine which is not a vaccine here). Leader found that the WHO protocols that Pfizer used to produce the mRNA do not appear to identify any nucleotide sequences that are unique to the SARS-CoV-2 virus. Leader asked if the "virus" was actually a computer generated genomic sequence, and ultimately the MHRA confirmed they had no real specimen:

"The DNA template does not come directly from an isolated virus from an infected person."

In July 2020, a group of concerned academics wrote a letter to the UK Prime Minister Boris Johnson in which they asked him to produce independently peer reviewed scientific evidence proving that the SARS-CoV-2 "virus" has been isolated. To date they have not received a reply. Similarly, UK researcher Andrew Johnson made a Freedom of Information Request to Public Health England (PHE). He asked them to provide him with their records describing the isolation of a SARS-CoV-2 virus to which they responded:

"PHE can confirm it does not hold information in the way suggested by your request."

#7 SARS-CoV-2 the Theoretical Virus: Australian Government Couldn't Produce Evidence

In other Commonwealth nations it's the exact same story. In Australia scientists from the Doherty Institute falsely announced that they had isolated the SARS-CoV-2 virus. When asked to clarify the scientists said:

"We have short (RNA) sequences from the diagnostic test that can be used in the diagnostic tests."

Perhaps this is the reason for this disclaimer by the Australian Government:

"The reliability of COVID-19 tests is uncertain due to the limited evidence base...There is limited evidence available to assess the accuracy and clinical utility of available COVID-19 tests."

#8 SARS-CoV-2 the Theoretical Virus: Canadian Government Couldn't Produce Evidence

Researcher Christine Massey made a similar Freedom of Information request in Canada, to which the Canadian Government replied:

"Having completed a thorough search, we regret to inform you that we were unable to locate any records responsive to your request."

#9 SARS-Cov-2 the Theoretical Virus: Over 40 Institutions Worldwide Can't Answer the Basic Question

In fact, Massey and her colleague in New Zealand "have been submitting Freedom of Information requests to various institutions in Canada, NZ, Australia, Germany, the U.K., the U.S. etc., seeking any records that describe the isolation of a "COVID-19 virus" (aka "SARS-COV-2") from an unadulterated sample taken from a diseased human ... As of December 16, 2020, >40 institutions in Canada, U.S., New Zealand, Australia, U.K., England, Scotland, Wales, Ireland, Denmark, and the European CDC have provided their responses, and none could locate any record describing the isolation of any "COVID-19 virus" aka "SARS-COV-2" directly from a diseased patient." Massey posts their replies here and here.

#10 SARS-Cov-2 the Theoretical Virus: Previous Coronaviruses Have Not Been Isolated

The Spanish health journal Salud published a great article in November 2020 entitled "Frauds and falsehoods in the medical field" where it exposes the lack of evidence not only for the isolation of SARS-CoV-2, but also for the isolation of other past coronaviruses (unofficial translation here). The scam runs deep. Jon Rappoport has done great work exposing how the exact same scam blueprint was played out in the 1980s (with Fauci in charge, leading the fraud) when scientists asserted there was a new virus called HIV, and it was causing AIDS. The COVID scamdemis greatly mimics other historical fake pandemics such as the 1976 swine flu pandemic. The article is Salud states:

"The genetic sequences used in PCRs to detect suspected SARS-CoV-2 and to diagnose cases of illness and death attributed to Covid-19 are present in dozens of sequences of the human genome itself and in those of about a hundred microbes. And that includes the initiators or primers, the most extensive fragments taken at random from their supposed "genome" and even the so-called "target genes" allegedly specific to the "new coronavirus". The test is worthless and all "positive" results obtained so far should be scientifically invalidated and communicated to those affected; and if they are deceased, to their relatives. Stephen Bustin, one of the world's leading experts on PCR, in fact says that under certain conditions anyone can test positive!

We have been warning you since March [2020 – Ed.]: you cannot have specific tests for a virus without knowing the components of the virus you are trying to detect. And the components cannot be known without having previously isolated/purified that virus. Since then we continue to accumulate evidence that no one has isolated SARS-CoV-2 and, more importantly, that it can never be isolated ... In this report we are going to add the results of a particular research we have done from the data published on the alleged SARS-CoV-2 and on the protocols endorsed by the WHO for the use of RT-PCR as well as the data corresponding to the rest of the "human coronaviruses". And the conclusions are extremely serious: none of the seven "human coronaviruses" have actually been isolated and all the sequences of the primers of their respective PCRs as well as those of a large number of fragments of their supposed genomes are found in different areas of the human genome and in genomes of bacteria and archaea ..."

Their report analyzed human coronaviruses 229E (said to have been isolated in 1965), OC43 (in 1967), SARS-CoV (in 2003), NL63 (in 2004), HKU1 (in 2005) and MERS-CoV (in 2012). And just to repeat in case you missed it: they discovered the alleged sequences of SARS-CoV-2 are found in both humans and bacteria! This means all the various in silico models of SARS-CoV-2 contain existing human genetic sequences, so it is little wonder that people test positive when the primer or standard being tested against contains human sequences.

Conclusion: The COVID Cult is a Colossal Fraud and Superstition

How did this all start? Chinese scientists took lung fluid samples and claimed they had discovered a novel or new virus. The Gates-Rockefeller WHO backed them up. In the WHO's Novel Coronavirus 2019-nCoV Situation Report 1, they state:

"The Chinese authorities identified a new type of coronavirus, which was isolated on 7 January 2020.....On 12 January 2020, China shared the genetic sequence of the novel coronavirus for countries to use in developing specific diagnostic kits."

With the evidence presented above, the WHO's assertions and claims are utterly baseless. They constitute outright fraud. The world has been shut down over a lie – a coldly calculated, carefully curated lie – that was simulated and war-gamed for decades in advance. The COVID cult is an irrational superstition based on nothing but in silico, theoretical, make-believe viral sequences. Yet, the real-world consequences for millions who have been thrown into stress, despair, poverty, joblessness, alcoholism and suicide is anything but theoretical.

Behold ! Ag "nano" (micro) fibers in the Covid nose testicle do an electrostatic dance (in aero, not to be confused with their behavior in biogelo) :

<https://www.dcclothesline.com/2021/02/04/doctors-now-warn-about-permanent-damage-and-cardiovascular-events-following-covid-19-vaccination/>
Doctors now warn about permanent damage and cardiovascular events following COVID-19 vaccination

...if viral antigens are present in the tissues of recipients at the time of vaccination, the vaccine-augmented immune response will turn the immune system against those tissues, causing inflammation that can lead to blood clot formation... a recently-infected patient who is subject to covid-19 vaccination is likely to suffer from autoimmune attacks along the ACE-2 receptors present in the heart, and in the microvasculature of the brain, liver and kidney. The risk is doubled because two shots are required.

It is a well documented fact that SARS-CoV-2, the Wuhan coronavirus, readily targets humans through the vascular endothelium. The virus is known to enter into endothelial cells through the ACE-2 receptor on the endothelium. Because of this unique gain-of-function, one of the medical emergencies that may occur in covid-19 patients is thromboembolic complications (formation of a blood clot inside a blood vessel). If viral antigens are present in the endothelial lining of blood vessels, then the vaccine will cause an antigen-specific immune response that attacks those precious tissues, potentially causing cardiovascular events. The research warns that the vaccine is "almost certain to do damage to the vascular endothelium," especially in the elderly. This vaccine-induced endothelial inflammation is "certain to cause blood clot formation with the potential for major thromboembolic complications in a subset of such patients," he warns....

SARS-CoV-2 escape in vitro from a highly neutralizing COVID-19 convalescent plasma
Emanuele Andreano, et al.

Three mutations allowed SARS-CoV-2 to evade the polyclonal antibody response of a highly neutralizing COVID-19 convalescent plasma.

ABSTRACT

To investigate the evolution of SARS-CoV-2 in the immune population, we co-incubated authentic virus with a highly neutralizing plasma from a COVID-19 convalescent patient. The plasma fully neutralized the

virus for 7 passages, but after 45 days, the deletion of F140 in the spike N-terminal domain (NTD) N3 loop led to partial breakthrough. At day 73, an E484K substitution in the receptor-binding domain (RBD) occurred, followed at day 80 by an insertion in the NTD N5 loop containing a new glycan sequon, which generated a variant completely resistant to plasma neutralization. Computational modeling predicts that the deletion and insertion in loops N3 and N5 prevent binding of neutralizing antibodies. The recent emergence in the United Kingdom and South Africa of natural variants with similar changes suggests that SARS-CoV-2 has the potential to escape an effective immune response and that vaccines and antibodies able to control emerging variants should be developed.

<https://gilad.online/writings/2021/1/30/a-brief-examination-of-some-facts-related-to-mass-vaccination>

A Brief Examination of Some Facts Related to Mass Vaccination

The case of Israel, leading the world by far in the mass vaccination contest, doesn't leave much maneuvering room for skeptics. Since Israel launched its vast vaccination campaign in December, it has been witnessing an exponential rise in COVID-19 cases and deaths. By now, the British Mutant has become Israel's dominant COVID strain. Israel's health system is on the brink of collapse.

In my article Guinea Pigs United I pointed out that the rise in cases and deaths correlates with the distribution of vaccines. In Israel, the Orthodox Jewish communities that were vaccinated en masse saw COVID cases rise 16-fold, while Israeli Arabs who at large refrained from vaccination saw numbers of COVID cases dropping sharply.

But Israel is not alone. Some other states have followed a similar path and their situation is becoming as catastrophic as the crisis we witness in the Jewish State...

Canadian Doctor H1N1 Vaccination: A Eugenics Weapon for "Massive & Targeted Reduction of the World Population."

By Kurt Nimmo

Canadian doctor Ghislaine Lancôt, author of the Medical Mafia, has underscored the lawsuit recently filed by Austrian journalist Jane Bürgermeister against the WHO, the UN, and several high ranking government and corporate officials. Bürgermeister has documented how an international corporate criminal syndicate plans to unleash a deadly flu virus and institute a forced vaccination program.

"I am emerging from a long silence on the subject of vaccination, because I feel that, this time, the stakes involved are huge. The consequences may spread much further than anticipated," writes Lancôt, who believes the A(H1N1) virus will be used in a pandemic concocted and orchestrated by the WHO, an international organization that serves military, political and industrial interests.

Lancôt warns that the elite and their minions will introduce a compulsory vaccination that will contain a deadly virus and this will be used specifically as a eugenics weapon for "massive and targeted reduction of the world population." Moreover, a pandemic will also be used to further establish martial law and a police state, according to Lancôt, and activate concentration camps "built to accommodate the rebellious" and eventually transfer power from all nations to a single United Nations government and thus fulfill the sinister plans of the New World Order.

<https://medicalkidnap.com/2021/01/24/53-dead-in-gibraltar-in-10-days-after-experimental-pfizer-mrna-covid-injections-started/>

January 24, 2021

53 Dead in Gibraltar in 10 Days After Experimental Pfizer mRNA COVID Injections Started

Gibraltar is a British Colony at the southern tip of the Iberian Peninsula attached to the country of Spain. It's population is just over 30,000 people, and it is best known for its huge "rock," the "Rock of Gibraltar."

I have been contacted by residents in Gibraltar stating that 53 people have died in 10 days immediately following the roll out of injections of the Pfizer mRNA COVID injections, and calling it a "massacre."

Local media reports confirm the deaths, but blame them on COVID, and not the COVID injections.

However, prior to the roll out of the injections, it is reported that only 16 people in total died "from COVID" since the beginning of the "pandemic" about a year ago...

It doesn't meet our expectations :

List of CoVid19 Researcher Assassinations

Gain Function w/ Fauci :

<https://www.bizpacreview.com/2021/01/25/steve-hilton-finds-stunning-covid-19-evidence-specific-activity-that-dr-fauci-funded-and-it-is-terrifying-1020943/>

Steve Hilton finds stunning Covid 19 connections: 'Specific activity that Dr. Fauci funded and it is terrifying'

Fox News' Steve Hilton shared an investigation that breaks down the origins of the coronavirus, and not only links it back to U.S. commissioned research, but also to Dr. Anthony Fauci. The host of the "The Next Revolution" told his viewers that the evidence uncovered "points to the most likely cause of the pandemic and it's worse than anything that we have heard so far." Highlighting a study 10 years ago in the Netherlands involving ferrets, which have respiratory systems that operate similar to humans, Hilton said researchers "were trying to see if the virus that starts out without the ability to be transmitted through the air can eventually gain that ability." "This led to the creation of an entirely new type of scientific research made possible by advances in gene technology," he said. "It was called gain of function virus research. The idea was to replicate in a lab what had been done with those ferrets — to take the virus and manipulate the genetic code to make it stronger and powerful. The virus would gain new function, hence the name." The idea being to engineer the most contagious deadly viruses in lab conditions "to learn about treatments and vaccines about the calamity of an actual outbreak," Hilton noted. This research was carried out around the world, with Wuhan, China being home to a leading laboratory, funded in part by the National Institute of Allergy and Infectious Diseases, headed up by Dr. Anthony Fauci... "Despite the controversy surrounding this type of research," he said, "it always had one steadfast champion, a leading figure in the world of infectious diseases, Anthony Fauci. His institute funded that first ferret study. At the time he cowrote an op-ed in the Washington Post describing the research as "a risk worth taking... important information and insight can come from generating a potentially dangerous virus in the laboratory." "Shortly before the Obama Administration's ban on gain of function research in 2014, Dr. Fauci commissioned ... a project to assess the risk of new coronaviruses emerging from wild animals like bats — one of the aims was to see what viruses can infect animals and humans," Hilton said. The Fox News host said that while the Obama administration stopped the research, Fauci "continued on by subcontracting it" to the NY based EcoHealth Alliance. Sharing what he called a "crucial step that have never been reported," Hilton noted that EcoHealth Alliance then subcontracted the gain of function piece to the Wuhan Institute of Virology...

Doctor Reveals the Corona Effect – Claims COVID is Blood Coagulation -- By Makia Freeman

AT A GLANCE... THE STORY: What if COVID has nothing at all to do with a virus? THE IMPLICATIONS: Has this fake pandemic capitalized on people's ignorance of the true nature of acidosis, disease, viruses and terrain theory?

...Young exposes how polio was not caused by a virus, despite popular belief, but was actually caused by poisoning from the pesticide DDT. Remember too that the cancer-causing monkey virus SV-40 (Simian Virus 40) was found in all polio vaccines administered to Americans up until around 1963. Young writes:

...“I am suggesting in this article that there are significant findings based on historical and past and current research, including my own research that the theory of Polio and possibly other modern-day diseases, such as Post-Polio Syndrome, Polio Vaccine-Induced Paralysis, Legionnaires, CNS disease, Cancer and AIDS may be caused by acidic chemical poisoning from DDT (dichloro-diphenyl-trichloroethane) and other related DDT pesticides, acidic vaccinations, and other factors including lifestyle and dietary factors rather than from a lone infectious Poliovirus.”

“Farr’s Law requires, for an epidemic to be a valid example of contagion, that the epidemic increase its incidence rates exponentially. Since polio has been ubiquitous since the beginning of human history, its incidence rate should have peaked long ago and universal immunity conferred, if immunity was ever required, and if the poliovirus was actually a predator.”

“The non-funded, ostracized theory of poison causality far exceeds all other theories in simplicity, exactitude, and directness regarding correlations within all data areas: dosage, physiology, etiology, epidemiology, economics, and politics.”...

The COVID-19 Jab IS NOT A VACCINE! It's a PATHOGEN CREATOR!

Those behind the COVID-19 Pandemic Hoax are deliberately misleading the population about the alleged "COVID-19 Vaccines. THEY ARE NOT vaccines – ‘They are an mRNA packaged in a fat envelope that is delivered to a cell ... a medical device designed to stimulate the human cell into becoming a pathogen creator’.

This is a segment from the two-hour "Focus On Fauci" Event from January 5th, 2021. You can view the entire 2+ hour event here:

https://kickthemallout.com/article.php/V-Focus_On_Fauci

Please check out our HUGE "INDEXED" LIBRARY ON THE CRIMINAL COVID-19 HOAX. It's an enormous free resource where you can find out the truth about everything related to COVID-19: Find out the truth about the fraudulent testing procedure, fake case and death numbers, who Dr. Fauci really is, who Bill Gates really is, the truth about the vaccine industry and the dangers of their products and much much more. There's nothing like this resource anywhere on the internet! SHARE IT WITH FRIENDS AND FAMILY!

<https://rense.com/general96/covid-vaccine-a-cure-worse-than-the-disease-part-29.php>

COVID Vaccine - a cure worse than the disease - Part 29 -- By Yoichi Shimatsu

Being on the road for field research toward rolling back the cultural genocide of American society by politically correct fanatics, this part 29 of my coronavirus-biowarfare series has to be shorter than the usual in-depth essay indicting the medical sector, pharmaceuticals and murderous bureaucrat biowarriors.

To put the present situation mildly, the vaccine is worse than a failure and, intended or not, tantamount to yet another stab at mass murder. The panic about contracting this "fatal" infection has been grossly overblown with wild-eyed claims of 30 percent of Americans being infected, as claimed by the CDC. Yet only 10 percent of the population carries the antibodies, which indicates a difference of 20 percent of the population, who therefore should therefore be dead by now, according to the CDC equation.

The unending official panic, besides being a Democrat ploy to steal the election, has led to another turn for the worse, which is to attach a detonator fuse, so to speak, to the COVID bomb. As discussed further on, the messenger RNA vaccine being pushed by Pfizer is frightening the human immune system into overreaction, thereby heightening the pain of once mild symptoms and, in some unreported cases, killing the unsuspecting patient.

As discussed extensively in this series, COVID-19 is a biological weapon spliced with gene sequences from HIV and bovine tuberculosis, which are both highly threatening to the human immune system.

The messaging RNA vaccine is being tested on nearly 2 million guinea pigs. At last count the vaxx has triggered, or to be precise rekindled adverse reactions in more than 4,000 healthy individuals (who probably had mild COVID infections earlier).

Covering the tracks of pharma Pfizer, the FDA's Center for Biologics Evaluation suggests that these painful reactions ranging from throbbing pain to life-threatening inflammation are due to its solvent polyethylene glycol (PEG), which causes known side effects of bloating, diarrhea, nausea, cramps, gas and hives. That assessment is sheer nonsense, since patients undergoing bowel surgery are flushed and flooded with that substance as a tissue softener, whereas the intravenous dosage in the vaccine is minuscule by comparison. Any medical authority spouting such nonsense is guilty of premeditated diarrhea of the mouth.

That grease cannot possibly account for the recent death of a Florida physician, who showed the symptoms uncannily similar to COVID infections in children. These include heart palpitation, a low platelet count and small red spots on the skin, which are caused by ruptures of small blood vessels. Just two weeks after receiving the vaccine, the otherwise healthy 56 year-old Miami Beach obstetrician died of a massive hemorrhagic stroke two

A majority of COVID vaccine sufferers have not had a prior history of allergic reactions or anaphylaxis involving injections, which indicates something else is happening to their immune systems. What is happening in patients is toxic shock, the human immune system going berserk out of fear of viral invasion and shutting down the central nervous system. We are dying from existential fear of the invaders, so remember that old adage "we have met the enemy and it is us".

The Pfizer strategy is fundamentally wrong in mimicking the spike protein of the COVID antigen, which has the ability to tag the antibodies emitted from white blood corpuscles. People who have been mildly exposed to COVID will overreact to the presence of a spike protein. This is because the bovine tuberculosis strand attached to the COVID bioweapon has already "turned" antibodies into appearing to be attackers or antigens, to deceive the human immune system into the false perception of an all-out invasion, resulting in a panicked cytokine storm that causes bio-system collapse in the patient.

In short, if you'd already had a mild brush with COVID, your immune system is likely to overreact to the monoclonal RNA vaccine. This explains the fever, bowel movement, palpitations and blood vessel ruptures as symptoms triggered by the vaccine inside a partially infected person, who otherwise should have survived COVID in good condition.

The far worse contagion than coronavirus, pandemic which lasted less than 6 months in Hong Kong in 2003, is murderous criminality of the Democrat leadership, which evaded gain of function limits on biowar research, and the profiteering by unethical pharma executives and their institutional investors aka the insurance industry. .

Pfizer disclaims responsibility, which is the green light for law firms to start organizing class-action litigation for pharmacological malpractice. Notably, taxpayers need not feel any guilt in this case since Pfizer developed the monoclonal RNA product outside of the Trump admin's fast-track therapy project called Operation Warp Speed. A known supplier of kickbacks to drug pushers known as doctors, Pfizer is a repeat offender, now and then with its reckless Lipitor blood thinner and the 2.3 billion dollar fine in 2009 for its Bextra painkiller. Their new vaccine is extending the COVID crisis by deranging the immune system and needless suffering for patients who were already self-cured thanks to the natural defenses of their bodies. . Neglect of one's health results in bad medicine, so take good care of your body and mind the natural way.

<https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0239252>

SARS-CoV-2 positivity rates associated with circulating 25-hydroxyvitamin D levels

Harvey W. Kaufman, et al.

Until treatment and vaccine for coronavirus disease-2019 (COVID-19) becomes widely available, other methods of reducing infection rates should be explored. This study used a retrospective, observational analysis of deidentified tests performed at a national clinical laboratory to determine if circulating 25-hydroxyvitamin D (25(OH)D) levels are associated with severe acute respiratory disease coronavirus 2 (SARS-CoV-2) positivity rates. Over 190,000 patients from all 50 states with SARS-CoV-2 results performed mid-March through mid-June, 2020 and matching 25(OH)D results from the preceding 12 months were included. Residential zip code data was required to match with US Census data and perform analyses of race/ethnicity proportions and latitude. A total of 191,779 patients were included (median age, 54 years [interquartile range 40.4–64.7]; 68% female). The SARS-CoV-2 positivity rate was 9.3% (95% C.I. 9.2–9.5%) and the mean seasonally adjusted 25(OH)D was 31.7 (SD 11.7). The SARS-CoV-2 positivity rate was higher in the 39,190 patients with “deficient” 25(OH)D values (<20 ng/mL) (12.5%, 95% C.I. 12.2–12.8%) than in the 27,870 patients with “adequate” values (30–34 ng/mL) (8.1%, 95% C.I. 7.8–8.4%) and the 12,321 patients with values ≥55 ng/mL (5.9%, 95% C.I. 5.5–6.4%). The association between 25(OH)D levels and SARS-CoV-2 positivity was best fitted by the weighted second-order polynomial regression, which indicated strong correlation in the total population ($R^2 = 0.96$) and in analyses stratified by all studied demographic factors. The association between lower SARS-CoV-2 positivity rates and higher circulating 25(OH)D levels remained significant in a multivariable logistic model adjusting for all included demographic factors (adjusted odds ratio 0.984 per ng/mL increment, 95% C.I. 0.983–0.986; $p < 0.001$). SARS-CoV-2 positivity is strongly and inversely associated with circulating 25(OH)D levels, a relationship that persists across latitudes, races/ethnicities, both sexes, and age ranges. Our findings provide impetus to explore the role of vitamin D supplementation in reducing the risk for SARS-CoV-2 infection and COVID-19 disease.

Corona children studies "Co-Ki": First results of a Germany-wide registry on mouth and nose covering (mask) in children

Silke Schwarz, Ekkehart Jenetzky, Hanno Krafft, Tobias Maurer, David Martin

Abstract

Background: Narratives about complaints in children and adolescents caused by wearing a mask are accumulating. There is, to date, no registry for side effects of masks.

Methods: At the University of Witten/Herdecke an online registry has been set up where parents, doctors, pedagogues and others can enter their observations. On 20.10.2020, 363 doctors were asked to make entries and to make parents and teachers aware of the registry.

Results: By 26.10.2020 the registry had been used by 20,353 people. In this publication we report the results from the parents, who entered data on a total of 25,930 children. The average wearing time of the mask was 270 minutes per day. Impairments caused by wearing the mask were reported by 68% of the parents. These included irritability (60%), headache (53%), difficulty concentrating (50%), less happiness (49%), reluctance to go to school/kindergarten (44%), malaise (42%) impaired learning (38%) and drowsiness or fatigue (37%).

Ivermectin is effective for COVID-19: real-time meta analysis of 30 studies

Covid Analysis, Nov 26, 2020 (Version 16, Jan 11, 2021)

Introduction

We analyze all significant studies concerning the use of ivermectin for COVID-19. Search methods, inclusion criteria, effect extraction criteria (more serious outcomes have priority), all individual study data, PRISMA answers, and statistical methods are detailed in Appendix 1. We present random effects meta-analysis results for all studies, for studies within each treatment stage, for mortality results only, and for Randomized Controlled Trials (RCTs) only.

We also perform a simple analysis of the distribution of study effects. If treatment was not effective, the observed effects would be randomly distributed (or more likely to be negative if treatment is harmful). We can compute the probability that the observed percentage of positive results (or higher) could occur due to chance with an ineffective treatment (the probability of $\geq k$ heads in n coin tosses, or the one-sided sign test / binomial test). Analysis of publication bias is important and adjustments may be needed if there is a bias toward publishing positive results.

Figure 2 shows stages of possible treatment for COVID-19. Prophylaxis refers to regularly taking medication before becoming sick, in order to prevent or minimize infection. Early Treatment refers to treatment immediately or soon after symptoms appear, while Late Treatment refers to more delayed treatment...

HEARTBREAKING TRAGEDIES REPORTED AFTER TAKING COVID VACCINE

<https://swprs.org/who-preliminary-review-confirms-ivermectin-effectiveness/>
WHO-sponsored preliminary review indicates Ivermectin effectiveness ... 83% reduction in covid mortality.
Dr Andrew Hill of the Department of Pharmacology at the University of Liverpool (UK) is currently performing a WHO-sponsored review and meta-analysis of randomized controlled trials of ivermectin against covid. In the following 12-minute video, Dr Hill is presenting his preliminary results, which indicate a highly significant 83% reduction in covid mortality (95% CI 65%-92%). This result is based on in-hospital trials, so it does not yet take into account early ambulatory and prophylactic treatment. The authors of the review intend to include three more trials, due to be published sometime in January, before providing a final conclusion. At the end of his presentation, Dr Hill describes ivermectin as a potentially "transformational treatment".

Ivermectin - costing as little as £1.50 per treatment - may help Covid patients. .. Dr Andrew Hill, who led research, said it could be 'transformational' for medics... But other scientists sounded a note of scepticism, saying more data was needed...

<http://tapnewswire.com/2021/01/moderna-admits-here-that-what-they-inject-now-is-an-operating-system/>

Moderna admits here that what they inject now is an "operating system."

Enabling Drug Discovery & Development

We built Moderna on the guiding premise that if using mRNA as a medicine works for one disease, it should work for many diseases. And, if this is possible – given the right approach and infrastructure – it could meaningfully improve how medicines are discovered, developed and manufactured.

Our Operating System

Recognizing the broad potential of mRNA science, we set out to create an mRNA technology platform that functions very much like an operating system on a computer. It is designed so that it can plug and play interchangeably with different programs. In our case, the "program" or "app" is our mRNA drug – the unique mRNA sequence that codes for a protein.

URGENT ALERT: Doctor Heinrich Fiechtner Warns: 'It's a Killer Vaccination'

Member of the state parliament in Baden-Württemberg, Dr. Heinrich Fiechtner slammed the German government and media for their endless propaganda, misinformation and fake news concerning the Chinese coronavirus. In an impassioned speech on the floor of the German Parliament, Dr. Fiechtner also warned the public of the dire consequences of the new "killer vaccination" and urged the public to resist the illegal government impositions.

The Wrong Pandemic

Arthur Firstenberg – Newsletter Dec 29, 2020

You see them everywhere. Men and women walking down the street, all of them with masks on their faces and cell phones in their hands. People jogging, with masks covering their faces and cell phones in their hands. Mothers wheeling their babies with one hand, holding a cell phone in the other hand, with a mask covering their face.

The world has gone insane.

Back in May, the President of Tanzania announced that a goat, a quail, and a papaya had tested positive for COVID-19. People did not stop eating papayas. But when farmed minks began testing positive, the response has been to kill them all.

After a few minks in the Netherlands tested positive in April, 570,000 minks were slaughtered. Minks started testing positive and being killed in Denmark in June, and on November 4, Denmark announced it would destroy the rest of its 17 million minks. Sanity finally broke out in that country, and the eradication campaign stopped after only 2.5 million minks were slaughtered. But minks have also been killed in Spain, Sweden, Greece, France, and the United States.

Lions, tigers and leopards in zoos have tested positive.

People have been testing their dogs and cats, and lo and behold, some of them have tested positive, and on May 6, the Centers for Disease Control created a webpage titled "What to Do if Your Pet Tests Positive for the Virus that Causes COVID-19." This is what you are supposed to do: "Isolate the pet from everyone else, including other pets." "Keep your pet at least 6 feet away from other pets and people." "If you have a private backyard where your dog can go to the bathroom, do not take them for walks." But, the CDC warns, "Do not wipe or bathe your pet with... hand sanitizer," and "Do not try to put a mask on your pet." It is becoming obvious that no matter what you test — minks, lions, dogs, papayas, people, or anything else — you will get positive results, and that the results mean nothing. Just wait until someone tests a cow. Kill all the cows, and no more meat or dairy products! Vaccinate every pet and farm animal in the world! Do contact tracing for every pet that comes in contact with an infected pet!

We have a pandemic, all right, but it is a pandemic of insanity, not COVID-19. The world — the entire world, not just a few people or a few countries or a few cultures — has forgotten what life is. Life is community. It is social contact, touching, breathing, sharing. It is oxygen. People are dying because their masks are making them hypoxic. Cancer cells thrive in the absence of oxygen. If you have cancer, and you wear a mask, you are making your cancer grow. And life is bacteria and viruses. Ninety-nine percent of all bacteria and viruses are beneficial and necessary — necessary for life, and necessary for evolution. If you disinfect the surface of the earth, you will put an end to life. We did not disinfect the world for smallpox, influenza, measles, or tuberculosis. But we are doing it for "COVID-19."

And we are blaming every symptom known to man on "COVID-19." COVID-19 is a respiratory virus, closely related to the common cold. But we have made a caricature of it. Suddenly a coronavirus is a magical piece of RNA, created by Dracula, that will damage your kidneys or your heart or give you a stroke.

There is another, very real pandemic that is out of control: a pandemic of radiation. A pandemic that does cause kidney and heart damage and strokes, in addition to pneumonia. The radiation is produced by cell phones. The cell phones with which mothers are irradiating their babies, and joggers are irradiating their hearts. The cell phones with which 7 billion people are irradiating the birds, insects and flowers around them. The radiation that will kill all 7 billion of us, unless we put an end to it.

Don't Worry ! Pray ! Christian Science will heal your stupid cowardice !

The Lawsuit That Could End Covid-1984 with Dr. Pam Popper -- Spiro Skouras

...Now we find ourselves eight months in to a two week lockdown with no end in sight. Despite the fact that a Federal judge in Pennsylvania ruled the shut downs were unconstitutional. The Michigan Supreme Court also ruled that the Governor’s emergency orders had violated the constitution. So why hasn’t anything changed?

In this interview Spiro’s guest Dr. Pamela Popper discusses two new lawsuits that she believes could end Covid-1984. The two lawsuits, one in Ohio and one in New Mexico, challenge the root of the problem, the emergency itself.

The ‘SPARS PANDEMIC 2025-2028’ Simulation of Oct. 2017 Details a New Coronavirus PLANdemic That Will Follow COVID-19

What is the ‘SPARS Pandemic 2025 – 2028’ Simulation?

The “SPARS Pandemic 2025 – 2028 – A Futuristic Scenario for Public Health Risk Communicators” (back-up here) was a simulation at The Johns Hopkins University, back in October of 2017. And we all know by now what happens to simulations – they become real.

It mentions a new virus that will infect mankind in 2025, and it will last until 2028.

The 'SPARS PANDEMIC 2025-2028' Simulation of Oct. 2017 Details a New Coronavirus PLANdemic That Will Follow COVID-19

According to the World Bank, COVID-19 (SARS-CoV-2) is a “project” that is planned to continue until the end of March 2025...

WHO Changes Definition of ‘Herd Immunity’, Literally Re-writing Hundreds of Years of Scientific Understanding, Just to Push Vaccines

The World Health Organization has changed the definition of “herd immunity,” eliminating the pre-COVID consensus that it could be achieved by allowing a virus to spread through a population, and insisting that herd immunity comes solely from vaccines. The change occurred on a section of the WHO’s website entitled ‘Coronavirus disease (COVID-19): Serology, antibodies and immunity’...

Doctors use Fake Syringe Needles for Covid19 Vaccine shots Footage!!

<https://www.lifesitenews.com/blogs/lifesite-ted-cruz-robert-f-kennedy-jr-challenge-covid-totalitarianism>
LifeSite, Ted Cruz, Robert F. Kennedy Jr. challenge COVID totalitarianism

'The bizarre, lunatic, totalitarian' COVID 'cult' is 'not about vaccines or protecting people's lives—it is instead profoundly anti-science, and is only focused on absolute [government] control of every aspect of our lives.'

There has been a massive flood of contradictory and false information being published about the Wuhan virus and the various vaccines that have recently been approved that allegedly prevent infection. And there has been a massive disinformation campaign against several already available, safe, effective, and very inexpensive preventative and "miracle" treatment medications for Wuhan infection.

Thankfully, thousands of ethical physicians, scientists, and others are now actively attempting to counter the flood of lies and extremely flawed narratives related to these issues, including,

- false justifications for a now huge increase again in catastrophic, medically and scientifically unnecessary lockdowns
- intense pressure to accept vaccination with the poorly tested, dangerous and never-before-tried mRNA vaccines
- what may likely be an inevitable, devastating loss of fundamental rights and freedoms for those who refuse to be vaccinated
- partly because it is impossible to give fully informed consent to such vaccination because there is inadequate, trustworthy information about its safety and effectiveness.

This has never before happened in history, especially for a virus that is now known to be less dangerous than the common flu, except for those over 70 with certain health issues. And even that category of persons has a very high recovery rate if they receive proper early treatment.

First off, I would encourage you to review my updated, in-depth, December 10 investigative report on 10 actions Trump must take to save us from impending globalist tyranny. It is a long read, but anyone I have talked to who has made the effort to read the document, view the videos, and investigate the links has expressed immense gratitude for having their eyes opened to many aspects about the virus that they had no idea about and which none of the mainstream media have reported.

Patrick Delaney's explosive December 17 report, What is the real motivation for attempting to vaccinate millions of healthy people?, has also been updated with some amazing additional videos and information to help readers further explore what might be behind the disturbing, world-changing developments related to the Wuhan virus.

The added excerpt from a Children's Health Defense video regarding the safety of the COVID-19 and all other vaccines is a goldmine of calmly presented questions and facts that I am sure will be greatly appreciated by most who view it.

Both mine and Delaney's articles and the video below will really help you to understand why Senator Ted Cruz stated the following about the health tyranny that we have all been subjected to the past several months:

"This is a bizarre, lunatic, totalitarian cult.

It's not about vaccines or protecting people's lives—it is instead profoundly anti-science, and is only focused on absolute govt control of every aspect of our lives."

Following is an especially MUST-VIEW, recent presentation by Robert Kennedy, Jr. of Children's Health Defense. Kennedy's Message for Freedom and Hope provides a powerful, motivating overview of the "coup d'etat" by powerful international forces whom Kennedy claims "want to subvert our democracies and want to destroy our sovereignty and our control over our lives and our children's health."

He begins with by stating that his message is being presented

...to thousands of citizens, in 15 countries on all the continents in the world, who have come together today to protest this coup d'etat — by Big Data, by Big Telecom, by Big Tech, by the big oil and chemical companies, and by this global public health cartel led by Bill Gates and the W.H.O — and now amounts to two trillion dollars and wants to magnify and amplify its wealth and its power over our lives, over our liberties.

Kennedy asks a lot of questions in this video that we may not have thought of, but should all be asking. He stresses the great importance of honest, open debate on the issues of our day and the free flow of information, as opposed to the massive censoring of certain views that we are currently enduring.

He urges everyone to participate in the exchange of information and free debate and tells all of his viewers,

You are on the front lines of the most important battle in history and it is the battle to save democracy, and freedom, and human liberty, and human dignity from this totalitarian cartel that is trying to rob us — simultaneously in every nation in the world — of the rights that every human being is born with.

The founder of Children's Health Defense ends by announcing that Children's Health Defense is launching a daily information journal to help to generate that flow of information and debate.

Those are just a few, brief excerpts of statements in the video. I don't want to post more because it is more important that you watch this great man, who makes it plain that he is willing to give his life for the truth.

Such leadership is a rarity in our great-leader-deprived current world. By watching his presentation, you will most effectively absorb his necessary message to the people of the world. Everyone needs to hear this inspiring oration at this critical time in history...

Unusual Features of the SARS-CoV-2 Genome Suggesting Sophisticated Laboratory Modification Rather Than Natural Evolution and Delineation of Its Probable Synthetic Route
Yan, Li-Meng; Kang, Shu; Guan, Jie; Hu, Shanchang

The COVID-19 pandemic caused by the novel coronavirus SARS-CoV-2 has led to over 910,000 deaths worldwide and unprecedented decimation of the global economy. Despite its tremendous impact, the origin of SARS-CoV-2 has remained mysterious and controversial. The natural origin theory, although widely accepted, lacks substantial support. The alternative theory that the virus may have come from a research laboratory is, however, strictly censored on peer-reviewed scientific journals. Nonetheless, SARS-CoV-2 shows biological characteristics that are inconsistent with a naturally occurring, zoonotic virus. In this report, we describe the genomic, structural, medical, and literature evidence, which, when considered together, strongly contradicts the natural origin theory. The evidence shows that SARS-CoV-2 should be a laboratory product created by using bat coronaviruses ZC45 and/or ZXC21 as a template and/or backbone. Building upon the evidence, we further postulate a synthetic route for SARS-CoV-2, demonstrating that the laboratory-creation of this coronavirus is convenient and can be accomplished in approximately six months. Our work emphasizes the need for an independent investigation into the relevant research laboratories. It also argues for a critical look into certain recently published data, which, albeit problematic, was used to support and claim a natural origin of SARS-CoV-2. From a public health perspective, these actions are necessary as knowledge of the origin of SARS-CoV-2 and of how the virus entered the human population are of pivotal importance in the fundamental control of the COVID-19 pandemic as well as in preventing similar, future pandemics.

<https://articles.mercola.com/sites/articles/archive/2020/09/13/how-to-nebulize-hydrogen-peroxide.aspx>
How Nebulized Peroxide Helps Against Respiratory Infections

Story at-a-glance

Hydrogen peroxide sits inside and outside cells of your cells in low levels, ready and waiting to be generated in greater amounts as soon as a pathogen is detected by your immune system
Nebulizing hydrogen peroxide into your sinuses, throat and lungs is a simple, straightforward way to augment your body's natural expression of hydrogen peroxide to combat infections
In addition to having direct viricidal effects, iodine improves white blood cell function and thyroid hormone production. This provides a metabolic boost to white blood cells to increase hydrogen peroxide antimicrobial properties which is one way your immune system works to kill pathogens
Vitamin C also increases hydrogen peroxide production when used at high doses, while vitamin A helps modulate your immune system
Buy a desktop nebulizer and stock food-grade hydrogen peroxide, Lugol's iodine and some saline. That way, you have everything you need and can begin treatment at home at the first signs of a respiratory infection

The Biggest Conspiracy Behind COVID-19 Now Proven -- Analysis by Dr. Joseph Mercola

Story at-a-glance

In a February 18, 2020, scientific statement in The Lancet, 27 authors strongly condemned conspiracy theories suggesting COVID-19 does not have a natural origin, stating that scientists from around the world “overwhelmingly conclude that this coronavirus originated in wildlife”
Emails obtained by U.S. Right to Know (USRTK) prove EcoHealth Alliance employees were behind the plot to obscure the lab origin of SARS-CoV-2 by issuing a scientific statement condemning such inquiries as “conspiracy theory”
EcoHealth Alliance President Peter Daszak drafted The Lancet statement, intending it to “not be identifiable as coming from any one organization or person” but rather to be seen as “simply a letter from leading scientists”
Several of the authors of that Lancet statement also have direct ties to the EcoHealth Alliance that were not disclosed as conflicts of interest
Daszak is now leading The Lancet's COVID-19 Commission charged with getting to the bottom of SARS-CoV-2's origin — a role for which he is clearly too conflicted to perform in an unbiased manner

<https://www.distributednews.com/482416.html>
NaturalNewsRadio.com
IT'S WAR: Communist China successfully infiltrated vaccine giants Pfizer, AstraZeneca and GlaxoSmithKline as part of “unrestricted warfare” to defeat the US military and conquer North America

(Natural News) We now have confirmation from multiple sources that the newly-leaked database of Chinese Communist Party (CCP) loyalists includes the names and details of 123 individuals who have successfully infiltrated the vaccine industry, attaining employment at vaccine giants Pfizer, AstraZeneca and GlaxoSmithKline — corporations that are manufacturing coronavirus vaccines for U.S. civilian and military use.

The Epoch Times, which has strong ties to Chinese dissidents who are able to confirm such information, now reports:

The Inter-Parliamentary Alliance on China (IPAC), a global coalition of lawmakers, obtained the database from an unidentified Chinese dissident, then shared the material with four media organizations, according to a Dec. 12 report by British newspaper The Mail on Dec. 13, which obtained the list and reviewed it.

The Mail found that major aerospace companies Airbus, Rolls-Royce, and Boeing have employed hundreds of CCP members. Additionally, Pfizer and British drugmaker AstraZeneca employed a total of 123 Party members. British automaker Jaguar Land Rover also employed CCP members.

Members of the CCP, “swear oath to ‘guard Party secrets, be loyal to the Party, work hard, fight for communism throughout my life...and never betray the Party’” reports the UK Daily Mail.

CCP loyalists routinely steal corporate secrets and compromise the security and integrity of corporations that might compete against Chinese interests. Also according to the UK Daily Mail, “there were more than 600 party members across 19 branches working at the British banks HSBC and Standard Chartered in 2016.”

The CCP created the coronavirus bioweapon, and we believe that the CCP used its spies to infiltrate and compromise vaccine manufacturers in order to turn coronavirus vaccines into “second wave” bioweapons that will injure or kill very large numbers of people who take the vaccines.

This also means that individuals who are pushing vaccine mandates are playing right into the hands of communist China — which has sworn to destroy the United States of America through “unrestricted warfare” — and are themselves engaged in acts of criminal treason against the United States.
How many CCP loyalists work in Big Tech?

So far, only 8,192 names have been publicly released of the nearly 2 million CCP loyalists whose names are on the full list. We have not yet seen how many CCP loyalists are working with the tech giants such as Google, Facebook, YouTube and Twitter. However, we already know that Facebook deliberately hired communist Chinese software experts to design its “hate speech engineering” algorithm that censors U.S. citizens who defend the Constitution or President Trump.

In other words, Big Tech deliberately recruits communist Chinese to build more advanced censorship algorithms to censor Americans, and then Big Tech deploys these algorithms to bury all evidence of election theft that was also carried out via China-owned Dominion Voting Systems. What we are describing here is a massive, international criminal conspiracy to overthrow the United States of America.

This is why all the CEOs of Big Tech must face arrest, prosecution and public executions if found guilty of treason.

From the UK Daily Mail:

Writing in The Mail on Sunday today, former Tory Party leader Iain Duncan Smith says: ‘This investigation proves that members of the Chinese Communist Party are now spread around the globe, with members working for some of the world’s most important multinational corporations, academic institutions and our own diplomatic services.

Communist China, in other words, has infiltrated Western nations, corporations and governments. The hour is already late. Communist China also owns Dominion Voting Systems and used the rigged systems to recently try to steal the U.S. election and install their puppet candidate (Joe Biden) as the U.S. President.

The entire Biden crime family is deeply compromised by communist China, and CCP loyalists have also successfully infiltrated Airbus, Boeing and Rolls-Royce.

Now the software “glitch” about the Boeing 737-Max makes more sense, doesn’t it?

Don’t forget, either, that Joe Biden held priority meetings with the very same vaccine makers who have been infiltrated by the CCP. What do you suppose they discussed? US Army General Perna announces “Vaccine D-Day,” using CCP-influenced vaccines to declare, “the beginning of the end” for America

Suddenly Operation Warp Speed makes even more sense. US Army Gen. Perna and former Defense Secretary Mark Esper chose China-connected vaccine companies to supply millions of vaccine doses that would be administered to harm U.S. military personnel. As we have previously covered in daily Situation Update podcasts, one of the groups being targeted for these priority vaccines is cyber warfare soldiers.

Gen. Perna has publicly declared that vaccines will be rolled out across the military as a “Vaccine D-Day,” further claiming the vaccines will be “the beginning of the end” for America. This makes perfect sense when you consider how these black hat operators in the DoD are already aligned with China and have been exploited to distribute a dangerous, even deadly vaccines manufactured by corporations with ties to communist China. (The DoD is split. There are anti-America, pro-China “black hat” forces inside the DoD, but also pro-America, pro-Trump “white hat” forces. A civil war is under way in the Pentagon...)

China has long had a goal of the complete destruction of the United States of America, and the CCP can’t accomplish that goal unless they can first cause widespread casualties and deaths among military personnel, after which a land invasion via Canada will be much easier to accomplish.

As bombshell documents released in the last two days have stunningly revealed, Canada’s treasonous prime minister Justin Trudeau allowed Canada’s military to help train communist Chinese soldiers in winter warfare tactics, all in preparation for a land invasion of the United States. This places Trudeau in the “enemy combatant” category, and as I will be covering in tomorrow’s Situation Update, President Trump is preparing to drop huge economic and trade sanctions on Canada in response to Canada’s betrayal.

See this important interview with JR Nyquist to understand China’s grand plan to destroy the United States, invade North America and conquer the continent through the mass extermination of all who oppose them:

Thus, China’s infiltration of the vaccine manufacturers was necessary to cause mass casualties across US troops, while Canada’s prime minister would allow China to use Canada as an invasion staging area to threaten the United States from the North. With Big Tech and Big Media also completely controlled by communist China, no American would be allowed to speak about the invasion taking place, and those who posted videos or photos of the wartime invasions would, of course, be blacklisted and deplatformed.

China’s “total war” on America is now fully revealed

The truth is now obvious: China planned a multi-faceted assault on America using rigged voting machines, toxic vaccines, land invasion plans and corporate infiltration, all while controlling tech and media in order to completely overthrow the United States of America and claim North America for the CCP.

As I have stated in today’s Situation Update, we are now living in an active war zone, while China-controlled Democrat governors have taken millions of Americans prisoner, turning them into POWs in their own homes, via weaponized covid-19 lockdowns that make no scientific or medical sense whatsoever.

These are acts of war against the American people, and the Democrats are almost universally corrupted and compromised by communist China.

This is why I repeat my call to arrest, prosecute and execute all treasonous Americans who are proven to be working for communist China to undermine the United States of America.

President Trump appears to be on the verge of invoking the Insurrection Act and deploying Special Operations Forces (SOF) to carry out mass arrests of treasonous operatives across America. Military tribunals are probably not far behind, and here’s what Gen. Michael Flynn said just today (via Maria Bartiromo / Fox Business):

Sidney Powell right now has four lawsuits pending at the Supreme Court... we have conclusive evidence of foreign interference in our election... I think that the President of the United States has to trigger his executive order of 2018, and probably appoint a special counsel to look into all this... because we have serious, serious foreign influence problems with this Dominion voting machine.

And Sidney Powell added to the intrigue in a recent interview with Lou Dobbs, saying:

We know that 400 million dollars of money came into Smartmatic from China only a few weeks before the election, that there are George Soros connections to the entire endeavor... Frankly, our national security agency and defense intelligence agency need to be all over this immediately. The evidence is overwhelming and extremely troubling that this has been going on and didn’t just start this year.

JR Nyquist warns of China's invasion plans for the USA, aided by Democrats

Chlorine Dioxide :

<https://andreakalcker.com/en/>
<https://andreakalcker.com/en/cds-clo2.html>

What is CDS?

CDS is a concentrated aqueous solution of 0,3% (3000ppm) of chlorine dioxide gas, with no sodium chlorite (NaClO₂) content in the solution and has a neutral pH. 10ml is diluted with 1 liter of water obtaining 0,003% (30ppm) in 10 shots of 100ml every hour as a daily dose. (= 3mg ClO₂ per dose)

What is MMS?

MMS is the mixture of sodium chlorite (NaClO₂) activated with citric acid that contains sodium chlorite and is of acidic pH. MMS It is the name Jim Humble gave to the mixture of sodium chlorite (NaClO₂) activated with citric acid at the time. It works excellent for many illnesses, but there is a stomach reaction and it can cause diarrhea as a side effect and its taste is unpleasant for many. It is the basis for manufacturing CDS

What is CD?

CD is a more advanced form of MMS. It is the mixture of sodium chlorite (NaClO₂) activated with hydrochloric acid that contains sodium chlorite and has an acidic pH. It is better in taste and can be useful for its easy transport but it has a secondary stomach reaction. It is the basis for manufacturing CDS

What is ClO₂, Chlorine Dioxide?

Chlorine dioxide is just the gas from the reaction of sodium chlorite (NaClO₂) activated with an acid, which is very soluble in water and evaporates at 11 ° C

<https://www.bitchute.com/video/u1GZJ14KbtLn/>
<https://electroverse.net/dr-roger-hodkinson-on-covid-hoax/>

The Community and Public Services Committee on the Council Chambers in Edmonton, Alberta Canada got a surprise caller on Nov. 13, 2020. Dr. Roger Hodkinson voiced his thoughts on COVID-19, masks, and lockdowns. Dr. Hodkinson is Chairman of the Royal College of Physicians and Surgeons committee in Ottawa, CEO of a large medical laboratory in Edmonton, Alberta and Chairman of a Medical Biotechnology company in North Carolina. This video was deleted by YouTube.

Dr. Roger Hodkinson on COVID: “This is the Biggest Hoax ever perpetrated on an Unsuspecting Public”

Dr. Roger Hodkinson is the former Chairman of the Royal College of Physicians and Surgeons committee in Ottawa, he was once CEO of a large private medical laboratory in Edmonton, Alberta, and for the past 20 years has held the position as Chairman of a Medical Biotechnology company based in North Carolina currently tasked with selling a COVID-19 test. He is a medical specialist in pathology, which includes virology, who trained at Cambridge University in the UK — he is perfectly positioned to speak on this topic.

In a recent Edmonton City Council Community and Public Services Committee meeting (the audio from which is currently gaining traction on YouTube), Dr. Hodkinson says: “The bottom line is there is utterly unfounded public hysteria driven by the media and politicians. It’s outrageous. This is the greatest hoax ever perpetrated on an unsuspecting public.

“[COVID-19] is nothing more than a bad flu season. This is not Ebola. It’s not SARS. It’s politics playing medicine, and that’s a very dangerous game.”

Hodkinson goes on to stress that no action of any kind is needed, other than what happened during last year’s flu season: “If we felt ill, we stayed home, we took chicken noodle soup, we didn’t visit granny, we decided when we would return to work; we didn’t need anyone to tell us.”

“Masks are utterly useless”

“There is no evidence base for their effectiveness whatsoever.

“[Masks] are simply virtue signalling.

“Seeing these people walking around like lemmings obeying, without any knowledge base, to put the mask on their face.”

“Social Distancing is also Useless”

“COVID is spread by aerosols, which travel 30 meters-or-so before landing.”

“Closures of Schools and Businesses have had such Terrible consequences”

“Everywhere should be open tomorrow, as was stated in the Great Barrington Declaration (linked below).

“Positive Test Results DO NOT mean a clinical Infection”

“All testing should stop, unless you’re presenting to hospital with some respiratory problem ... it’s driving public hysteria, and all testing should stop.

“All that should be done is to protect the vulnerable.

“And I would remind you all that using the provinces [Alberta’s] own statistics, the risk of death under 65 is 1 in 300,000. You’ve got to get a grip on this. The scale of the response ... with no evidence for it, is utterly ridiculous.

“Suicides, business closures, [cancelled] funerals, weddings, etc., etc. — it’s simply outrageous, it’s just another bad flu, and [people] have got to get their minds around that.”

Hodkison concludes with some advice for policy makers in Alberta: “Let people make their own decisions. You should be totally out of the business of medicine. You’re being led down the garden path by the chief medical officer of health in this province. I’m absolutely outraged that this has reached this level. It should all stop tomorrow. Thank you very much.”

Doctor claims Ivermectin triple therapy is 'amazingly effective' in treating COVID-19

Gastroenterologist Professor Thomas Borody says the Australian government should allow the clinical trials of a drug he says is “amazingly effective” in treating the deadly coronavirus COVID-19.

Professor Borody says Ivermectin, used in conjunction with two other drugs, has so-far been extremely successful in treating the deadly pathogen.

The drug is Federal Drug Agency and World Health Organisation approved; it is widely used for parasitic infections.

However, Professor Borody told Sky News despite early result showing the drug is a successful COVID-19 treatment, he has been met with a “very negative reaction” by the federal government when he suggests the drug should be subjected to rigorous clinical trials.

**Jean Bernard Fourtillan found the truth about SARS-CoV-2 [VIRAL]
Claire Edwards Uncensored**

Professor Fourtillan, who appeared in “Hold-Up”, he has been interned in a psychiatric hospital against his will. Jean Bernard Fourtillan professor of pharmacology and toxicology speaks out about the origin of SARS CoV virus. He is a hero among the heroes.

Fourtillan exposing the SARS-COV-2 conspiracy. They faked it so that they could roll out the genocidal vaccine. This is why they locked him up.

I would add that it looks to me as if the purpose of the vaccine is to make sure that the Covid-19 biological weapon goes viral everywhere. So far, all this talk of asymptomatic carriers has been bollocks, but once ignorant, dangerous people willingly take the vaccine, they will become real asymptomatic carriers and god help the rest of us who wouldn't touch the vaccine with a bloody barge pole! In my view, these dangerous vaccine-takers should be isolated on some godforsaken island reserved for the monumentally stupid and kept well away from the rest of us so they can't infect us. We'll send all the vaccine-pushing politicians to live with them.

Groundbreaking Study Shows Unvaccinated Children Are Healthier Than Vaccinated Children

This study adds to a growing list of published peer-reviewed papers that compare the health of vaccinated children to the health of unvaccinated children. These studies suggest we have long underestimated the scope of vaccine harms, and that the epidemic of chronic illness in children is hardly a mystery.

Relative Incidence of Office Visits and Cumulative Rates of Billed Diagnoses Along the Axis of Vaccination by James Lyons-Weiler, et al.

Abstract

We performed a retrospective analysis spanning ten years of pediatric practice focused on patients with variable vaccination born into a practice, presenting a unique opportunity to study the effects of variable vaccination on outcomes. The average total incidence of billed office visits per outcome related to the outcomes were compared across groups (Relative Incidence of Office Visit (RIOV)). RIOV is shown to be more powerful than odds ratio of diagnoses. Full cohort, cumulative incidence analyses, matched for days of care, and matched for family history analyses were conducted across quantiles of vaccine uptake. Increased office visits related to many diagnoses were robust to days-of-care-matched analyses, family history, gender block, age block, and false discovery risk. Many outcomes had high RIOV odds ratios after matching for days-of-care (e.g., anemia (6.334), asthma (3.496), allergic rhinitis (6.479), and sinusitis (3.529), all significant under the Z-test). Developmental disorders were determined to be difficult to study due to extremely low prevalence in the practice, potentially attributable to high rates of vaccine cessation upon adverse events and family history of autoimmunity. Remarkably, zero of the 561 unvaccinated patients in the study had attention deficit hyperactivity disorder (ADHD) compared to 0.063% of the (partially and fully) vaccinated. The implications of these results for the net public health effects of whole-population vaccination and with respect for informed consent on human health are compelling. Our results give agency to calls for research conducted by individuals who are independent of any funding sources related to the vaccine industry. While the low rates of developmental disorders prevented sufficiently powered hypothesis testing, it is notable that the overall rate of autism spectrum disorder (0.84%) in the cohort is half that of the US national rate (1.69%). The practice-wide rate of ADHD was roughly half of the national rate. The data indicate that unvaccinated children in the practice are not healthier than the vaccinated and indeed the overall results may indicate that the unvaccinated pediatric patients in this practice are healthier overall than the vaccinated.

<https://www.anti-empire.com/amp/florida-becomes-first-us-state-to-require-reporting-of-ct-values-for-pcr-tests/>

Florida Becomes First US State to Require Reporting of CT Values for PCR Tests

The State of Florida’s Department of Health has now mandated PCR test “Cycle threshold (CT) values and their reference ranges, as applicable, must be reported by laboratories to FDOH via electronic laboratory reporting or by fax immediately” – a new requirement that was sent out in a memo via email to COVID-19 testing labs across the state in the last week.

The mandate, sent on letterhead from both Florida Surgeon General, Scott A. Rivkees, MD, and Governor Ron DeSantis, is historic since it marks the first time a U.S. state public health department has acknowledged the critical importance of counting cycle thresholds when reporting PCR test results that drive COVID-19 ‘case’ numbers...

<https://dcdirtylaundry.com/pfizers-vaccine-studies-are-based-on-fraud-and-put-lives-in-danger-warns-former-pfizer-vice-president/>

mRNA vaccine studies are based on fraud, conceal serious vaccine injuries

The doctors concur that Pfizer’s vaccine studies should be halted until a credible study design can be presented, one that doesn’t falsify data endpoints and one that addresses a host of serious safety concerns. The doctors warn that Pfizer is conflating non-specific symptoms of illness with COVID-19 diagnoses for the control arm while using inaccurate, high cycle PCR tests for a diagnosis. The doctors warn that the vaccine’s efficacy is being contorted because the study design fails to properly diagnose cases of COVID-19 and fails to confirm infection using the Sanger sequencing method. They conclude that risk of disease and potential vaccine benefit cannot be measured or determined with accuracy. They demand a halt to all human experimentation with these mRNA injections.

A network medicine approach to investigation and population-based validation of disease manifestations and drug repurposing for COVID-19

Yadi Zhou, et al.

Abstract

The global coronavirus disease 2019 (COVID-19) pandemic, caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), has led to unprecedented social and economic consequences. The risk of morbidity and mortality due to COVID-19 increases dramatically in the presence of coexisting medical conditions, while the underlying mechanisms remain unclear. Furthermore, there are no approved therapies for COVID-19. This study aims to identify SARS-CoV-2 pathogenesis, disease manifestations, and COVID-19 therapies using network medicine methodologies along with clinical and multi-omics observations. We incorporate SARS-CoV-2 virus–host protein–protein interactions, transcriptomics, and proteomics into the human interactome. Network proximity measurement revealed underlying pathogenesis for broad COVID-19-associated disease manifestations. Analyses of single-cell RNA sequencing data show that co-expression of ACE2 and TMPRSS2 is elevated in absorptive enterocytes from the inflamed ileal tissues of Crohn disease patients compared to uninflamed tissues, revealing shared pathobiology between COVID-19 and inflammatory bowel disease. Integrative analyses of metabolomics and transcriptomics (bulk and single-cell) data from asthma patients indicate that COVID-19 shares an intermediate inflammatory molecular profile with asthma (including IRAK3 and ADRB2). To prioritize potential treatments, we combined network-based prediction and a propensity score (PS) matching observational study of 26,779 individuals from a COVID-19 registry. We identified that melatonin usage (odds ratio [OR] = 0.72, 95% CI 0.56–0.91) is significantly associated with a 28% reduced likelihood of a positive laboratory test result for SARS-CoV-2 confirmed by reverse transcription–polymerase chain reaction assay. Using a PS matching user active comparator design, we determined that melatonin usage was associated with a reduced likelihood of SARS-CoV-2 positive test result compared to use of angiotensin II receptor blockers (OR = 0.70, 95% CI 0.54–0.92) or angiotensin-converting enzyme inhibitors (OR = 0.69, 95% CI 0.52–0.90). Importantly, melatonin usage (OR = 0.48, 95% CI 0.31–0.75) is associated with a 52% reduced likelihood of a positive laboratory test result for SARS-CoV-2 in African Americans after adjusting for age, sex, race, smoking history, and various disease comorbidities using PS matching. In summary, this study presents an integrative network medicine platform for predicting disease manifestations associated with COVID-19 and identifying melatonin for potential prevention and treatment of COVID-19.

35,000 Soldiers Died from the Experimental Anthrax Vaccine – More Than Those Who Died in Combat in Afghanistan and Iraq Combined

Vaccine Syndrome is a film produced by Oscar nominated filmmaker Scott Miller, and provides exclusive interviews with military personnel who have had experience with the controversial anthrax vaccine.

The film claims that over 35,000 soldiers have died from the anthrax vaccine, according to a "RAC-GWVI Government Report" published in 2008.

Compare that to how many soldiers have died in combat in both Iraq and Afghanistan, which is 6753 at the time of the filming.

The film starts out with a dramatized recreating of Lance Corporal Jared Schwartz, who refused to receive the anthrax vaccine.

He had to face a military tribunal without legal counsel, and read a prepared statement.

That statement can be found online, such as at the GulfWarVets.com website.

The film also mentions how pharmaceutical companies have legal immunity from any injuries or deaths resulting from vaccines, and that the civilian population only has recourse to sue the federal government in a special Vaccine Court.

However, military personnel are prohibited from suing in this court, which is part of the National Vaccine Compensation Program.

The Problem With the COVID Vaccine | Robert F. Kennedy Jr. Explains to Theo Von

Welcome to Branch Covidian !

<https://www.cdc.gov/coronavirus/2019-ncov/global-covid-19/shielding-approach-humanitarian.html>

Interim Operational Considerations for Implementing the Shielding Approach to Prevent COVID-19 Infections in Humanitarian Settings

This document presents considerations from the perspective of the U.S. Centers for Disease Control & Prevention (CDC) for implementing the shielding approach in humanitarian settings as outlined in guidance documents focused on camps, displaced populations and low-resource settings...

What is the Shielding Approach?

The shielding approach aims to reduce the number of severe COVID-19 cases by limiting contact between individuals at higher risk of developing severe disease ("high-risk") and the general population ("low-risk"). High-risk individuals would be temporarily relocated to safe or "green zones" established at the household, neighborhood, camp/sector or community level depending on the context and setting.^{1,2} They would have minimal contact with family members and other low-risk residents..

Ten Fatal Errors: Scientists Attack Paper That Established Global PCR Driven Lockdown
by Celia Farber

War has broken out in the scientific literature that strikes at the existential core of Covid-19 and its proposed causative virus.

At the heart of the controversy lies the fact that the creators of the most commonly used test, the RT-PCR, published instructions for how to test for SARS-CoV-2 "without having virus material available," in their own words, relying instead on the Chinese scientists' genetic sequence published on the internet.

The paper "Detection of 2019 novel coronavirus (2019-nCoV) by real-time PCR" was published 24 hours after it was submitted to Eurosurveillance, clearly evading peer review. Its lead authors were Christian Drosten and Victor Corman, which is how it took on the title "Corman-Drosten paper." It provided the "recipe," or work flow for the Covid-19 diagnostic test, quickly applied all over the world, after it was accepted as the standard of testing by the WHO.

German scientist Christian Drosten was also a co-discoverer of the SARS-associated coronavirus, and developed a test for it in 2003. Drosten, who heads the Charite Institute of Virology in Berlin, and a team of fellow scientists in Europe and Hong Kong, moved very quickly, as soon as cases of the illness were being reported out of Wuhan in December of 2019. They submitted the paper on Jan. 21, it was published in Eurosurveillance on Jan. 23,* and was immediately accepted as the standard of testing internationally, by the WHO, which began sending test kits to affected regions. (Fact check: was it 24 hours? Corbett says yes.)

In the harrowing months that followed, amid lockdowns, economic collapse, school closures and widespread panic, few were aware of the immense problems with the paper, which tragically offered a testing method that would yield between 80 and 97 percent false positive results, due to a non-existent gold standard which would be the virus itself.

It all came to a head on Nov. 30, when the Corman-Drosten foundation paper was challenged by 22 international scientists who wrote a letter demanding the paper's retraction, along with an extensive critique citing 10 errors in the paper it deemed "fatal."

Titled "External peer review of the RTPCR test to detect SARS-Cov-2 Reveals 10 Major Flaws At The Molecular and Methodological Level: Consequences For False-Positive Results," the paper's lead author is Dr. Pieter Borger, an expert on the molecular biology of gene expression. Several other esteemed names are associated with the paper including Dr. Michael Yeadon, former VP of Pfizer and outspoken critic of much of the so-called science beneath the WHO's global lockdown, masking, and school shut-down measures.

I reached one of the authors, Dr. Kevin Corbett, at his home in London. He spoke simply and with controlled apoplexy. He confirmed and cast additional light on the shocking fact that the paper was written in the absence of a viral isolate, among many other problems.

"Every scientific rationale for the development of that test has been totally destroyed by this paper. It's like Hiroshima/Nagasaki to the Covid test," he said. "When Drosten developed the test, China hadn't given them a viral isolate. They developed the test from a sequence in a gene bank. Do you see? China gave them a genetic sequence with no corresponding viral isolate. They had a code, but no body for the code. No viral morphology."

I asked him to define "viral morphology" for the layperson.

"In the fish market," he said, "it's like giving you a few bones and saying that's your fish. It could be any fish. Not even a skeleton. Here's a few fragments of bones. That's your fish. Listen, the Corman/Drosten paper, there's nothing from a patient in it. It's all from gene banks. And the bits of the virus sequence that weren't there they made up. They synthetically created them to fill in the blanks. That's what genetics is; it's a code. So its ABBCCDDDD and you're missing some what you think is EEE so you put it in. It's all synthetic. You just manufacture the bits that are missing. This is the end result of the geneticization of virology. This is basically a computer virus."

In an interview posted on his Twitter feed, Dr. Pieter Borger said, "The virus wasn't in Europe and the paper was already finished." He said these facts "should have been on television long ago. I explained it on LinkedIn, but you get banned if you do. Regarding PCR he said, "You are not detecting a virus."

"Once I heard a good comparison," he continued. "If you go to a junkyard and you find a wheel or a hubcap from a Mercedes, and a steering wheel of a Mercedes, can you infer that you are in a Mercedes garage at that moment? If you only see those two parts? No, you can't. You don't know anything about it . . . you only know you have a steering wheel, you can find those things everywhere. In every junkyard you can find them." He describes the RT PCT tests as having "no relevance for the diagnosis whatsoever."

German lawyer Reiner Fuellmich who is central to a growing group of lawyers, scientists, politicians, and even secret pharmaceutical whistleblowers, said in an interview, "We believe that in order to make this house of cards collapse, we have to attack the PCR test. The fact is, there are no asymptomatic infections."

This seemingly radical claim was bolstered by a paper out of Wuhan of all places, published by Nature.com, which found no "viable virus" in PCR positive cases.

"The screening of the 9,865,404 participants without a history of COVID-19 found no newly confirmed COVID-19 cases, and identified 300 asymptomatic positive cases with a detection rate of 0.303 (95 % CI 0.270–0.339)/10,000. . . . A total of 1174 close contacts of the asymptomatic positive cases were traced, and they all tested negative for the COVID-19. . . . Of the 34,424 participants with a history of COVID-19, 107 tested positive again, giving a repositive rate of 0.310% (95% CI 0.423–0.574%). Virus cultures were negative for all asymptomatic positive and repositive cases, indicating no "viable virus" in positive cases detected in this study."

Dr. Kevin Corbett, Ph.D./Photo: Twitter

Dr. Corbett, a Ph.D., and retired RN elaborated: "There are 10 fatal errors in this Drosten test paper. Public Health England is a co-author on it. All the public health authorities across the EU have co-authored this paper. But here is the bottom line: There was no viral isolate to validate what they were doing. The PCR products of the amplification didn't correspond to any viral isolate at that time. I call it 'donut ring science.' There is nothing at the center of it. It's all about code, genetics, nothing to do with reality, or the actual person, the patient."

I read him some of the critiques from the other side, that say it's been isolated "all over the world."

"Yes, there have since papers saying they've produced viral isolates. But there are no controls for them. The CDC produced a paper in July, I think it was, where they said: 'Here's the viral isolate.' Do you know what they did? They swabbed one person. One person, who'd been to China and had cold symptoms. One person. And they assumed he had it to begin with. So it's all full of holes, the whole thing."

One of their 10 challenges is the stunning fact that EuroSurveillance published the paper 24 hours after it was submitted back in January. "Twenty-four hours," Dr. Corbett said incredulously. "That never happens. It takes months to get a review done. They turned this around in 24 hours. It was waved through, it was not peer-reviewed. There's no standard operational procedure for this test. There's major and minor concerns about this paper and we go through it all here. it should be retracted. If they retract it, it means the whole thing falls to bits. The whole edifice collapses. It's a house of cards built on sand and we've just moved the sand."...

<https://www.dailymail.co.uk/news/article-9020093/California-orders-8-5-million-people-Bay-Area-stay-home-Monday.html>

Bay Area orders month-long lockdown for 8.5M people at 10pm on Sunday ahead of California's stay-at-home order as 22,000 daily cases are recorded, 145 people die in 24 hours and hospitalizations hit 10K

The Bay Area was seen as the least concerning area out of five cited by Gavin Newsom on Thursday. Newsom said that four areas would likely be in lockdown in a few days, but the Bay Area would wait. Newsom predicted that restrictions would not be necessary for the Bay Area until the middle of December. On Friday health experts overruled him and took matters into their own hands, imposing their own lockdown. Their order comes into effect at 10pm on Sunday and will last until January 4. The number of hospitalizations in California reached 9,948 on Friday - up 246 from the prior day total. Newsom acted Thursday after state broke its record for daily cases on Wednesday with more than 20,000. 'The bottom line is if we don't act now, our hospital system will be overwhelmed,' Newsom said.

German Lawyers Initiate Class-Action Coronavirus Litigation

Analysis by Dr. Joseph Mercola

Story at-a-glance

The German Corona Extra-Parliamentary Inquiry Committee, founded July 10, 2020, is leading an international effort to hold accountable those responsible for using fraudulent testing to engineer the appearance of a dangerous pandemic to implement economically devastating lockdowns

Pandemic measures have caused tremendous harm, killing more people than the virus itself by restricting routine medical care to people with acute and chronic health conditions that have nothing to do with COVID-19

While the governments of many nations have the same separation of power as the U.S., where you have separate legislative, judiciary and executive branches, we are now finding that this separation has been breached and nearly destroyed in most places

We now have plenty of data showing the lethality of SARS-CoV-2 is on par with the common flu and that the absolute risk of death is equivalent to the risk of dying in a car accident

The flaws of PCR testing have been capitalized upon to incite fear in order to benefit an agenda developed by private corporations, which include not only Big Tech companies, the Bill & Melinda Gates Foundation and the Wellcome Trust, but also the World Health Organization, the United Nations and the World Economic Forum

Reiner Fuellmich, 1 who has been a consumer protection trial lawyer in California and Germany² for 26 years, is a founding member of the German Corona Extra-Parliamentary Inquiry Committee (Außerparlamentarischer Corona Untersuchungsausschuss,³ or ACU),^{4,5} launched July 10, 2020.

Fuellmich is leading the committee's corona crisis tort case — an international class-action lawsuit that will be filed against those responsible for using fraudulent testing to engineer the appearance of a dangerous pandemic in order to implement economically devastating lockdowns around the world.

He estimates more than 50 other countries will be following suit. In the video above, Patrick Bet-David interviews Fuellmich about how and why the group was formed and the status of this work.

The Backstory

Early on, as Fuellmich started hearing concerns from family and friends in Germany about a new respiratory virus, one particular name kept popping up: professor Christian Drosten, Ph.D., a German virologist.

As head of the Institute of Virology at the University of Bonn Medical Centre, Drosten is best known for developing the first diagnostic test for SARS in 2003. He also developed a diagnostic test for the swine flu,⁶ and in 2009 helped drum up panic with doomsday prophecies about H1N1.

When COVID-19 initially emerged in early 2020, Drosten kept saying there was no cause for concern. Then, seemingly overnight, he changed his tune, "as though someone had given him a signal." All of a sudden, Drosten was saying that this virus was extremely dangerous and that drastic measures to contain it had to be implemented.

Based on whistleblower testimony, the German government relied on the opinion of Drosten alone when deciding on their pandemic response, which included the lockdown of healthy citizens and the suspension of constitutional rights for an indefinite period of time.

Interestingly, Fuellmich's team recently discovered that Drosten's Ph.D. dissertation is a fraud. It was only created this year when people began investigating his background.

Aside from Drosten, other individuals who have prominent roles include Lothar H. Wieler, the head of the German equivalent of the Centers for Disease Control and Prevention, Tedros Adhanom Ghebreyesus, head of the World Health Organization and Neil Ferguson of the Imperial College of London.

Unsure of what was going on, Fuellmich contacted an old friend, Dr. Wolfgang Wodarg, a former member of the German Congress and the Council of Europe. Wodarg urged him to investigate and suggested some names of experts to look into, such as professor John Ioannidis at Stanford University and professor and Nobel Prize winner Michael Levitt.

The more he investigated the facts available, the more Fuellmich realized COVID-19 was being grossly oversold. Eventually, he started making inquiries to see if there were any other lawyers out there raising questions about the legality of the pandemic and the global response to it.

He discovered that Beate Bahner, an attorney specializing in medical law, had in fact spoken out, arguing that Germany's quarantine measures were unconstitutional. She was arrested and held in a psychiatric ward for a number of days. Needless to say, that wasn't an encouraging start.

Separation of Power Has Been Breached

Disturbingly, while the governments of many nations have the same separation of power as the U.S., where you have separate legislative, judiciary and executive branches, we are now finding that this separation has been breached and nearly destroyed in most places.

Rather than being run by the legislators that we voted into power (and who have the legal power to make law), we're being ruled by the executive branch, such as our local governors, who are creating rules and regulations without having the legal and constitutional power to do so.

They may issue emergency orders for a few days, but really that's the extent of their legal power. After that, the legislature must be brought in. Yet here we are, several months into the pandemic, and local governors and mayors all over the world are still issuing long-term mandatory mask and social distancing orders, many of which call for the arrest of those who don't follow the rules.

We now have plenty of data showing its lethality is on par with the common flu and that the absolute risk of death is equivalent to the risk of dying in a car accident.

As noted by Fuellmich, the judiciary branch must step in, and now, finally, they are starting to do so. In Austria, the constitutional court issued an order November 12, 2020, not only clarifying the separation of powers and stressing that the legislative branch must be involved, but also that there must be a comprehensive discussion where both sides are heard. There are other scientists besides those anointed by the government, and their opinions must be considered as well.

Suing the World Over Faux Pandemic

As noted by Bet-David, there are several important questions that must be answered:

- What caused the pandemic?
- Who started it?
- Who needs to be held accountable?
- In what way must they be held accountable?

Fuellmich agrees, saying that answering these questions is the reason for why ACU was formed. Governments appear unwilling to investigate the answers to these questions, and that's why he and three other attorneys decided to take on the task of preparing class-action lawsuits. The primary questions the ACU seeks to answer are:

- How dangerous is the virus, really?
- How trustworthy is the PCR test; what does a positive test really mean?
- How much damage do the anti-COVID measures inflict to the economy and the health and well-being of the population?

What Do We Now Know?

The last question is easily answered, Fuellmich says. Evidence shows pandemic measures have caused tremendous harm, killing more people than the virus itself by restricting routine medical care to people with acute and chronic health conditions that have nothing to do with COVID-19.

As for the danger of SARS-CoV-2, we now have plenty of data showing its lethality is on par with the common flu^{7,8,9,10,11} and that the absolute risk of death is equivalent to the risk of dying in a car accident.^{12,13} It may be different in terms of symptoms and complications, but the actual lethality is about the same.

According to Fuellmich, even the WHO has now admitted that the mortality of COVID-19 is on par with seasonal influenza. In October 2020, the WHO also reversed its stance on lockdowns, stating they no longer recommend using lockdowns as a primary control method.¹⁴

Several experts have also stressed that there is no excess mortality,^{15,16} meaning we've had an average number of deaths during the pandemic as would normally die anyway. And, if there's no excess mortality, how can there be a lethal pandemic? It doesn't add up.

Fraudulent Testing Is Driving Pandemic Narrative

Of the three questions, the second one is perhaps the most important, as mass testing is driving the narrative that we're in a lethal pandemic. As explained by Fuellmich, reverse transcription polymerase chain reaction (RT-PCR) tests have several weaknesses that appear to be taken advantage of to create needless fear.

The fact is, the PCR test is not designed to be used as a diagnostic tool as it cannot distinguish between inactive viruses and "live" or reproductive ones.¹⁷ This is a crucial point, since inactive and reproductive viruses are not interchangeable in terms of infectivity. If you have a nonreproductive virus in your body, you will not get sick and you cannot spread it to others.

Secondly, many if not most laboratories amplify the RNA collected far too many times, which results in healthy people testing "positive." The video above explains how the PCR test works and how we are interpreting results incorrectly.

In summary, the PCR swab collects RNA from your nasal cavity. This RNA is then reverse transcribed into DNA. However, they must be amplified to become discernible. Each round of amplification is called a cycle, and the number of amplification cycles used by any given test or lab is called a cycle threshold.

When you go above 30 cycles, even insignificant sequences of viral DNA end up being magnified to the point that the test reads positive even if your viral load is extremely low or the virus is inactive and poses no threat to you or anyone else.

According to Fuellmich, the consensus is that anything over 35 cycles is scientifically indefensible. Yet Drosten's test and tests recommended by the World Health Organization are set to 45 cycles.^{18,19,20}

When labs use these excessive cycle thresholds, you end up with a far higher number of positive tests than you would otherwise. At present, and going back a number of months now, what we're really dealing with is a "casedemic,"^{21,22} meaning an epidemic of false positives.

Remember, in medical terminology, when used accurately, a "case" refers to someone who has symptoms of a disease. By erroneously reporting positive tests as "cases," the pandemic appears magnitudes worse than it actually is. For this reason, Fuellmich and his team are primarily focused on the PCR test issue.

They've taken testimony from a number of well-respected immunologists from around the world, all of whom agree that the PCR test is incapable of telling us anything about the transmission of COVID-19.

The Panic Paper

According to Fuellmich, the sole reason the PCR test is used, and used in an incorrect way, is to create enough fear that no one will question the pandemic measures being put into place and simply do as they're told. He goes on to review the so-called "Panic Paper,"^{23,24} written by the German Department of the Interior.

This classified paper, which was leaked to the press, reveals there was an intentional plan at the level of the German government to drive people into a panic.

One of the strategies laid out in the paper was to guilt children into compliance, to make them feel responsible "for the tortured death of their parents and grandparents if they do not follow the anti-corona regulations." According to Fuellmich, what we have is a staged PCR test pandemic. It's not a lethal virus pandemic, "and I can prove this in court," he says.

What's the End Game?

As noted by Fuellmich, more and more people around the world are now starting to wake up to the fact that the restrictions put into place under the guise of protecting public health are not going away anytime soon. They're part of a much larger, long-term plan, and the end goal is to usher in a new way of life, devoid of our previous freedoms.

The judicial branch is "the last anchor of democracy," Fuellmich says. He brings up an important point. The WHO, the World Economic Forum and the United Nations are all private corporations, yet they wield tremendous power over the governments of the world.

The World Economic Forum, founded by Klaus Schwab, is incredibly influential and lobbies politicians around the globe. Together, private corporations and politicians have in some instances usurped power from the government and are acting above the law of the land.

Big Tech plays an important part in this usurpation of power. The most important human right around the world is the right to free speech. It's foundational for any democracy. Yet the tech giants have all banded together to censor certain segments of the global population.

"We have to take back the power from them and put it back where it belongs, with the government, and we have to take a really close look at who is in government and who became too close to these corporations," Fuellmich says.

Key Players

While the full picture is still being put together, Fuellmich and his team have some ideas of who the key players are, at least in Germany. They include the Christian Democratic Union (CDU) of Germany, Drosten, Wieler (the head of the German equivalent of the CDC), Ghebreyesus (head of the WHO), the Bill & Melinda Gates Foundation and the Wellcome Trust.

These individuals have repeatedly met over the years, including in May 2019, at which time they discussed plans for a coming pandemic. During this meeting, Drosten explained how his PCR test would be used to identify infections — "A blatant lie, as we now know it," Fuellmich says.

These were the same individuals who in 2020 rolled out the narrative for the COVID-19 pandemic and pushed for the global implementation of PCR testing, mask wearing, social distancing and the shut-down of economies around the world.

According to Fuellmich, Germany is at the center of this global fraud, and three of the key criminals in this case appear to be Drosten, Wieler and Ghebreyesus — and the organizations behind them.

That said, he also admits there must be others behind these public marionettes that are pulling the strings. Fuellmich believes that through pretrial discovery, these shadowy figures will eventually come to light.

Battle Plan

As mentioned earlier, we must now push the judicial branch of our government to step in. Fuellmich explains:

"We have the power [to ask] courts of law to step in, but we have to show in a court of law that this is not a corona pandemic but rather a staged PCR pandemic, which was made up — invented — for completely different purposes, for these corporations.

We do not know exactly who is responsible, but we see that some of the corporations that are now censoring us are in part responsible; we know some people — such as Bill Gates, Klaus Schwab or Blackrock — were investing their money into pharmaceutical and technical companies. Also, the mainstream media, they [have been] brought into line and are not going to report on the other side of the story.

In order to bring out this story, we have to have a court of law that will take a look at the evidence that is there ... And that's what we're doing right now. We're doing this both in Germany and in the United

States ... The U.S. and Canada are so important in this because they are the two countries that have class-actions."

At present, class-action lawsuits are being prepared in the U.S. and Canada. Lawsuits are also being prepared in Germany. Germany does not permit class-actions so, there, the process is being done a bit differently. ACU is also working on the creation of legal guidelines and data caches that attorneys around the world will be able to use to file their own lawsuits.

As for the average person, Fuellmich urges everyone to, first of all, don't give up, and secondly, ask lots of questions. Continue asking questions because the more questions are asked, the more answers will come to light. Continue to counter the censorship by asking questions. Once court hearings begin, the information will start to spread more quickly.

To learn more, all ACU meetings are live-streamed and available on the Committee's YouTube channel²⁵ (at least for now). Fuellmich can be contacted via www.fuellmich.com, and the Corona Inquiry Committee via corona-ausschuss.de. Information in multiple languages should also be available on www.ACU2020.org.

**Nine COVID Facts: A Pandemic of Fearmongering and Ignorance
By Jeff Harris**

Ever since the alleged pandemic erupted this past March the mainstream media has spewed a non-stop stream of misinformation that appears to be laser focused on generating maximum fear among the citizenry. But the facts and the science simply don't support the grave picture painted of a deadly virus sweeping the land. Yes we do have a pandemic, but it's a pandemic of ginned up pseudo-science masquerading as unbiased fact. Here are nine facts backed up with data, in many cases from the CDC itself that paints a very different picture from the fear and dread being relentlessly drummed into the brains of unsuspecting citizens.

1) The PCR test is practically useless

According to an article in the New York Times August 29th 2020 testing for the Covid-19 virus using the popular PCR method results in up to 90% of those tested showing positive results that are grossly misleading.

Officials in Massachusetts, New York and Nevada compiled testing data that revealed the PCR test can NOT determine the amount of virus in a sample. (viral load) The amount of virus in up to 90% of positive results turned out to be so miniscule that the patient was asymptomatic and posed no threat to others. So the positive Covid-19 tests are virtually meaningless.

2) A positive test is NOT a CASE

For some reason every positive Covid-19 test is immediately designated a CASE. As we saw in #1 above up to 90% of positive Covid-19 tests result in miniscule amounts of virus that do not sicken the subject. Historically only patients who demonstrated actual symptoms of an illness were considered a case. Publishing positive test results as "CASES" is grossly misleading and needlessly alarming.

3) The Centers for Disease Control dramatically lowered the Covid-19 Death Count

On August 30th the CDC released new data that showed only 6% of the deaths previously attributed to Covid-19 were due exclusively to the virus. The vast majority, 94%, may have had exposure to Covid-19 but also had preexisting illnesses like heart disease, obesity, hypertension, cancer and various respiratory illnesses. While they died with Covid-19 they did NOT die exclusively from Covid-19.

4) CDC reports Covid-19 Survival Rate over 99%

The "Second Wave": Politics Influences the "Science" of COVID-19. Flawed Data, Flawed Models

The CDC updated their "Current Best Estimate" for Covid-19 survival on September 10th showing that over 99% of people exposed to the virus survived. Another way to say this is that less than 1% of the exposures are potentially life threatening. According to the CDC the vast majority of deaths attributed to Covid-19 were concentrated in the population over age 70, close to normal life expectancy.

5) CDC reveals 85% of Positive Covid cases wore face masks Always or Often

In September of 2020 the CDC released the results of a study conducted in July where they discovered that 85% of the positive Covid test subjects reported wearing a cloth face mask always or often for two weeks prior to testing positive. The majority, 71% of the test subjects reported always wearing a cloth face mask and 14% reported often wearing a cloth face mask. The only rational conclusion from this study is that cloth face masks offer little if any protection from Covid-19 infection.

6) There are inexpensive, proven therapies for Covid-19

Harvey Risch, MD, PhD heads the Yale University School of Epidemiology. He authored "The Key to Defeating Covid-19 Already Exists. We Need to Start Using It" which was published in Newsweek Magazine July 23rd, 2020. Dr. Risch documents the proven effectiveness of treating patients diagnosed with Covid-19 using a combination of Hydroxychloroquine, an antibiotic like azithromycin and the nutritional supplement zinc. Medical Doctors across the globe have reported very positive results using this protocol particularly for early stage Covid patients.

7) The US Death Rate is NOT spiking

If Covid-19 was the lethal killer it's made out to be one would reasonably expect to see a significant spike in the number of deaths reported. But that hasn't happened. According to the CDC as of early May 2020 the total number of deaths in the US was 944,251 from January 1 – April 30th. This is actually slightly lower than the number of deaths during the same period in 2017 when 946,067 total deaths were reported.

8) Most Covid-19 Deaths Occur at the End of a normal Lifespan

According to the CDC as of 2017 US males can expect a normal lifespan of 76.1 years and females 81.1 years. A little over 80% of the suspected Covid-19 deaths have occurred in people over age 65. According to a June 28th New York Post article almost half of all Covid suspected deaths have occurred in Nursing Homes which predominately house people with preexisting health conditions and close to or past their normal life expectancy.

9) CDC Data Shows Minimal Covid Risk to Children and Young Adults

The CDC reported in their September 10th update that it's estimated Infection Mortality Rate (IFR) for children age 0-19 was so low that 99.97% of those infected with the virus survived. For 20-49 year-olds the survival rate was almost as good at 99.98%. Even those 70 years-old and older had a survival rate of 94.6%. To put this in perspective the CDC data suggest that a child or young adult up to age 19 has a greater chance of death from some type of accident than they do from Covid-19.

Taken together it should be obvious that Covid-19 is pretty similar to typical flu viruses that sicken some people annually. The vast majority are able to successfully fight off the virus with their body's natural immune system. Common sense precautions should be taken, particularly by those over age 65 that suffer from preexisting medical conditions.

The gross reaction by government leaders to this illness is causing much more distress, physical, emotional and financial, than the virus ever could on its own. The bottom line is there is NO pandemic, just a typical flu season that has been wildly blown out of proportion by 24/7 media propaganda and enabled by the masses paralyzed by irrational fear.

State and local governments in particular have ignored the rights of the people and have instituted outrageous attacks on freedom and liberty that was bought and paid for by the blood and sacrifice of our forefathers.

Slowly the people are recognizing the great fraud perpetrated on them by bureaucrats and elected officials who have sworn to uphold rights and freedoms as spelled out in the US Constitution. The time has come to hold these criminals accountable by utilizing the legal system to bring them to justice.

Either we act now to preserve freedom and liberty for our children and future generations yet unborn, or we meekly submit to tyrants who crave more power and control. I will not comply!

**Why lockdowns are the wrong policy - Swedish expert Prof. Johan Giesecke
UnHerd**

That was one of the more extraordinary interviews we have done here at UnHerd.

Professor Johan Giesecke, one of the world's most senior epidemiologists, advisor to the Swedish Government (he hired Anders Tegnell who is currently directing Swedish strategy), the first Chief Scientist of the European Centre for Disease Prevention and Control, and an advisor to the director general of the WHO, lays out with typically Swedish bluntness why he thinks:

- UK policy on lockdown and other European countries are not evidence-based
- The correct policy is to protect the old and the frail only
- This will eventually lead to herd immunity as a "by-product"
- The initial UK response, before the "180 degree U-turn", was better
- The Imperial College paper was "not very good" and he has never seen an unpublished paper have so much policy impact
- The paper was very much too pessimistic
- Any such models are a dubious basis for public policy anyway
- The flattening of the curve is due to the most vulnerable dying first as much as the lockdown
- The results will eventually be similar for all countries

- Covid-19 is a "mild disease" and similar to the flu, and it was the novelty of the disease that scared people.
- The actual fatality rate of Covid-19 is the region of 0.1%
- At least 50% of the population of both the UK and Sweden will be shown to have already had the disease when mass antibody testing becomes available

Wine & chocolate stop Covid? Study finds certain foods can kill the coronavirus

...The researchers, from North Carolina State University, carried out lab studies and computer simulations to examine how the so-called main protease (Mpro) in the coronavirus reacted to the plant compounds. "Mpro in SARS-CoV-2 is required for the virus to replicate and assemble itself. If we can inhibit or deactivate this protease, the virus will die," the study's corresponding author, DeYu Xie, explained. The investigations discovered that the chemical compounds found in the foods and drinks fill up a 'pocket' in the Mpro, rendering it useless, effectively stopping the virus from replicating. "Green tea has five tested chemical compounds that bind to different sites in the pocket on Mpro, essentially overwhelming it to inhibit its function," Xie said. "Muscadine grapes contain these inhibitory chemicals in their skins and seeds. Plants use these compounds to protect themselves, so it is not surprising that plant leaves and skins contain these beneficial compounds."

Docking Characterization and in vitro Inhibitory Activity of Flavan-3-ols and Dimeric Proanthocyanidins Against the Main Protease Activity of SARS-Cov-2

Yue Zhu and De-Yu Xie*

We report to use the main protease (Mpro) of SARS-Cov-2 to screen plant flavan-3-ols and proanthocyanidins. Twelve compounds, (–)-afzelechin (AF), (–)-epiafzelechin (EAF), (+)-catechin (CA), (–)-epicatechin (EC), (+)-gallocatechin (GC), (–)-epigallocatechin (EGC), (+)-catechin-3-O-gallate (CAG), (–)-epicatechin-3-O-gallate (ECG), (–)-gallocatechin-3-O-gallate (GCG), (–)-epigallocatechin-3-O-gallate (EGCG), procyanidin A2 (PA2), and procyanidin B2 (PB2), were selected for docking simulation. The resulting data predicted that all 12 metabolites could bind to Mpro. The affinity scores of PA2 and PB2 were predicted to be –9.2, followed by ECG, GCG, EGCG, and CAG, –8.3 to –8.7, and then six flavan-3-ol aglycones, –7.0 to –7.7. Docking characterization predicted that these compounds bound to three or four subsites (S1, S1', S2, and S4) in the binding pocket of Mpro via different spatial ways and various formation of one to four hydrogen bonds. In vitro analysis with 10 available compounds showed that CAG, ECG, GCG, EGCG, and PB2 inhibited the Mpro activity with an IC50 value, 2.98 ± 0.21, 5.21 ± 0.5, 6.38 ± 0.5, 7.51 ± 0.21, and 75.3 ± 1.29 μM, respectively, while CA, EC, EGC, GC, and PA2 did not have inhibitory activities. To further substantiate the inhibitory activities, extracts prepared from green tea (GT), two muscadine grapes (MG), cacao, and dark chocolate (DC), which are rich in CAG, ECG, GAG, EGCG, or/and PB2, were used for inhibitory assay. The resulting data showed that GT, two MG, cacao, and DC extracts inhibited the Mpro activity with an IC50 value, 2.84 ± 0.25, 29.54 ± 0.41, 29.93 ± 0.83, 153.3 ± 47.3, and 256.39 ± 66.3 μg/ml, respectively. These findings indicate that on the one hand, the structural features of flavan-3-ols are closely associated with the affinity scores; on the other hand, the glycosylation and oligomeric types of flavan-3-ols are critical in creating the inhibitory activity against the Mpro activity.

Covert op: "the virus" as cover story

by Jon Rappoport

https://www.americanthinker.com/blog/2020/12/reknowned_scientist_tells_laura_ingraham_the_covid19_vaccine_is_downright_dangerous_and_will_send_you_to_your_doom.html

Renowned scientist tells Laura Ingraham the COVID-19 vaccine is 'downright dangerous' and will send you 'to your doom'

By Peter Barry Chowka

On Wednesday, The Ingraham Angle on the Fox News channel broadcast a mind-boggling live interview with a world-renowned microbiologist who said the "looming" COVID-19 vaccine is "downright dangerous" and will send you "to your doom." The expert, Sucharit Bhakdi, M.D., speaking on a Skype video link from his home in Germany, also said this:

Laura Ingraham, Fox News channel host: On the social distancing and the mask, just to focus on that for a moment, which of those two in your research and your work has been the most displaced?
Dr. Sucharit Bhakdi: Both.
Ingram: Both. Not backed up by the science.
Bhakdi: Zero science...

Bhakdi is the co-author of Corona: False Alarm?, a massive bestseller in Germany that was published in English here on October 2. The book is currently the #1 bestseller in the Amazon categories of Microbiology, Pulmonary Medicine, and Health Law. It has a 4.8 out of 5 rating after 363 ratings...

Corona, False Alarm Facts and Figures by Karina Reiss Sucharit Bhakdi

Cut to the facts about coronavirus in Corona, False Alarm?, the runaway German bestseller. In June 2020, Corona, False Alarm? exploded into the German market, selling 200,000 copies and 75,000 e-books in six weeks. No other topic dominates our attention as much as coronavirus and COVID-19, the infectious disease it triggers. There's been a global deluge of contradictory opinions, fake news, and politically controlled information. Differing views on the dangers posed by the pandemic have led to deep division and confusion, within governments, society, and even among friends and family. In Corona, False Alarm?, award-winning researchers Dr. Sucharit Bhakdi and Dr. Karina Reiss give clarity to these confusing and stressful times. They offer analysis of whether radical protective measures-including lockdown, social distancing, and mandatory mask-wearing-have been justified, and what the ramifications have been for society, the economy, and public health. Dr. Bhakdi and Dr. Reiss provide dates, facts, and background information, including: How Covid-19 compares with previous coronaviruses and the flu virus What infection numbers and the death rate really tell us The challenges around lockdown: Were the protective measures justified? Mandatory mask-wearing: Does the science support it? Does the race for vaccine development make sense? What are the chances of success? Will the vaccine be safe? Will people accept it? Corona, False Alarm? provides you with sound information and substantiated facts-and encourages you to form your own opinion on the corona crisis.

Scientists invent a new type of microscope that can see through an intact skull

Non-invasive microscopic techniques such as optical coherence microscopy and two-photon microscopy are commonly used for in vivo imaging of living tissues. When light passes through turbid materials such as biological tissues, two types of light are generated: ballistic photons and multiply scattered photons. The ballistic photons travel straight through the object without experiencing any deflection and hence is used to reconstruct the object image. On the other hand, the multiply scattered photons are generated via random deflections as the light passes through the material and show up as speckle noise in the reconstructed image. As the light propagates through increasing distances, the ratio between multiply scattered and ballistic photons increases drastically, thereby obscuring the image information. In addition to the noise generated by the multiply scattered light, optical aberration of ballistic light also causes contrast reduction and image blur during the image reconstruction process...

Recently, a research team led by Prof. CHOI Wonshik at the Center for Molecular Spectroscopy and Dynamics within the Institute of Basic Science (IBS) in Seoul, South Korea made a major breakthrough in deep-tissue optical imaging. They developed a novel optical microscope that can image through an intact mouse skull and acquire a microscopic map of neural networks in the brain tissues without losing spatial resolution.

This new microscope is termed as a reflection matrix microscope, and it combines the powers of both hardware and computational adaptive optics (AO), which is a technology originally developed for ground-based astronomy to correct optical aberrations. While conventional confocal microscope measures reflection signal only at the focal point of illumination and discard all out of focus light, the reflection matrix microscope records all the scattered photons at positions other than the focal point. The scattered photons are then computationally corrected using a novel AO algorithm called closed-loop accumulation of single scattering (CLASS), which the team developed back in 2017. The algorithm exploits all scattered light to selectively extract ballistic light and correct severe optical aberration. Compared to the most conventional AO microscopy systems, which require bright point-like reflectors or fluorescent objects as guide stars similarly to the use of AO in astronomy, the reflection matrix microscope works without any fluorescent labeling and without depending on the target's structures. In addition, the number of aberration modes that can be corrected is more than 10 times greater than that of the conventional AO systems...

Boycott the Vaccination Program: The FDA-approved Drug Ivermectin Inhibits the Replication of SARS-CoV-2 but Nobody Talks About It

Peruvian Doctors for the Truth have issued a short video, explaining the enormous risks of the three different types of vaccines currently on the market in Peru, two of them are genetically engineered in one way or another and will affect the human DNA. Humans would become "transhumans", like genetically modified corn, soja, cotton – and more.

The breaking part of this news is that there is yet another medication, called IVERMECTIN, that has been FDA-approved and already successfully applied in Southern Peru, in Argentina and elsewhere. See this. Ivermectin, a medication known for over 60 years, has been applied successfully for many infectious diseases – including river-blindness, throughout Africa. It was highly recommended by WHO, at a time when WHO still had a human touch.

The third vaccine would be recreating a weaker version of the virus in your body. The more traditional type of vaccine. But none of them has been seriously tested.

The trans-genetic ones have not even been animal-tested. And the few voluntary tests that were carried out in particular with the Moderna vaccine have left disastrous results. While none of the 40 robust volunteers died, all of them had serious side effects, serious health problems and had to be hospitalized – and the long-term consequences are not known. How they turn around now, Pfizer-BioNTech, Moderna and AstraZeneca, claiming up to 95% efficiency. What a joke!!! Never tested – and lying to the people, so they will buy into the fraud.

The long-term consequences of any of these vaccines are not known, will not be known for a long time. And nobody can sue any of the pharma companies, they are "immune" under the 1986 Supreme Court ratified National Childhood Vaccine Injury Act (NCVIA) (42 U.S.C. §§ 300aa- 1 to 300aa-34).

Pharma companies can never be sued for any damage their vaccines cause.

One of the long-term effects of covid-19 vaccines, may be reduced virility for men and infertility for women. This fits the Bill Gates, Rockefeller et al eugenics agenda (Bill Gates TedTalk in 2010 – "Innovating to Zero"). Provides an early flavor of what the Gates and Co. clan have in mind for humanity.

With support of WHO, Bill Gates initiated in 2010 and 2014 in Kenya a tetanus toxoid (TT) vaccination program:

In 1993, WHO announced a "birth-control vaccine" for "family planning". Published research shows that by 1976 WHO researchers had conjugated tetanus toxoid (TT) with human chorionic gonadotropin (hCG) producing a "birth-control" vaccine. Conjugating TT with hCG causes pregnancy hormones to be attacked by the immune system. Expected results are abortions in females already pregnant and/or infertility in recipients not yet impregnated. Repeated inoculations prolong infertility. Currently WHO researchers are working on more potent anti-fertility vaccines using recombinant DNA. WHO publications show a long-range purpose to reduce population growth in unstable "less developed countries". By November 1993 Catholic publications appeared saying an abortifacient vaccine was being used as a tetanus prophylactic. In November 2014, the Catholic Church asserted that such a program was underway in Kenya. Three independent Nairobi accredited biochemistry laboratories tested samples from vials of the WHO tetanus vaccine being used in March 2014 and found hCG where none should be present. In October 2014, 6 additional vials were obtained by Catholic doctors and were tested in 6 accredited laboratories. Again, hCG was found in half the samples. Subsequently, Nairobi's AgriQ Quest laboratory, in two sets of analyses, again found hCG in the same vaccine vials that tested positive earlier but found no hCG in 52 samples alleged by the WHO to be vials of the vaccine used in the Kenya campaign 40 with the same identifying batch numbers as the vials that tested positive for hCG. Given that hCG was found in at least half the

WHO vaccine samples known by the doctors involved in administering the vaccines to have been used in Kenya, our opinion is that the Kenya “anti-tetanus” campaign was reasonably called into question by the Kenya Catholic Doctors Association as a front for population growth reduction. The Kenyan Government sued WHO – which is immune for lawsuits, but had to officially apologize. Since Bill Gates and his Foundation are behind this obsessive vaxxer craze, and they are supported by the very institution – a UN organization- imagine!!! – WHO – for which Bill Gates is one of the biggest single funders, it is not unlikely that Covid vaccines may contain similar sterilization components – the effect of which may not be seen immediately – but only over time, and especially, the weakened virility and fertility may be passed on genetically to future generations. Back to the three vaccines the medical doctor of Peru’s Doctors for the Truth mentions. The vaccine based on replication of a weaker virus version – has not been tested either. The Tuberculosis vaccine – a similar type – was tested for 17 years before it was applied large-scale. The next-in-line for SARS was tested during 5 ½ years. We are talking about enormous risks – and with the fear – the extreme fear instilled in people – it is likely that there will be long lines when the vaccines become available – and people think after being inoculated with one of them, they will be home free and life will go back to “normal”. It will not. Be aware. Life will not go back to normal. Only our fierce resistance may eventually bring a return to something similar to what we once knew as normal. But it will be a new “normal” made by the people, for the people; and NOT by an ultra-rich elite – of which the 193 UN member governments and their respective parliaments were coopted as being part – bought, coerced, bribed. Not a “new normal”, as proposed by the World Economic Forum (WEF) – The Great Reset (Klaus Schwab – July 2020), or the IMF, The Great Transformation. This is just the beginning. If you let yourself be inoculated by these treacherous politicians – like Boris Johnson – who orders vaccination to start next week, i.e. in the week beginning on 7 December 2020 – with a vaccine that has not been tested, you may be in for nefarious surprises. People, victims of the British warp-speed vaccination program, have no idea what is being jabbed into their bodies. This man, PM of the UK – is inhuman. The harm he may inflict on the British population is criminal. BoJo, one who serves a higher order, but for nothing does he serve the people of the country that he had been chosen to serve, the people who pay his salary. If so far, the vaccination is not forced or compulsory, it is nevertheless heavily encouraged with fear propaganda. The solution? – First, No Fear; second: Civil disobedience. Boycott the vaccination program, demand being treated by alternatives, like Ivermectin – and there are many others – many of which are banned by governments. They were forced to ban them, by the very higher “orders” that are in bed with the pharma industry, for profit greed – trillions of dollars – to be made by the vaccine campaigns. Say no to vaccination en masse, and count on herd immunity which is the logical next phase – and no vaccine is needed. Do not get bogged-down in fear. Stand up for your rights. Fear is killing your self-esteem. Your civil and human rights cannot, I repeat, CANNOT, be obliterated as the reigning 193 UN member governments are intent of doing. See also The Secret Agenda of the World Bank and the IMF. Unfortunately, there is hardly a government left that is not coopted, coerced or bought by these so-called higher and darker forces, these forces that might very much be related to what people like Joe Biden and Barack Obama refer to when they warn repeatedly – like a ritual – We are facing a Very Dark Winter. No constitution in the world gives them the right to eviscerate your civil and human rights. Do not follow the mainstream media – look for alternative information – and when you see that such information suddenly disappears from the internet, from youtube, or is being “fact-checked”, you know that you are on the right track. There has never in recent history been a time of more censoring of more “fake news” planted by the very mainstream media. Be aware. Be self-assured. Do not give in to Fear.

A dimeric form of a SARS-CoV-2-derived lipopeptide is a potent inhibitor of fusion and infection in vitro and transmission in vivo :
<https://scitechdaily.com/nasal-spray-may-prevent-coronavirus-infection-in-people-exposed-to-covid-19/>
DOI: 10.1101/2020.11.04.361154

Nasal Spray May Prevent Coronavirus Infection in People Exposed to COVID-19

A nasal antiviral created by researchers at Columbia University Vagelos College of Physicians and Surgeons blocked transmission of SARS-CoV-2 in ferrets, suggesting the nasal spray also may prevent infection in people exposed to the new coronavirus.

The compound in the spray—a lipopeptide developed by Anne Moscona, MD, and Matteo Porotto, PhD, professors in the Department of Pediatrics and directors of the Center for Host-Pathogen Interaction—is designed to prevent the new coronavirus from entering host cells.

The antiviral lipopeptide is inexpensive to produce, has a long shelf life, and does not require refrigeration. These features make it stand out from other antiviral approaches under development, including monoclonal antibodies. The new nasal lipopeptide could be ideal for halting the spread of COVID in the United States and globally; the transportable and stable compound could be especially key in rural, low-income, and hard-to-reach populations.

A preprint of the study appeared in bioRxiv on November 5, 2020; a paper describing a first generation of the compound and its effect in a 3D model of the human lung first appeared in the journal mBio on October 20, 2020. In this human lung model, the compound was able to extinguish an initial infection, prevent spread of the virus within the lung, and was not at all toxic to the airway cells....

Intranasal fusion inhibitory lipopeptide prevents direct contact SARS-CoV-2 transmission in ferrets
Rory D. de Vries, et al.

Abstract

Containment of the COVID-19 pandemic requires reducing viral transmission. SARS-CoV-2 infection is initiated by membrane fusion between the viral and host cell membranes, mediated by the viral spike protein. We have designed a dimeric lipopeptide fusion inhibitor that blocks this critical first step of infection for emerging coronaviruses and document that it completely prevents SARS-CoV-2 infection in ferrets. Daily intranasal administration to ferrets completely prevented SARS-CoV-2 direct-contact transmission during 24-hour co-housing with infected animals, under stringent conditions that resulted in infection of 100% of untreated animals. These lipopeptides are highly stable and non-toxic and thus readily translate into a safe and effective intranasal prophylactic approach to reduce transmission of SARS-CoV-2.

Brazil President Says “No” - Won’t Take COVID Vaccine -- Neither Should You! -- Nation Hal Turner

Brazilian President Jair Bolsonaro says that he will not take a coronavirus vaccine. (Neither should you)

During a press briefing broadcast live over multiple social media platforms, Bolsonaro said that he has already decided to refuse a future coronavirus vaccine.

“I’m telling you, I’m not going to take it. It’s my right,” he said.

The right-wing leader has repeatedly stated that Brazilians will not be required to be vaccinated once a Chinese coronavirus vaccine becomes widely available. Bolsonaro reiterated this at a press briefing, saying that Brazil’s Congress was unlikely to require Brazilians to take a future coronavirus vaccine.

“The [Brazilian] president also expressed skepticism about the effectiveness of the use of masks during the live broadcast, implying that there was little conclusive evidence of its success in curbing the transmission of the virus,” according to South American news site Infobae.

Bolsonaro has tested positive for the Chinese coronavirus at least two times. After contracting the virus for the first time on July 7, Bolsonaro said he initially suffered from a low-grade fever and mild symptoms.

Announcing his positive diagnosis at a press conference held outside on the grounds of Brazil's presidential palace, Bolsonaro stepped back and removed his mask to demonstrate to the public that he was "absolutely fine" despite the mild symptoms.

He subsequently entered a period of semi-isolation for nearly 20 days while recovering from the virus. During this period, the leader continued to venture out on the grounds of the presidential palace to greet his supporters. A proponent of the anti-malarial drug hydroxychloroquine as an anti-coronavirus therapy, Bolsonaro said he received the drug as part of his own treatment. The president announced via Twitter on July 25 that he had tested negative for coronavirus.

"I'm healed from Covid. I have antibodies, no problems. In my particular case, I first thank God, and secondly, the medication prescribed by the presidential doctor: hydroxychloroquine," Bolsonaro said on July 30.

"The following day, I was already OK. If it was a coincidence or not, I don't know. But it works," the leader added.

ALTERS HUMAN DNA

There are real issues surrounding the so-called COVID-19 Vaccines. They are NOT "vaccines" in any traditional sense.

In the past, to create a vaccine, scientists isolated in a laboratory, the pathogen which causes illness. Once isolated, scientists take the DNA "guts" out of the virus, and replace those "guts" with harmless yeast guts. In other words, they "recombine" the virus with harmless yeast guts.

So the outside of the virus looks like the pathogen making people sick, but the guts are harmless yeast. This is called a "recombinant" vaccine because they recombined the outer virus envelope with harmless yeast DNA guts.

They reproduce this new harmless "virus" and inject the harmless recombinant virus into humans.

When our body sees the outside of this "invader" it begins its immune response and we develop immunity to what the original virus LOOKED LIKE on its outside.

THAT is how old vaccines worked.

This new COVID-19 vaccine is nothing like the old. This new vaccine contains "messenger RNA" Ribo-nucleic-acid; a base level of Deoxy-ribonucleic-acid (DNA).

It "programs" the human into whom it is injected so that human's DNA triggers a response to what would be COVID-19.

The trouble is, scientists don't know exactly what ELSE this RNA might "program" once it is let loose inside a human!

It might start re-programming OTHER aspects of human DNA.

In a horrifying possibility, once unleashed, these "messenger RNA" particles could turn someone from human into . . . not human!

There's no way to tell.

Worse, there's no way to UN DO what this messenger RNA does. The changes are permanent and cannot be undone.

From a scientific stand point, there could be deadly results from this messenger RNA if it causes changes to a human that make it impossible for the person to live.

Almost 100% of the people who agreed to accept this vaccine in clinical trials, have had very strong adverse reactions to it. Some have DIED!

ALL of the animal testing of this vaccine had to be stopped because ALL the animals DIED.

Instead of taking this as a red flag warning, authorities merely "waived" the requirement for animal testing and went straight to human testing!!!!!!

As stated earlier, almost 100% of those who received the vaccine in trials, suffered VERY STRONG adverse reactions.

That's the scientific aspect, but there's another aspect: From a RELIGIOUS stand point, it could alter a person so they are no longer recognizable as "human" by God.

The book of Revelations warns about this, and does so SPECIFICALLY in Revelation 18:23 --

And the light of a candle shall shine no more at all in thee; and the voice of the bridegroom and of the bride shall be heard no more at all in thee: for thy merchants were the great men of the earth; for by thy sorceries were all nations deceived.

We all know the Bible was translated from Hebrew / Aramaic into Greek, first. Here is the origin of sorcery in Greek language: Pharmakeia (Pharmaceuticals!) (Link)

So Brazil President Balsonaro has multiple reasons for him NOT TAKING the vaccine. Now, you have those same reasons.

Do not be deceived by Pharmaceutical companies into taking a vaccine that alters your DNA. The changes it causes will be irreversible and could cost you literally everything.

Bolsonaro reiterated this at a press briefing, saying that Brazil's Congress was unlikely to require Brazilians to take a future coronavirus vaccine.

"The [Brazilian] president also expressed skepticism about the effectiveness of the use of masks during the live broadcast, implying that there was little conclusive evidence of its success in curbing the transmission of the virus," according to South American news site Infobae.

Bolsonaro has tested positive for the Chinese coronavirus at least two times. After contracting the virus for the first time on July 7, Bolsonaro said he initially suffered from a low-grade fever and mild symptoms.

Announcing his positive diagnosis at a press conference held outside on the grounds of Brazil's presidential palace, Bolsonaro stepped back and removed his mask to demonstrate to the public that he was

"absolutely fine" despite the mild symptoms.

He subsequently entered a period of semi-isolation for nearly 20 days while recovering from the virus. During this period, the leader continued to venture out on the grounds of the presidential palace to greet his supporters. A proponent of the anti-malarial drug hydroxychloroquine as an anti-coronavirus therapy, Bolsonaro said he received the drug as part of his own treatment. The president announced via Twitter on

July 25 that he had tested negative for coronavirus.

"I'm healed from Covid. I have antibodies, no problems. In my particular case, I first thank God, and secondly, the medication prescribed by the presidential doctor: hydroxychloroquine," Bolsonaro said on July

30.

"The following day, I was already OK. If it was a coincidence or not, I don't know. But it works," the leader added.

ALTERS HUMAN DNA

There are real issues surrounding the so-called COVID-19 Vaccines. They are NOT "vaccines" in any traditional sense.

In the past, to create a vaccine, scientists isolated in a laboratory, the pathogen which causes illness. Once isolated, scientists take the DNA "guts" out of the virus, and replace those "guts" with harmless yeast guts. In other words, they "recombine" the virus with harmless yeast guts.

So the outside of the virus looks like the pathogen making people sick, but the guts are harmless yeast. This is called a "recombinant" vaccine because they recombined the outer virus envelope with harmless yeast DNA guts.

They reproduce this new harmless "virus" and inject the harmless recombinant virus into humans.

When our body sees the outside of this "invader" it begins its immune response and we develop immunity to what the original virus LOOKED LIKE on its outside.

THAT is how old vaccines worked.

This new COVID-19 vaccine is nothing like the old. This new vaccine contains "messenger RNA" Ribo-nucleic-acid; a base level of Deoxy-ribonucleic-acid (DNA).

It "programs" the human into whom it is injected so that human's DNA triggers a response to what would be COVID-19.

The trouble is, scientists don't know exactly what ELSE this RNA might "program" once it is let loose inside a human!

It might start re-programming OTHER aspects of human DNA.

In a horrifying possibility, once unleashed, these "messenger RNA" particles could turn someone from human into . . . not human!

There's no way to tell.

Worse, there's no way to UN DO what this messenger RNA does. The changes are permanent and cannot be undone.

From a scientific stand point, there could be deadly results from this messenger RNA if it causes changes to a human that make it impossible for the person to live. Almost 100% of the people who agreed to accept this vaccine in clinical trials, have had very strong adverse reactions to it. Some have DIED! ALL of the animal testing of this vaccine had to be stopped because ALL the animals DIED. Instead of taking this as a red flag warning, authorities merely "waived" the requirement for animal testing and went straight to human testing!!!!!! As stated earlier, almost 100% of those who received the vaccine in trials, suffered VERY STRONG adverse reactions. That's the scientific aspect, but there's another aspect: From a RELIGIOUS stand point, it could alter a person so they are no longer recognizable as "human" by God. The book of Revelations warns about this, and does so SPECIFICALLY in Revelation 18:23 -- And the light of a candle shall shine no more at all in thee; and the voice of the bridegroom and of the bride shall be heard no more at all in thee: for thy merchants were the great men of the earth; for by thy sorceries were all nations deceived. We all know the Bible was translated from Hebrew / Aramaic into Greek, first. Here is the origin of sorcery in Greek language: Pharmakeia (Pharmaceuticals!) (Link) So Brazil President Bolsonaro has multiple reasons for him NOT TAKING the vaccine. Now, you have those same reasons. Do not be deceived by Pharmaceutical companies into taking a vaccine that alters your DNA. The changes it causes will be irreversible and could cost you literally everything.

Coronavirus uses cholesterol receptor to penetrate human cells, scientists say

The ability of the COVID-19 agent to adhere to several different receptors at once made the scientists study actively to which other types of protein molecules the coronavirus may bind and how this affects the course of the disease

Molecular biologists from China have discovered first evidence of the fact that the coronavirus penetrates human cells not only by using the "lung" ACE2 receptor but also the SR-B1 receptors which recognize cholesterol molecules. Their findings were published in the Nature Metabolism journal.

"Commonalities between SARS-CoV-2 and SARS-CoV infection suggest that antibodies, peptides and small compounds targeting ACE2 can be used in the treatment of SARS-CoV-2. Identifying SR-B1 as a SARS-CoV-2 entry cofactor, we propose that drugs that target SR-B1 could act as antivirals that limit SARS-CoV-2 infection. As a proof of concept, we have shown that ITX 5601, a clinically approved inhibitor of HCV infection, strongly inhibits SARS-CoV-2 infection of cultured cells," the scientists wrote....

Big Healthcare Chief Admits Covid Masks Are 'Mostly Symbolic', Forced To Resign

...Sanford Health published a statement this week announcing it had 'mutually agreed to part ways' with longtime CEO Kelby Krabbenhoft.

Krabbenhoft leaving after 24 years in the position appeared after he sent an email to the company's 50,000 staff last week informing them he didn't need to wear a mask because he is immune to COVID-19.

'For me to wear a mask defies the efficacy and purpose of a mask and sends an untruthful message that I am susceptible to infection or could transmit it,' he wrote.

'I have no interest in using masks as a symbolic gesture.

'Masks have been a symbolic issue that frankly frustrates me,' Krabbenhoft wrote. 'The 'on-again, off-again' behavior of mask use by the general population violates every notion of serious infectious management that I was trained to adhere to, so some of this is absurd.'

He said he thinks that he is now immune to the virus for 'at least seven months and perhaps years to come' and that he isn't a threat to transmit it to anyone.'...

Effectiveness of Adding a Mask Recommendation to Other Public Health Measures to Prevent SARS-CoV-2 Infection in Danish Mask WearersFREE

A Randomized Controlled Trial
Henning Bundgaard, et al.

Conclusion:

The recommendation to wear surgical masks to supplement other public health measures did not reduce the SARS-CoV-2 infection rate among wearers by more than 50% in a community with modest infection rates, some degree of social distancing, and uncommon general mask use. The data were compatible with lesser degrees of self-protection.

Dynamically evolving novel overlapping gene as a factor in the SARS-CoV-2 pandemic

Chase W Nelson, et al.

Abstract

Understanding the emergence of novel viruses requires an accurate and comprehensive annotation of their genomes. Overlapping genes (OLGs) are common in viruses and have been associated with pandemics but are still widely overlooked. We identify and characterize ORF3d, a novel OLG in SARS-CoV-2 that is also present in Guangxi pangolin-CoVs but not other closely related pangolin-CoVs or bat-CoVs. We then document evidence of ORF3d translation, characterize its protein sequence, and conduct an evolutionary analysis at three levels: between taxa (21 members of Severe acute respiratory syndrome-related coronavirus), between human hosts (3978 SARS-CoV-2 consensus sequences), and within human hosts (401 deeply sequenced SARS-CoV-2 samples). ORF3d has been independently identified and shown to elicit a strong antibody response in COVID-19 patients. However, it has been misclassified as the unrelated gene ORF3b, leading to confusion. Our results liken ORF3d to other accessory genes in emerging viruses and highlight the importance of OLGs.

Effectiveness of Adding a Mask Recommendation to Other Public Health Measures to Prevent SARS-CoV-2 Infection in Danish Mask Wearers – A Randomized Controlled Trial
Henning Bundgaard, et al.

Abstract

Background:

Observational evidence suggests that mask wearing mitigates transmission of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). It is uncertain if this observed association arises through protection of uninfected wearers (protective effect), via reduced transmission from infected mask wearers (source control), or both.

Objective:

To assess whether recommending surgical mask use outside the home reduces wearers' risk for SARS-CoV-2 infection in a setting where masks were uncommon and not among recommended public health measures.

Design:

Randomized controlled trial (DANMASK-19 [Danish Study to Assess Face Masks for the Protection Against COVID-19 Infection]). (ClinicalTrials.gov: NCT04337541)

Setting: Denmark, April and May 2020.

Participants: Adults spending more than 3 hours per day outside the home without occupational mask use.

Intervention: Encouragement to follow social distancing measures for coronavirus disease 2019, plus either no mask recommendation or a recommendation to wear a mask when outside the home among other persons together with a supply of 50 surgical masks and instructions for proper use.

Measurements: The primary outcome was SARS-CoV-2 infection in the mask wearer at 1 month by antibody testing, polymerase chain reaction (PCR), or hospital diagnosis. The secondary outcome was PCR positivity for other respiratory viruses.

Results: A total of 3030 participants were randomly assigned to the recommendation to wear masks, and 2994 were assigned to control; 4862 completed the study. Infection with SARS-CoV-2 occurred in 42 participants recommended masks (1.8%) and 53 control participants (2.1%). The between-group difference was –0.3 percentage point (95% CI, –1.2 to 0.4 percentage point; P = 0.38) (odds ratio, 0.82 [CI, 0.54 to 1.23]; P = 0.33). Multiple imputation accounting for loss to follow-up yielded similar results. Although the difference observed was not statistically significant, the 95% CIs are compatible with a 46% reduction to a 23% increase in infection.

Limitation: Inconclusive results, missing data, variable adherence, patient-reported findings on home tests, no blinding, and no assessment of whether masks could decrease disease transmission from mask wearers to others.

Conclusion: The recommendation to wear surgical masks to supplement other public health measures did not reduce the SARS-CoV-2 infection rate among wearers by more than 50% in a community with modest infection rates, some degree of social distancing, and uncommon general mask use. The data were compatible with lesser degrees of self-protection...

COVID Plans Include Family Separation & Involuntary Quarantine in “Camps”

CDC calls for “isolation camps” as part of a “Shielding Plan”. The plan subjects U.S. Citizens and residents who are deemed “high risk” for Covid-19 to be forcibly removed from their families and homes, and involuntarily isolated in guarded Camps. The public first got wind of this impending nightmare on May 4, 2020, when Governor Gavin Newsom of California announced that the “army” – his word – will start with a deployment of 3,000 and grow to the 20,000 mark to chase down who, what, where, and with whom COVID positive people have had connections: “the tracing component requires workforce and to identify individuals who tested positive...to ID their contacts (with privacy) and maybe quarantine individuals to stop the spread of the disease.”...

<https://cnsi.ucla.edu/project/september-28-2020-common-antioxidant-enzyme-may-provide-potential-treatment-for-covid-19/>

Common Antioxidant Enzyme May Provide Potential Treatment for COVID-19

Researchers from UCLA and China have found that catalase, a naturally occurring enzyme, holds potential as a low-cost therapeutic drug to treat COVID-19 symptoms and suppress the replication of coronavirus inside the body. A study detailing the research was published in Advanced Materials.

Catalase is produced naturally and used by humans, animals and plants. Inside cells, the antioxidant enzyme kick starts the breakdown of hydrogen peroxide, which can be toxic, into water and oxygen. The enzyme is also commonly used worldwide in food production and as a dietary supplement...

<https://onlinelibrary.wiley.com/doi/10.1002/adma.202004901>

<https://doi.org/10.1002/adma.202004901>

An Antioxidant Enzyme Therapeutic for COVID-19

Meng Qin

Abstract

The COVID-19 pandemic has taken a significant toll on people worldwide, and there are currently no specific antiviral drugs or vaccines. Herein it is a therapeutic based on catalase, an antioxidant enzyme that can effectively breakdown hydrogen peroxide and minimize the downstream reactive oxygen species, which are excessively produced resulting from the infection and inflammatory process, is reported. Catalase assists to regulate production of cytokines, protect oxidative injury, and repress replication of SARS-CoV-2, as demonstrated in human leukocytes and alveolar epithelial cells, and rhesus macaques, without noticeable toxicity. Such a therapeutic can be readily manufactured at low cost as a potential treatment for COVID-19...

In conclusion, we have shown the anti-inflammatory effect and ability of catalase to regulate cytokine production in leukocytes, protect alveolar cells from oxidative injury, and repress the replication of SARS-CoV-2 in rhesus macaques without noticeable toxicity. Moreover, it is worth noting that catalase is safe and commonly used as a food additive and dietary supplement, and that pilot-scale manufacturing of n(CAT) has been successfully demonstrated. In contrast to the current focus on vaccines and antiviral drugs, this may provide an effective therapeutic solution for the pandemic, as well as treatment of hyperinflammation in general.

Heil Merkel ! Doctor arrested on livestream :

Interim Operational Considerations for Implementing the Shielding Approach to Prevent COVID-19 Infections in Humanitarian Settings

<https://labblog.uofmhealth.org/lab-report/new-cause-of-covid-19-blood-clots-identified>

New Cause of COVID-19 Blood Clots Identified

A new study reveals the virus triggers production of antibodies circulating through the blood, causing clots in people hospitalized with the disease...

The culprit: an autoimmune antibody that’s circulating in the blood, attacking the cells and triggering clots in arteries, veins, and microscopic vessels. Blood clots can cause life-threatening events like strokes. And, in COVID-19, microscopic clots may restrict blood flow in the lungs, impairing oxygen exchange.

Outside of novel coronavirus infection, these clot-causing antibodies are typically seen in patients who have the autoimmune disease antiphospholipid syndrome. The connection between autoantibodies and COVID-19 was unexpected, says co-corresponding author Yogen Kanthi, M.D., an assistant professor at the Michigan Medicine Frankel Cardiovascular Center and a Lasker Investigator at the National Institutes of Health’s National Heart, Lung, and Blood Institute.

“In patients with COVID-19, we continue to see a relentless, self-amplifying cycle of inflammation and clotting in the body,” Kanthi says. “Now we’re learning that autoantibodies could be a culprit in this loop of clotting and inflammation that makes people who were already struggling even sicker.”...

Even a Military-Enforced Quarantine Can’t Stop the Virus, Study Reveals

Ivermectin :

https://www.youtube.com/watch?v=FwJq4u_120U

As many parts of the (so-called) developed world enter second lockdowns, and people line up for miles in their cars seeking food handouts in Texas, the less developed nations are busily discovering Covid-19 treatments that actually work.

<https://www.researchsquare.com/article/rs-100956/v1>

Efficacy and Safety of Ivermectin for Treatment and prophylaxis of COVID-19 Pandemic

Ahmed Elgazzar, et al.

Background: Up-to-date, there is no recognized effective treatment or vaccine for the treatment of COVID-19 that emphasize urgency around distinctive effective therapies. This study aims to evaluate the anti-parasitic medication efficacy “Ivermectin” plus standard care (azithromycin, vitamin C, Zinc, Lactoferrin & Acetylcystein & prophylactic or therapeutic anticoagulation if D-dimer > 1000) in the treatment of mild/moderate and severely ill cases with COVID 19 infection, as well as prophylaxis of health care and/ or household contacts in comparison to the Hydroxychloroquine plus standard treatment.

Subject and methods: 600 subjects; 400 symptomatic confirmed COVID-19 patients and 200 health care and household contacts distributed over 6 groups; Group I: 100 patients with Mild/Moderate COVID-19 infection received a 4-days course of Ivermectin plus standard of care; Group II: 100 patients with mild/moderate COVID-19 infection received hydroxychloroquine plus standard of care; Group III: 100 patients with severe COVID-19 infection received Ivermectin plus standard of care; Group IV: 100 patients with Severe COVID-19 infection received hydroxychloroquine plus standard of care. Routine laboratory investigations and RT-PCR were reported before and after initiation of treatment. Group V stick to personal protective equipment (PPE) plus Ivermectin 400mcg / kg to be repeated after one week, and Group VI stick to PPE only and both groups V&VI were followed for two weeks.

Results: Patients received ivermectin reported substantial recovery of laboratory investigations; and significant reduction in RT-PCR conversion days. A substantial improvement and reduction in mortality rate in Ivermectin treated groups; group I (mild/moderate cases), (99%, and 0.0%, respectively) and group III (severe cases), (94%, and 2.0%, respectively) versus hydroxychloroquine plus standard care treated groups; group II (mild/moderate cases), (74% and 4%, respectively) and group IV (severe cases) (50% and 20%, respectively). Ivermectin had significantly reduced the incidence of infection in health care and household contacts up to 2% compared to 10% in non ivermectin group

Conclusion: Addition of Ivermectin to standard care is very effective drug for treatment of COVID-19 patients with significant reduction in mortality compared to Hydroxychloroquine plus standard treatment only. Early use of Ivermectin is very useful for controlling COVID 19 infections, prophylaxis and improving cytokines storm

https://articles.mercola.com/sites/articles/archive/2020/11/13/covid-19-testing.aspx?ui=8c11696c2589b20b9689ab1f04c426b8cfb27cc0c74b425c155abf7799453f56&cid_source=dnl&cid_medium=email&cid_content=art1111&cid=20201113Z1&mid=DM706762&rid=1010375112

Why COVID-19 Testing Is a Tragic Waste

PCR tests are not designed to be used as a diagnostic tool as they cannot distinguish between inactive viruses and “live” or reproductive ones

Amplification over 35 cycles is considered unreliable and scientifically unjustified, yet many labs use 45 cycles. This amplifies any tiny sequence of viral DNA that might be present to the point that the test reads “positive” even if the viral load is extremely low or the virus is inactive

The PCR test can also pick up the presence of other coronaviruses, so a positive result may simply indicate that you’ve recuperated from a common cold in the past

Millions of people are simply carrying inactive viral DNA that pose no risk to anyone, yet positive test results are being used by the global technocracy to implement a brand new economic and social system based on draconian surveillance and totalitarian controls

Research shows the global lockdown strategy harms public health to a greater degree than the virus itself...

<https://www.infowars.com/posts/trump-covid-adviser-the-only-way-this-stops-is-if-people-rise-up/>

Dr. Scott Atlas, a leading member of President Trump’s coronavirus task force, announced Sunday that “The only way this stops is if people rise up.”

Atlas was responding to the decree of a new lockdown by Michigan Democrat Governor Gretchen Whitmer.

Atlas tweeted out a thread with Whitmer's announcement, and a graphic made by The Michigan Department of Health and Human Services highlighting what will be allowed to remain open and what will be forced to closed.

Atlas encouraged people of Michigan to "rise up", and added "You get what you accept."

<https://russia-insider.com/en/its-just-flu-its-all-bs-russias-top-official-covid-doctor-admits-bombshell-invy/ri30462>

'It's Just the Flu, It's All BS' - Russia's Top Official COVID Doctor Admits in Bombshell Invy

"It's all exaggerated. It's an acute respiratory disease (i.e. the flu) with minimal mortality. Why has the whole world been destroyed? That I don't know."

it is difficult to overstate how important this is. This man is the equivalent of Fauci in the US, or perhaps Dr. Deborah Birx. The 1.5 hour long interview below is only in Russian, but if you can understand it, it is well worth watching, because a lot of important information is covered.

The interviewer is Ksenia Sobchak, who is very liberal - think of her as like a Russian Rachel Maddow. Like liberals in the West, she very much wants to believe the COVID situation is much worse than it really is. Myasnikov explains to her in detail why it is in fact very difficult to assign 'cause of death' in most cases, because there are usually several, in addition to a lot of other things.

It is a great interview, in which the good doctor finally loses his patience and tells her its not nearly as dangerous as people think, and that the whole world has over-reacted. He also insists that the death numbers in the West are way over-counted.

He's right.

This interview is also a great example of the high level of journalism in Russia - this is much more genuine, open, exciting, and authentic than most of what is on mainstream media in the West. Just watch a few seconds of the intro, and you will get the idea.

Russia's head of coronavirus information has suggested that global anxiety over the pandemic is misplaced, his latest controversial comment after saying that the infection would kill as many people as it needs to.

Doctor and television presenter Alexander Myasnikov was appointed in April to his new role of informing Russians about coronavirus treatment and prevention methods and to battle "fake news" about Covid-19. After calling the country's reported low death rate a "Russian miracle," Myasnikov said last week that "those meant to die will die" from it.

In an interview that aired Wednesday, Myasnikov gestured for the cameras to stop running and said candidly: "It's all bullsh*t."

"It's all exaggerated. It's an acute respiratory disease with minimal mortality," he told television personality Ksenia Sobchak in the interview for her YouTube project.

"Why has the whole world been destroyed? That I don't know," Myasnikov said, adding that he's more concerned about a second wave that he claimed "we're unprepared for."

Why COVID-19 Testing Is a Tragic Waste

PCR tests are not designed to be used as a diagnostic tool as they cannot distinguish between inactive viruses and "live" or reproductive ones

Amplification over 35 cycles is considered unreliable and scientifically unjustified, yet many labs use 45 cycles. This amplifies any tiny sequence of viral DNA that might be present to the point that the test reads "positive" even if the viral load is extremely low or the virus is inactive

The PCR test can also pick up the presence of other coronaviruses, so a positive result may simply indicate that you've recuperated from a common cold in the past

Millions of people are simply carrying inactive viral DNA that pose no risk to anyone, yet positive test results are being used by the global technocracy to implement a brand new economic and social system based on draconian surveillance and totalitarian controls

Research shows the global lockdown strategy harms public health to a greater degree than the virus itself...

Gots Ebola ? Gots Cobalt Hexamine ?

The Poisoned Needle: Suppressed Facts About Vaccination Anti Vaccine -- Eleanor McBean

During the Dark Ages, before the introduction of improved nutrition and sanitation, the world was intermittently visited with epidemics of smallpox. The cause was stubbornly ignored and the seeds for more disease were sown when vaccination was brought into popular use. This infusion of poison injected into the blood stream of the masses only served to intensify the disease in some cases, suppress the symptoms in others and create new and more serious diseases in still others. So, with the passing of years we have seen this misbegotten child of ignorance grow into a Frankenstein monster of immense proportions that moves relentlessly forward, grinding under foot the multitudes that throng its path

Through the lethal power of this poisoned needle, the simple zymotic (contagious) diseases of the past have been devolved into the horrors of the present — our terrifying and expanding crop of "killer diseases". Many of these strange "mystery diseases" that baffle the entire medical world, are the sordid products of vaccine poisons that disturb the chemical balance of the body and interfere with normal functioning.

All these medically-made atrocities are far worse than smallpox or any of the other eruptive diseases that nature provides as a means of expelling the accumulated poison waste from the abused body. This interference with the balanced economy of nature has multiplied the Problems beyond the power of science to control.

Our worst epidemics now are epidemics of vaccination in which more people are killed every year by "vaccinal diseases" than by the diseases that the vaccinations were supposed to combat.

Complete freedom from disease can scarcely be found except in remote islands or isolated communities that have not been invaded by medical mischief and commercialized products. Is our proud civilization to be degraded, corrupted, and destroyed by its own inventions designed for selfish profit and exploitation of the race?

Vaccination, instead of being the promised blessing to the world, has proved to be a curse of such sweeping devastation that it has caused more death and disease than war, pestilence, and plague combined. There is no scourge (with the possible exception of atomic radiation) that is more destructive to our nation's health than this monument of human deception — this slayer of the innocent — this cripple of body and brain

<https://pieceofmindful.com/2020/04/06/bombshell-who-coronavirus-pcr-test-primer-sequence-is-found-in-all-human-dna/amp/>

My research into the NCBI database for nucleotide sequences has lead to a stunning discovery. One of the WHO primer sequences in the PCR test for SARS-CoV-2 is found in all human DNA!

The sequence "CTCCCTTTGTTGTGTGTGT" is an 18-character primer sequence found in the WHO coronavirus PCR testing protocol document. The primer sequences are what get amplified by the PCR process in order to be detected and designated a "positive" test result. It just so happens this exact same 18-character sequence, verbatim, is also found on Homo sapiens chromosome 8! As far as I can tell, this means that the WHO test kits should find a positive result in all humans. Can anyone explain this otherwise?...

Update: After some effort, I have finally discovered a way to display proof (beyond my screenshots) that human chromosome 8 has this exact same 18-character sequence. Please try the link below. The sequence is shown at the bottom of the page.

https://www.ncbi.nlm.nih.gov/nucleotide/NC_000008.11?report=genbank&logS=nuclalign&from=63648346&to=63648363

No More Fake News Nov 11, 2020

COVID vaccine revelation sinks like a stone; disappears By Jon Rappoport

In major media, certain stories gain traction. The trumpets keep blaring for a time before they fade.

Other stories are one-offs. A few of them strike hard. Their implications—if anyone stops to think about them—are powerful. Then...nothing.

"Wait, aren't you going to follow up on that? Don't you see what that MEANS?"

Apparently not, because...dead silence. "In other news, the governor lost his pet parakeet for an hour. His chief of staff found it taking a nap in a desk drawer..."

One-offs function like teasers. You definitely want to know more, but you never get more.

Over the years, I've tried to follow up on a few. The reporter or the editor has a set of standard replies: "We didn't get much feedback." "We covered it." "It's now old news." "There wasn't anything else to find out."

Oh, but there WAS.

A few weeks ago, I ran a one-off. The analysis and commentary were mine, but the story was an opinion piece in the New York Times. The Times called it an opinion piece to soften its blow. I suspected it would disappear, and it did.

Its meaning and implication were too strong. It would be a vast embarrassment for the White House, the Warp Speed COVID vaccine program, the vaccine manufacturers, the coronavirus task force, and vaccine researchers.

And embarrassment would be just the beginning of their problem.

So...here it is again. The vanished one-off, back in business:

COVID vaccine clinical trials doomed to fail; fatal design flaw; NY Times opinion piece exposes all three major clinical trials. [2]

Peter Doshi, associate editor of the medical journal BMJ, and Eric Topol, Scripps Research professor of molecular medicine, have written a devastating NY Times opinion piece about the ongoing COVID vaccine clinical trials.

They expose the fatal flaw in the large Pfizer, AstraZeneca, and Moderna trials.

September 22, the Times: "These Coronavirus Trials Don't Answer the One Question We Need to Know" [1]:

"If you were to approve a coronavirus vaccine, would you approve one that you only knew protected people only from the most mild form of Covid-19, or one that would prevent its serious complications?"

"The answer is obvious. You would want to protect against the worst cases."

"But that's not how the companies testing three of the leading coronavirus vaccine candidates, Moderna, Pfizer and AstraZeneca, whose U.S. trial is on hold, are approaching the problem."

"According to the protocols for their studies, which they released late last week, a vaccine could meet the companies' benchmark for success if it lowered the risk of mild Covid-19, but was never shown to reduce moderate or severe forms of the disease, or the risk of hospitalization, admissions to the intensive care unit or death."

"To say a vaccine works should mean that most people no longer run the risk of getting seriously sick. That's not what these trials will determine."

This means these clinical trials are dead in the water.

The trials are designed to show effectiveness in preventing mild cases of COVID, which nobody should care about, because mild cases naturally run their course and cause no harm. THERE IS NO NEED FOR A VACCINE THAT PREVENTS MILD CASES.

There. That's the NY Times one-off. My piece analyzing it went on much longer, but you get the main thrust:

The leading vaccine clinical trials are useless, irrelevant, misleading, and deceptive.

But now, it gets much worse. Because Pfizer has just announced their vaccine is almost ready. CNBC headline, November 9: “Pfizer, BioNTech say Covid vaccine is more than 90% effective—‘great day for science and humanity’” [3].

And not a peep about the NY Times one-off. That’s gone, as if it never was.

Trump’s coronavirus task force knows the truth. Biden’s new task force, waiting in the wings, knows the truth. But they don’t care. They’re criminals. They’d sell a car with a gas tank ready to explode to a customer with cash.

But you care, because you can read and think.

You can raise hell.

Now, in case anyone is interested in knowing WHY the major clinical trials of the COVID vaccine are designed only to prevent mild cases of COVID, I’ll explain.

A vaccine maker assumes that, during the course of the clinical trial, a few of the 30,000 volunteers are going to “catch COVID-19.”

They assume this because “the virus is everywhere,” as far as they’re concerned. So it’ll drop down from the clouds and infect a few of the volunteers.

The magic number is 150. When that number of volunteers “catch COVID,” everything stops. The clinical trial stops.

At this point, the vaccine maker hopes that most of the volunteers who “got infected” are in the placebo group. They didn’t receive the real vaccine; they received the saltwater placebo shot.

Then the vaccine maker can proudly say, “See? The volunteers who caught COVID-19? Most of them didn’t receive the vaccine. They weren’t protected. The volunteers who received the real vaccine didn’t catch COVID. The vaccine protected them.”

Actually, the number split the vaccine makers are looking for is 50 and 100. If 50 people in the vaccine group catch COVID, and 100 in the placebo group catch COVID, the vaccine is said to be 50% effective. And that’s all the vaccine maker needs to win FDA approval for the vaccine.

But wait. Let’s look closer at this idea of “catching COVID.” What are they really talking about? How do they define that? Claiming a volunteer in the clinical trial caught COVID adds up to what?

Does it add up to a minimal definition of COVID-19—a cough, or chills and fever? Or does it mean a serious case—severe pneumonia?

Now we come to the hidden factor, the secret, the source of the whole con game.

You see, the vaccine maker starts out with 30,000 HEALTHY volunteers. So, if they waited for 150 of them to come down with severe pneumonia, a serious case of COVID, how long do you think that would take? Five years? Ten years?

The vaccine maker can’t possibly wait that long.

These 150 COVID cases the vaccine maker is looking for would be mild. Just a cough. Or chills and fever. That scenario would only take a few months to develop. And face it, chills, cough, and fever aren’t unique to COVID. Anyone can come down with those symptoms.

THEREFORE, THE WHOLE CLINICAL TRIAL IS DESIGNED, UP FRONT, TO FIND 150 CASES OF MILD AND MEANINGLESS AND SELF-CURING “COVID.”

About which, no one cares. No one should care.

But, as we see, Pfizer is trumpeting their clinical trial of the vaccine as a landmark in human history.

And THAT’S the story of the one-off the NY Times didn’t think was worth a second glance.

Because they’re so stupid? No. They’re not that stupid.

They’re criminals.

And the government wants you to take the experimental COVID vaccine, whose “effectiveness” was designed to prevent nothing worth losing a night’s sleep over.

The only worry are the adverse effects of the vaccine, about which I’ve written extensively. These effects include, depending on what’s in the vial, a permanent alteration of your genetic makeup, or an auto-immune cascade, in which the body attacks itself.

<https://science.sciencemag.org/content/early/2020/11/04/science.abe4747>

Versatile and multivalent nanobodies efficiently neutralize SARS-CoV-2

Yufei Xiang, et al

Abstract

Cost-effective, efficacious therapeutics are urgently needed against the COVID-19 pandemic. Here, we used camelid immunization and proteomics to identify a large repertoire of highly potent neutralizing nanobodies (Nbs) to the SARS-CoV-2 spike (S) protein receptor-binding domain (RBD). We discovered Nbs with picomolar to femtomolar affinities that inhibit viral infection at sub-ng/ml concentration and determined a structure of one of the most potent in complex with RBD. Structural proteomics and integrative modeling revealed multiple distinct and non-overlapping epitopes and indicated an array of potential neutralization mechanisms. We constructed multivalent Nb constructs that achieved ultrahigh neutralization potency (IC50s as low as 0.058 ng/ml) and may prevent mutational escape. These thermostable Nbs can be rapidly produced in bulk from microbes and resist lyophilization, and aerosolization.

Using Sound Therapy and Vibrational Medicine to Fight Against the Novel Coronavirus COVID-19

A story titled "Delhi-based institute claims to 'cure' COVID-19 through cosmic sound therapy" was forwarded to me on a Telegram group. This article aroused my interest and attention because I have been looking for a method of treatment using vibrational frequencies to breakdown the novel coronavirus Covid-19 through resonance effect.

This article was written by Somrita Ghosh, and was published on the New Indian Express on July 4, 2020, with a subtitle "Vibrational frequencies of coronavirus and two enzymes were decoded, and since each of them have different frequencies, the three sound waves have been designed to deal with each of them."

It writes about the promising results shown using vibrational frequencies for patients with the novel coronavirus Covid-19 at the Human Energy Research Centre in India. It is said that the therapy is based on the ancient Vedic philosophy that "the entire universe is eternally in a state of subtle vibrations." Thus, if the vibrational frequencies of the novel coronavirus and its related enzymes are able to be decoded, then one can cause resonance effect to break their structures, as "the virus, which has a protein cell layer, starts vibrating and therefore the chemical bond breaks down. The virus cannot sustain beyond a certain energy

level," according to the team.

With volunteer patients who continued their routine medications, the team conducted a trial in May 2020, and promising results were shown.

During the hour-long sound therapy, the patients are made to listen sounds with three different frequencies stage-wise. Each stage has a duration of seven minutes and there's a gap of five minutes between each stage. Four to six sessions in a span of two-three days are required to complete the course.

According to the news article, the therapy was developed by Dr Ramesh Vaish, Ikwan Onwuka, and Dr Harsh Rastogi...

My Research Summary And Results

Concerning COVID-19, I have been collecting bioinformatics data since December 2019. With these, I have done several calculations involving the Energy equations of Quantum Physics. Virus particles or virions are quantum entities. As such, they display wave-particle duality and obey the laws of Quantum Mechanics. The calculations were aimed at establishing Energy, Frequency and Vibrational relationships between SARS-CoV-2 and the potential therapeutic drugs.

I have analyzed the Genome sequence of the original Wuhan-virus, the genome sequence of the SARS-CoV-2 virus obtained from the first COVID-19 patient quarantined in my home country. In addition, I examined the bioinformatics of the two major enzymes responsible for the replication and transcription of the virus in infected humans – the RNA-dependent RNA Polymerase (RdRp) and the Protease. Also included in my analyses are some of the drugs that have received pre-trial approval for treating COVID-19. These are: Remdesivir, Chloroquine, Indinavir, Indinavir Hydrate, Lopinavir and Favipiravir.

The outcome of my analyses shows, for sure, that there are coherent Frequency and Vibrational connections between all the factors I evaluated. This relationship became very obvious when I applied the Octave rule and translated the frequencies into their equivalents within the 12-band chromatic scale of western musicology. The equal-tempered chromatic scale simulates quantization within the audible sound range of the electromagnetic spectrum.

A very striking observation was that the frequencies of the protein enzymes (Polymerase and Protease) which aid replication and transcription of the SARS-CoV-2 virus has a unique harmonic relationship, musically speaking. One was a perfect fifth of the other. Wondering if that was mere coincidence, I decided to check for a similar musical relationship between the Polymerase and Protease of another well-known virus. The easy pick was HIV-1 virus and when I ran my frequency calculations, the same harmonic relationship showed up between HIV-1 polymerase and protease.

The most pleasant surprise came when I translated the frequency values I got for the potential COVID-19 drugs (Remdesivir, Chloroquine, Indinavir, Indinavir Hydrate, Lopinavir, and Favipiravir) into their octave equivalents within the quantized chromatic scale. I found that every one of these drug frequencies matched the frequency of the protease. The only exception was the frequency of Remdesivir, which matched the natural frequency of SARS-CoV-2, the COVID-19 virion...0

Update: Hydroxychloroquine (HCQ) and Azithromycin are also shown to be effective. Hydroxychloroquine (HCQ) is Key B, 978.8Hz. Azithromycin is Key C#, 545.67Hz. See Mechanisms of Action of Hydroxychloroquine (HCQ) and Zinc for the Novel Coronavirus COVID-19 (A Vibrational Medicine Perspective) for details.

1. SARS-CoV-2 RNA. Genome ID > MN908947. Genome size > 29903 bases. Year of completion > 2020. Derived Audio Frequency > **877.6 Hz**. Quantized Audio Bandwidth > Key A
2. POLYMERASE: RdRp, (non-structural protein) nsp12. Molar mass > 110kDa. Derived Audio Frequency > **626.1 Hz**. Quantized Audio Bandwidth > Key D#/Eb
3. PROTEASE: 3-CLpro (3-Chymotrypsin-like protease) C22H43N5O9. Molar mass > 641.712Da. Derived Audio Frequency > **935.0 Hz**. Quantized Audio Bandwidth > Key A#/Bb
4. INDINAVIR, C36H49N5O4. Antiviral drug that works as a protease inhibitor to treat HIV/AIDS. Molar mass > 613.8Da. Derived Audio Frequency > **894.4 Hz**. Quantized Audio Bandwidth > Key A#/Bb
5. FAVIPIRAVIR, C5H4FN3O2. Antiviral drug that selectively inhibited the RdRp of Influenza virus. Molar mass > 157.1Da. Derived Audio Frequency > **915.6 Hz**. Quantized Audio Bandwidth > Key A#/Bb
6. LOPINAVIR, C74H96N10O10S2. Antiviral drug. Works as a protease inhibitor for HIV-1. Molar mass > 1349.7Da. Derived Audio Frequency > **916.2 Hz**. Quantized Audio Bandwidth > Key A#/Bb
7. CHLOROQUINE, C18H26ClN3. Antimalarial drug. Molar mass > 319.872Da. Derived Audio Frequency > **932.2 Hz**. Quantized Audio Bandwidth > Key A#/Bb
8. REMDESIVIR, C27H35N6O8P. The antiviral drug initially developed for the treatment of Ebola virus disease and Marburg virus infection. Also quoted to potentially inhibit RNA-dependent RNA polymerases, (RdRps). Molar mass > 602.585Da. Derived Audio Frequency > **878.0 Hz**. Quantized Audio Bandwidth > Key A

The Pattern

By matching the frequencies/quantized audio bandwidth of the drugs to those of the virus and its enzyme proteins, an interesting pattern emerges. One could see why and how these drugs, discounting their side-effects, might be effective against COVID-19.

With the exception of Remdesivir, the frequency of all the drugs I analyzed fall within the quantized bandwidth of Key A#/Bb. This matches the bandwidth of the virus' Protease. Therefore, the mechanism of action of these drugs will have more to do with protease inhibition, irrespective of the target they were originally developed for.

None of the drugs I analyzed matched the Polymerase in frequency or quantized bandwidth...

The Energy-Frequency-Vibration (EFV) Model

Viewed from the paradigm of Energy, Frequency and Vibration, it is evident that the action of Remdesivir against SARS-CoV-2 results from the affinity between its vibrational frequency and that of the virus particle. Likewise, the effects of the other drugs evaluated here can be interpreted satisfactorily in terms of Energy, Frequency, and Vibration.

As an example, the mechanism of action of Remdesivir can be explained by the principle of RESONANCE. The drug molecules sets up a vibration at its natural frequency. This vibration induces resonance in the virus molecule since both molecules have the same natural frequency. As a result of induced resonance vibration, the virus molecule self-amplifies. If the induced resonance and amplification is sustained, the energy generated within the virus molecule pushes towards a fatal threshold. Beyond this threshold, the chemical bonds of the virus molecule are broken leading to the inactivation of the virus molecule.

The same phenomenon of induced resonance explains the inhibition effect of the remaining drugs under study. Resonance, therefore, is the mechanism of action of all these therapeutic compounds. And resonance is a function of energy, frequency, and vibration.

Scientific evidence supports the application of resonance in breaking of chemical bonds and inactivation of Chromosome DNA and RNA molecules : <https://ieeexplore.ieee.org/document/7088816>

The EFV Alternative To Drugs And Vaccines?

Each of the drugs (Chloroquine, Indinavir, Lopinavir, Favipiravir) analyzed here are made from unique combinations of elements. Although they all are potential treatment agents for COVID-19, no two of them are the same in composition. This clearly shows that the drugs' effectiveness is dependent on a factor other than elemental composition. This secondary factor, which I have shown to be the natural/resonant frequency of the drugs, is the common working principle. In other words, the drugs have effects on the virus mainly because they vibrate at a certain frequency...

The End of COVID-19

I have designed three sound samples for auditory stimulation, based on the three target resonant frequencies. Each of these samples is a composite of ten pure sinusoidal tones. All ten tones are octave related and fall within the audio range of the electromagnetic spectrum.

The actual values, in Hertz, for the resonant frequencies, are higher than the audible range. But, I comfortably employed their audible octaves because of the law of Octaves. In dealing with sound, and any electromagnetic wave, frequency-wise, an octave can be used to the same effect as the frequency itself.

To enhance brainwave entrainment, each of the composite auditory stimulus sounds is pulsed into isochronic beats. The frequency of the isochronic beat is a much lower octave of the target resonant frequency. I chose the delta brainwave region.

These isochronic sounds are tuned to the resonant frequencies associated with SARS-CoV-2 Genome ID: MN908947, the coronavirus that causes COVID-19. Listening to these sounds will ENTRAIN the brain and cause it to produce a SENSORY EVOKED RESPONSE, which is an electrical potential mimicking the frequency of this sound stimulus. This electrical potential is propagated through the central nervous system, CNS, and the peripheral nervous system, PNS, to every cell in the human organism. Should there be SARS-CoV-2 in the body system, as is the case with COVID-19 victims, the virus will VIBRATE in RESONANCE with the incident frequency. Such resonance vibration causes the virus particle to uncontrollably absorb energy to a point where it's chemical bonds are broken and the virus inactivated.

Instructions:

Make sure you are well hydrated before listening to any of the sounds. Listen to each 7 minutes track, 3 times with 20 minutes intervals. That means you'd spend approximately 61 minutes on each track. Please adhere to this instruction, especially for first-time use. It is preferable to listen to headphones but not compulsory. When you are done with the first track, give yourself a few hours before listening to the second track. You don't need to listen to all the tracks in one stretch. If you are not infected by the SARS-CoV-2 virus, the sounds will target other pathogens with resonant frequencies close to that of SAR-CoV-2. There are no significant side-effects except for slight fatigue, which usually occurs when a large number of parasites, bacteria and viruses are killed in the body.

COVID-19 RNA Inactivator & COVID-19 EFV THERAPY

Using Sound Therapy and Vibrational Medicine to Fight Against the Novel Coronavirus COVID-19

The sound file contains the three frequencies previously released plus two other frequencies which I created following the latest information about SARS-CoV-2 genomics and potential proteomic therapeutic targets.

All five frequencies play once. But instead of having 5 minutes interval of silence between the frequencies, I inserted a musical composition which I recently produced using a musical equivalent of the frequencies I obtained from computational proteomic analysis of the genes associated with the SARS-CoV-2 virion. The harmony of this musical composition, according to my hypothesis, will further help to reduce the chaotic and inflammatory activity of the virus by entraining the vibrational expression of the associated genes/proteins. Also see Using Sound Resonance and Vibrational Frequencies to Target the Novel Coronavirus COVID-19 for details.

Instructions:

1. The patient will listen to the 57:22 minutes sound file at least once a day for at least 5 days.
2. Since the therapy is non-invasive and well-tolerated by most users, it's okay for patients to more than three times a day if they choose to do so.
3. The musical composition can be listened to as many times as possible, just like any other musical piece

<https://www.newindianexpress.com/nation/2020/jul/04/delhi-based-institute-claims-to-cure-covid-19-through-cosmic-sound-therapy-2165206.html>
Delhi-based institute claims to 'cure' COVID-19 through cosmic sound therapy

Vibrational frequencies of coronavirus and two enzymes were decoded, and since each of them have different frequencies, the three sound waves have been designed to deal with each of them.

The Human Energy Research Centre — an organisation based on Public-Private Engagement model — in the national capital has claimed to have found a way to cure the COVID-19 by using an extraordinary sound therapy, electro-frequency vibration.

The therapy, developed by Dr Ramesh Vaish, Ikwam Onwuka and Dr Harsh Rastogi, is claimed to be based on the principle derived from the ancient Vedic philosophy that the entire universe is eternally in a state of subtle vibrations called cosmic sound. Combining this knowledge with the principles of quantum theory applicable to a wave, the experts developed three sound waves.

Vibrational frequencies of coronavirus and two enzymes were decoded, and since each of them have different frequencies, the three sound waves have been designed to deal with each of them.

“This sound therapy is completely harmless, drug-free and does not have any side-effects. There is a lot of physics involved in this technique; it is not a medical process. The sound waves will attack the virus and create resonance. The virus, which has a protein cell layer, starts vibrating and therefore the chemical bond breaks down. The virus cannot sustain beyond a certain energy level,” said Dr Vaish.

A trial was conducted in May on some symptomatic patients in home isolation, who volunteered for it. Along with the therapy, the patients continued their medicinal routine. According to Dr Vaish, the patients showed improvement within days.

“After promising results, we pitched the idea to some hospitals to implement it on interested patients. Some private hospitals have agreed and one is likely to start it in two days,” he said.

The researches claimed that since this therapy doesn’t involve any medical treatment and was to be provided to patients on voluntary basis, any approval from a regulatory authority wasn’t required.

However, they claimed to have informed the Delhi government and received a go-ahead from health minister Satyendar Jain.

During the hour-long therapy, the patients are made to listen three different sounds — including Gayatri Mantra and Maha Mrityunjay Mantra — stage-wise. Each stage has a duration of seven minutes and there’s a gap of five minutes between each stage. Four to six sessions in a span of two-three days are required to complete the course.

They have approached the Health and AYUSH Ministries to implement the therapy on a regular basis and larger scale.

“If approved, it will be the first of its kind in the world. We’ve come to know that a US institute is working on the same concept,” he said.

The Poisoned Needle: Suppressed Facts About Vaccination Anti Vaccine Eleanor McBean

During the Dark Ages, before the introduction of improved nutrition and sanitation, the world was intermittently visited with epidemics of smallpox. The cause was stubbornly ignored and the seeds for more disease were sown when vaccination was brought into popular use. This infusion of poison injected into the blood stream of the masses only served to intensify the disease in some cases, suppress the symptoms in others and create new and more serious diseases in still others. So, with the passing of years we have seen this misbegotten child of ignorance grow into a Frankenstein monster of immense proportions that moves relentlessly forward, grinding under foot the multitudes that throng its path.

Through the lethal power of this poisoned needle, the simple zymotic (contagious) diseases of the past have been devolved into the horrors of the present — our terrifying and expanding crop of "killer diseases". Many of these strange "mystery diseases" that baffle the entire medical world, are the sordid products of vaccine poisons that disturb the chemical balance of the body and interfere with normal functioning.

All these medically-made atrocities are far worse than smallpox or any of the other eruptive diseases that nature provides as a means of expelling the accumulated poison waste from the abused body. This interference with the balanced economy of nature has multiplied the problems beyond the power of science to control.

Our worst epidemics now are epidemics of vaccination in which more people are killed every year by "vaccinal diseases" than by the diseases that the vaccinations were supposed to combat.

Complete freedom from disease can scarcely be found except in remote islands or isolated communities that have not been invaded by medical mischief and commercialized products. Is

our proud civilization to be degraded, corrupted, and destroyed by its own inventions designed for selfish profit and exploitation of the race?

Vaccination, instead of being the promised blessing to the world, has proved to be a curse of such sweeping devastation that it has caused more death and disease than war, pestilence, and plague combined. There is no scourge (with the possible exception of atomic radiation) that is more destructive to our nation’s health than this monument of human deception — this slayer of the innocent —this crippler of body and brain

<https://scitechdaily.com/its-evolving-coronavirus-genetic-mutation-may-have-made-covid-19-more-contagious/>

It's Evolving: Coronavirus Genetic Mutation May Have Made COVID-19 More Contagious

A study involving more than 5,000 COVID-19 patients in Houston finds that the virus that causes the disease is accumulating genetic mutations, one of which may have made it more contagious. According to the paper published in the peer-reviewed journal mBIO, that mutation, called D614G, is located in the spike protein that pries open our cells for viral entry. It’s the largest peer-reviewed study of SARS-CoV-2 genome sequences in one metropolitan region of the U.S. to date.

The paper shows “the virus is mutating due to a combination of neutral drift — which just means random genetic changes that don’t help or hurt the virus — and pressure from our immune systems,” said Ilya Finkelstein, associate professor of molecular biosciences at The University of Texas at Austin and co-author of the study. The study was carried out by scientists at Houston Methodist Hospital, UT Austin and elsewhere.

During the initial wave of the pandemic, 71% of the novel coronaviruses identified in patients in Houston had this mutation. When the second wave of the outbreak hit Houston during the summer, this variant had leaped to 99.9% prevalence. This mirrors a trend observed around the world. A study published in July based on more than 28,000 genome sequences found that variants carrying the D614G mutation became the globally dominant form of SARS-CoV-2 in about a month. SARS-CoV-2 is the coronavirus that causes COVID-19...

COVID-19 (excess) mortalities: viral cause impossible—drugs with key role in about 200,000 extra deaths in Europe and the US alone

...Excess mortality rate was limited to a very short period of time, which make nonsense of the virus hypothesis

Sure, some countries recorded noticeably more deaths in the first half of 2020 than in previous years. This holds especially for Italy, Spain, France, England, Belgium, the Netherlands and the USA. However, the hypothesis that a new, potentially deadly corona virus would have raged in these countries is already contradicted by the fact that these states in particular pursued a rigid lockdown policy. Therefore, following the logic of the virus, they should have had fewer deaths.

In addition, Belgium, for example, had eight times more deaths (per 100,000 inhabitants) than its neighbour Germany, Spain 22 times more than Poland, while Portugal, Spain's direct neighbour, did not experience any excess mortality. But a virus pandemic, which afflicts countries so differently, cannot actually exist, especially in today's times....

THE COVID-19 GENOCIDE OF 2020 – CLAIRE EDWARDS

Suck my sinusii :

<https://www.rt.com/news/504799-covid19-test-false-positives/>

German COVID-19 test lab produces slew of false positives

The Labor Augsburg MVZ laboratory in Bavaria has blamed a high number of tests and time pressure after recording 58 out of 60 false positives in a week.

Gabriele Schoen, Managing Director of the Labor Augsburg MVZ laboratory, told Munich's daily newspaper Muenchener Merkur that it's not possible for them to constantly "double check" tests when they provided a positive result", as they were under pressure and working with a "lack of equipment".

The laboratory was found to have wrongly diagnosed 58 out of 60 coronavirus tests it identified as positive during a one-week period, after testing samples again following an unusual spike in confirmed cases. The false positives raise questions around the reliability of the results that are being provided in the region, as Germany weighs introducing a new lockdown to combat the rising number of coronavirus cases in the country....

Maduro says Venezuelan scientists developed medicine that 'cancels 100% of Covid-19' with no side-effects

Venezuelan President Nicolas Maduro says his country has designed "a highly effective antiviral" that decimates coronavirus without any side effects. The drug will be presented to the WHO for certification, he added.

"I want to say that Venezuela has developed a medicine that annihilates 100 percent of the coronavirus," Maduro said on Sunday, describing it as a "highly effective antiviral."

It was designed by the Venezuelan Institute for Scientific Research (IVIC), which has been working on a cure for the virus for the past six months, he noted.

The medicine is based on a molecule called TR-10, which was isolated and, when pitted against the virus, proved its absolute effectiveness, he claimed.

Maduro said the study has already been reviewed by experts and scientists, and will be presented to the World Health Organization (WHO) so that it can certify its findings.

As he touted the potential breakthrough in Covid-19 therapy, Maduro said Venezuela looks forward "to offering this treatment to the world," congratulating the IVIC on "this great contribution to humanity." Mass production of the drug will be facilitated through "international alliances," he said, without elaborating.

The newly-developed drug is completely safe, the institute claimed, insisting it "does not affect healthy molecules in the body" and does not result in any side effects.

The studies were conducted on virus cells isolated from Venezuelan coronavirus patients, Gabriela Jiménez, the minister of science and technology, said.

The molecule is an ursolic acid derivative, which "has shown 100 percent inhibition of virus replication in vitro [outside of a living organism]," she said, as cited by EFE News Agency...

COVID Cover Up w/ Dr. Judy Mikovits: The BioSecurity State Illusion That Led To Your "New Normal"

Joining me today is someone you are all very familiar with, and that's in large part due to the unjust suppression and censorship of her work and her efforts to expose the truth, and this speaks to the overwhelming desire for the unvarnished truth that is bubbling up in the masses as we speak. They now seek out exactly what they are told not to look at, at a level never before seen. We all at some level feel what a dangerous path we are on; we all feel to one degree or another the dishonesty, the lies, the tyrannical pressure building in our lives at very this moment, and this is why we are not just thirsty for, but bone dry parched and burning for the truth. So I am honored to be yet again speaking with, researcher, scientist & medical professional, Dr. Judy Mikovits, who has made it her life mission to fight for that truth.

EID Journal, Volume 26, Number 5—May 2020

Nonpharmaceutical Measures for Pandemic Influenza in Nonhealthcare Settings—Personal Protective and Environmental Measures Jingyi Xiao, et al.

Abstract

There were 3 influenza pandemics in the 20th century, and there has been 1 so far in the 21st century. Local, national, and international health authorities regularly update their plans for mitigating the next influenza pandemic in light of the latest available evidence on the effectiveness of various control measures in reducing transmission. Here, we review the evidence base on the effectiveness of nonpharmaceutical personal protective measures and environmental hygiene measures in nonhealthcare settings and discuss their potential inclusion in pandemic plans. Although mechanistic studies support the potential effect of hand hygiene or face masks, evidence from 14 randomized controlled trials of these measures did not support a substantial effect on transmission of laboratory-confirmed influenza. We similarly found limited evidence on the effectiveness of improved hygiene and environmental cleaning. We identified several major knowledge gaps requiring further research, most fundamentally an improved characterization of the modes of person-to-person transmission...

Discussion

In this review, we did not find evidence to support a protective effect of personal protective measures or environmental measures in reducing influenza transmission. Although these measures have mechanistic support based on our knowledge of how influenza is transmitted from person to person, randomized trials of hand hygiene and face masks have not demonstrated protection against laboratory-confirmed influenza, with 1 exception (18). We identified only 2 RCTs on environmental cleaning and no RCTs on cough etiquette.

Hand hygiene is a widely used intervention and has been shown to effectively reduce the transmission of gastrointestinal infections and respiratory infections (26). However, in our systematic review, updating the findings of Wong et al. (8), we did not find evidence of a major effect of hand hygiene on laboratory-confirmed influenza virus transmission (Figure 1). Nevertheless, hand hygiene might be included in influenza pandemic plans as part of general hygiene and infection prevention.

We did not find evidence that surgical-type face masks are effective in reducing laboratory-confirmed influenza transmission, either when worn by infected persons (source control) or by persons in the general community to reduce their susceptibility (Figure 2). However, as with hand hygiene, face masks might be able to reduce the transmission of other infections and therefore have value in an influenza pandemic when healthcare resources are stretched.

It is essential to note that the mechanisms of person-to-person transmission in the community have not been fully determined. Controversy remains over the role of transmission through fine-particle aerosols (3,46). Transmission by indirect contact requires transfer of viable virus from respiratory mucosa onto hands and other surfaces, survival on those surfaces, and successful inoculation into the respiratory mucosa of another person. All of these components of the transmission route have not been studied extensively. The impact of environmental factors, such as temperature and humidity, on influenza transmission is also uncertain (47). These uncertainties over basic transmission modes and mechanisms hinder the optimization of control measures.

In this review, we focused on 3 personal protective measures and 1 environmental measure. Other potential environmental measures include humidification in dry environments (48), increasing ventilation (49), and use of upper-room UV light (50), but there is limited evidence to support these measures. Further investigations on the effectiveness of respiratory etiquette and surface cleaning through conducting RCTs would be helpful to provide evidence with higher quality; evaluation of the effectiveness of these measures targeting specific population groups, such as immunocompromised persons, would also be beneficial (Table 2). Future cost-effectiveness evaluations could provide more support for the potential use of these measures. Further research on transmission modes and alternative interventions to reduce influenza transmission would be valuable in improving pandemic preparedness. Finally, although our review focused on nonpharmaceutical measures to be taken during influenza pandemics, the findings could also apply to severe seasonal influenza epidemics. Evidence from RCTs of hand hygiene or face masks did not support a substantial effect on transmission of laboratory-confirmed influenza, and limited evidence was available on other environmental measures.

<https://www.rt.com/news/504339-second-key-coronavirus-infectious/>
Researchers have found the secret weapon used by SARS-CoV-2 which makes it so much more infectious than its predecessor SARS-CoV was 17 years ago, potentially unlocking new ways to fight the spread of the pandemic.

Much like the original SARS, SARS-CoV-2 uses the ACE2 receptor to access our cells and spread rapidly throughout our respiratory systems and beyond.

“The starting point of our study was the question why SARS-CoV, a coronavirus that led to a much smaller outbreak in 2003, and SARS-CoV-2, spread in such a different way even if they use the same main receptor ACE2,” says University of Helsinki virologist Ravi Ojha.

Researchers from the Technical University of Munich in Germany and the University of Helsinki in Finland examined the virus’ spiky coating under an electron microscope and compared the genomes of the two viruses.

They found that the novel coronavirus had ‘learned a new trick,’ so to speak, picking up a kind of ‘hook’ used by other nasty pathogens like Ebola, HIV and avian flu, to latch onto human tissues more aggressively.

They discovered that the coronavirus uses this ‘grappling hook’ on the receptor neuropilin-1, which lines the nerve tissues inside the human nasal cavity.

To confirm their suspicions, the researchers then deployed monoclonal antibodies (an antibody made by cloning white blood cells), which they engineered to block access to neuropilin-1.

They then introduced ‘pseudoviruses,’ designed to mimic SARS-CoV-2 behaviors but without any of the intense self-replication properties, which found it far more difficult to infect cells when the neuropilin-1 was blocked.

“If you think of ACE2 as a door lock to enter the cell, then neuropilin-1 could be a factor that directs the virus to the door,” says Balistreri.

Given the density of neuropilin-1 along nerve tissues in the human nasal cavity, it essentially acts as a welcoming party for SARS-CoV-2 which then only needs to flash its ACE2 before it can engage in a free-for-all inside the human body, with destructive consequences witnessed the world over.

Experiments on mice confirmed the receptor’s role in the virus gaining access to their nervous system, though a direct link to the traumatic damage witnessed on human brains after severe Covid-19 has yet to be properly studied.

“We could determine that neuropilin-1, at least under the conditions of our experiments, promotes transport into the brain, but we cannot make any conclusion whether this is also true for SARS-CoV-2,” says neurologist Mika Simons from the Technical University of Munich.

The researchers have begun exploring ways to interrupt the connection between the virus and neuropilin-1, with a view to making it less infectious, with promising early results and laboratory tests already underway.

<https://www.rt.com/news/503518-blood-type-o-covid-19-type/>
O is good to go? Blood type plays key role in vulnerability to Covid-19, new research claims

...Two independent studies published on Wednesday found that blood type O is something of a security blanket when it comes to coronavirus. Those with this blood type were found to be less likely to catch the disease and also had a reduced risk of suffering severe complications if they do get sick.

However, people with types A and AB were not so lucky, as scientists found that they were more likely to suffer more severely than people from the other two blood groups (O and B). Blood groups are defined by their numbers of antigen and antibody proteins. Type O is the most common across the world...

The Stealth Reason Most People Die of Covid19

While SARS-CoV-2 is a rampant virus that can cause severe problems in vulnerable individuals, the real pandemic - the underlying cause that makes people susceptible to complications from the infection in the first place - is poor metabolic health

Aside from old age, obesity has been identified as one of the primary risk factors for being hospitalized with COVID-19 - doubling the risk of hospitalization in patients under the age of 60 in one study

One hypothesis for why obesity is worsening COVID-19 has to do with the fact that obesity causes chronic inflammation. Having more pro-inflammatory cytokines in circulation increases your risk of experiencing a cytokine storm

Insulin resistance is another top risk factor for COVID-19 that worsens outcomes and increases your risk of death

There are five primary parameters of metabolic health: waist circumference, insulin sensitivity, blood pressure, and triglyceride and HDL levels. Having three or more abnormal parameters is indicative of metabolic syndrome..

<https://healthandmoneynews.wordpress.com/2020/10/09/brain-damage-from-masks-cannot-be-reversed/>

Covid-19 masks are a crime against Humanity and child abuse

The following is a transcript of the highlights (by Henna Maria) from Dr. Margarite Griesz-Brisson's recent extremely pressing video message, that was translated on-air from German into English by Claudia Stauber. Video at the end of the transcript.

Dr. Margarite Griesz-Brisson MD, PhD is a Consultant Neurologist and Neurophysiologist with a PhD in Pharmacology, with special interest in neurotoxicology, environmental medicine, neuroregeneration and neuroplasticity. This is what she has to say about masks and their effects on our brains:

"The rebreathing of our exhaled air will without a doubt create oxygen deficiency and a flooding of carbon dioxide. We know that the human brain is very sensitive to oxygen deprivation. There are nerve cells for example in the hippocampus, that can't be longer than 3 minutes without oxygen – they cannot survive. The acute warning symptoms are headaches, drowsiness, dizziness, issues in concentration, slowing down of the reaction time – reactions of the cognitive system.

However, when you have chronic oxygen deprivation, all of those symptoms disappear, because you get used to it. But your efficiency will remain impaired and the undersupply of oxygen in your brain continues to progress.

We know that neurodegenerative diseases take years to decades to develop. If today you forget your phone number, the breakdown in your brain would have already started 20 or 30 years ago.

While you're thinking, that you have gotten used to wearing your mask and rebreathing your own exhaled air, the degenerative processes in your brain are getting amplified as your oxygen deprivation continues.

The second problem is that the nerve cells in your brain are unable to divide themselves normally. So in case our governments will generously allow as to get rid of the masks and go back to breathing oxygen freely again in a few months, the lost nerve cells will no longer be regenerated. What is gone is gone.

[...]I do not wear a mask, I need my brain to think. I want to have a clear head when I deal with my patients, and not be in a carbon dioxide induced anaesthesia.

[...]There is no unfounded medical exemption from face masks because oxygen deprivation is dangerous for every single brain. It must be the free decision of every human being whether they want to wear a mask that is absolutely ineffective to protect themselves from a virus.

For children and adolescents, masks are an absolute no-no. Children and adolescents have an extremely active and adaptive immune system and they need a constant interaction with the microbiome of the Earth. Their brain is also incredibly active, as it has so much to learn. The child's brain, or the youth's brain is thirsting for oxygen. The more metabolically active the organ is, the more oxygen it requires. In children and adolescents every organ is metabolically active.

To deprive a child's or an adolescent's brain from oxygen, or to restrict it in any way, is not only dangerous to their health, it is absolutely criminal. Oxygen deficiency inhibits the development of the brain, and the damage that has taken place as a result CANNOT be reversed

OVER 17,000 HEALTH EXPERTS SIGN HISTORIC COVID DECLARATION – The HighWire with Del Bigtree

Three of the world's leading infectious disease specialists from Stanford, Harvard & Oxford created "The Great Barrington Declaration," calling for an immediate withdrawal of strict lockdown measures for healthy populations, and "Focused Protection" for our most vulnerable. As we post this segment, almost 18,000 medical practitioners and public health experts have signed the declaration in support.

Treatment with hydroxychloroquine, azithromycin, and combination in patients hospitalized with COVID-19

Samia Arshada, et al.

Highlights

As of May 27, 2020 there are over 1,678,843 confirmed cases of COVID-19 claiming more than 100,000 lives in the United States. Currently there is no known effective therapy or vaccine.

According to a protocol-based treatment algorithm, among hospitalized patients, use of hydroxychloroquine alone and in combination with azithromycin was associated with a significant reduction in-hospital mortality compared to not receiving hydroxychloroquine.

Findings of this observational study provide crucial data on experience with hydroxychloroquine therapy, providing necessary interim guidance for COVID-19 therapeutic practice.

The Smoking Gun: Where is the coronavirus? The CDC says it isn't available.

By Jon Rappoport

The CDC document is titled, "CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel." It is dated July 13, 2020.

Buried deep in the document, on page 39, in a section titled, "Performance Characteristics," we have this: "Since no quantified virus isolates of the 2019-nCoV are currently available, assays [diagnostic tests] designed for detection of the 2019-nCoV RNA were tested with characterized stocks of in vitro transcribed full length RNA..."

The key phrase there is: "Since no quantified virus isolates of the 2019-nCoV are currently available..."

Every object that exists can be quantified, which is to say, measured. The use of the term "quantified" in that phrase means: the CDC has no measurable amount of the virus, because it is unavailable. THE CDC HAS NO VIRUS.

A further tip-off is the use of the word "isolates." This means NO ISOLATED VIRUS IS AVAILABLE.

Another way to put it: NO ONE HAS AN ISOLATED SPECIMEN OF THE COVID-19 VIRUS.

NO ONE HAS ISOLATED THE COVID-19 VIRUS.

THEREFORE, NO ONE HAS PROVED THAT IT EXISTS.

As if this were not enough of a revelation to shock the world, the CDC goes on to say they are presenting a diagnostic PCR test to detect the virus-that-hasn't-been-isolated...and the test is looking for RNA which is PRESUMED to come from the virus that hasn't been proved to exist.

And using this test, the CDC and every other public health agency in the world are counting COVID cases and deaths...and governments have instituted lockdowns and economic devastation using those case and death numbers as justification.

If people believe "you have the virus but it is not available," and you have the virus except it is buried within other material and hasn't been extracted and purified and isolated, these people believe the moon is made of green cheese.

This is like saying, "We have the 20 trillion dollars, they are contained somewhere in our myriad accounts, we just don't know where." If you don't know where, you don't know you have the money.

"The car keys are somewhere in the house. We just don't know where." Really? If you don't know where, you don't know the keys are in the house.

"The missing cruise missile is somewhere in the arsenal, we just don't know where." No. If you don't know where, you don't know the missile is in the arsenal.

"The COVID-19 virus is somewhere in the material we have—we just haven't removed it from that material. But we know what it is and we've identified it and we know its structure." NO YOU DON'T. YOU ASSUME THAT.

Science is not assumptions.

"But...but...there is a study which says a few researchers in a lab isolated the virus..."

They say they did. But in July, the CDC is saying no virus is available. I guess that means trucks were not available to bring the virus from that lab to the CDC. The trucks were out of gas. It was raining. The bridge was washed out. The trucks were in the shop. Joe, the driver, couldn't find his mask, and he didn't want to leave home without it...

Science is not assumptions.

The pandemic is a fraud, down to the root of the poisonous tree.

<http://www.yourdestinationnow.com/2020/10/mind-altering-the-chemical-in-cannabis.html>

Mind-altering THC chemical in cannabis could help prevent and treat deadly COVID-19 complications by blocking harmful immune response, research shows

Cannabis could be used to help treat potentially deadly complications with COVID-19, a growing body of research suggests.

Researchers at the University of South Carolina performed a trio of studies on mice which found that THC - the chemical that gives cannabis its mind-altering effect - could help prevent a harmful immune response that causes Acute Respiratory Distress Syndrome (ARDS).

ARDS is one of the most common complications for patients with severe cases of coronavirus. It can be fatal or lead to permanent pulmonary scarring.

The goal of the USC study was to see if THC could block the immune response that leads to ARDS developing by introducing a toxin into the mice that triggers the response.

In dozens of experiments across all three studies, all of the mice that were given THC after the toxin survived, while those that didn't get the chemical died.

The researchers cautioned that their work is still far from conclusive and stressed that they are not encouraging people to use marijuana to self-medicate for COVID-19. ...

<https://www.frontiersin.org/articles/10.3389/fphar.2020.00893/full>

<https://doi.org/10.3389/fphar.2020.00893>

Administration of A9-Tetrahydrocannabinol (THC) Post-Staphylococcal Enterotoxin B Exposure Protects Mice From Acute Respiratory Distress Syndrome and Toxicity

...treatment with THC led to 100% survival of mice. THC treatment significantly suppressed the inflammatory cytokines, IFN- γ and TNF- α . Additionally, THC elevated the induction of regulatory T cells (Tregs) and their associated cytokines, IL-10 and TGF- β . Moreover, THC caused induction of Myeloid-Derived Suppressor Cells (MDSCs). THC acted through CB2 receptor as pharmacological inhibitor of CB2 receptors blocked the anti-inflammatory effects. THC-treated mice showed significant alterations in the expression of miRNA (miRs) in the lung-infiltrated mononuclear cells (MNCs). Specifically, THC caused downregulation of let7a-5p which targeted SOCS1 and downregulation of miR-34-5p which caused increased expression of FoxP3, NOS1, and CSF1R. Together, these data suggested that THC-mediated alterations in miR expression in the lungs may play a critical role in the induction of immunosuppressive Tregs and MDSCs as well as suppression of

cytokine storm leading to attenuation of SEB-mediated lung injury.

<https://www.globalresearch.ca/masks-causing-decaying-teeth-receding-gum-lines-sour-breath-reports-ny-dentists/5725623>

Face Masks Causing “Decaying Teeth, Receding Gum Lines and Seriously Sour Breath” Reports NY Dentists

“Now that dentists have reopened their doors, they’re having patients show up with a nasty set of symptoms, which the doctors have dubbed ‘mask mouth,’” reports FOX News. “The new oral hygiene issue — caused by, you guessed it, wearing a mask all the time to prevent the spread of the coronavirus — is leading to all kinds of dental disasters like decaying teeth, receding gum lines and seriously sour breath.”

“We’re seeing inflammation in people’s gums that have been healthy forever, and cavities in people who have never had them before,” Dr. Rob Ramondi, a dentist and co-founder of One Manhattan Dental, told FOX News.

Beyond embarrassing and painful, dental infections are life-threatening confirms a study by the American Stroke Association:

“Patients with gum disease were twice as likely to have a stroke caused by hardening of large arteries within the brain than those without gum disease.”

<https://www.globalresearch.ca/cover-up-fauci-approved-chloroquine-hydroxychloroquine-15-years-ago-cure-coronaviruses/5713659>

Cover Up: Fauci Approved Chloroquine, Hydroxychloroquine 15 Years Ago to Cure Coronaviruses; “Nobody Needed to Die”

Dr. Anthony Fauci, whose “expert” advice to President Trump has resulted in the complete shutdown of the greatest economic engine in world history, has known since 2005 that chloroquine is an effective inhibitor of coronaviruses.

How did he know this? Because of research done by the National Institutes of Health, of which he is the director. In connection with the SARS outbreak – caused by a coronavirus dubbed SARS-CoV – the NIH researched chloroquine and concluded that it was effective at stopping the SARS coronavirus in its tracks. The COVID-19 bug is likewise a coronavirus, labeled SARS-CoV-2. While not exactly the same virus as SARS-CoV-1, it is genetically related to it, and shares 79% of its genome, as the name SARS-CoV-2 implies. They both use the same host cell receptor, which is what viruses use to gain entry to the cell and infect the victim...

NAC, alpha lipoic acid, and glutathione :

<https://www.news10.com/news/local-news/local-doctor-says-covid-patients-noticed-results-with-glutathione/>

Local doctor says COVID-19 patients noticed results with glutathione

Dr. Richard Horowitz is the Medical Director at the Hudson Valley Healing Arts Center. Over the years, he has seen more than 13,000 Chronic Lyme disease patients.

Recently, he noticed similarities between Lyme and COVID-19. Learning to lower the inflammatory response with Lyme in the past, he’s tried some of the same techniques to help people battling the coronavirus.

“The scientific literature has shown that there are three nutritional supplements, something that is very easy, not expensive, and easy to find. They’re called NAC, alpha lipoic acid, and glutathione,” said Dr. Horowitz.

With the approach of using glutathione, Dr. Horowitz says patients noticed results within one hour. Their shortness of breath improved.

“If they would see the success that I had in my patients and understand the science. I think they would be interested,” stated Dr. Horowitz.

He says his next step is to work with state leaders and get a randomized controlled study done.

Covid Concentration Camps :

<https://theohiostar.com/2020/09/04/ohio-fema-camps-still-more-questions-than-answers/>

Ohio FEMA Camps – Still More Questions Than Answers

The Ohio Star reported on September 3 that Ohio Department of Health (ODH) Interim Director Lance Himes released an order on August 31 – an order creating Federal Emergency Management Agency (FEMA) shelters and legalizing their use for people who “are unable to safely self-quarantine in their place of residence and to isolate those diagnosed with or showing symptoms of COVID-19.”

The non-congregate FEMA sheltering will be utilized throughout the state for people, according to the examples given by Himes, who “test positive for COVID-19 who do not require hospitalization but need isolation (including those exiting from hospitals); those who have been exposed to COVID-19 who do not require hospitalization; and asymptomatic high-risk individuals needing social distancing as a precautionary measure.”

Houston Health Department leading antibody testing survey to better understand the spread of COVID-19 in Houston

September 2, 2020

The Houston Health Department is collaborating with the Centers for Disease Control and Prevention (CDC), Rice University, and Baylor College of Medicine to conduct an antibody testing survey to understand how many people in the city were previously infected with the virus that causes COVID-19.

The survey will identify people infected in the past with COVID-19 by the presence of antibodies, proteins the body’s immune system makes to fight infections. Antibody testing does not replace oral or nasal swab viral testing that looks for current infection.

Teams consisting of Houston Health Department staff and Houston Fire Department paramedics will visit randomly selected homes across Houston, asking household members to answer survey questions and provide a blood sample. Phase one is set to take place Sept. 8-24, with phase two starting in the winter of 2021.

<https://www.globalresearch.ca/my-hospital-experience-nurses-told-me-about-covid-19/5723002>

**My Hospital Experience and What the Nurses Told Me About COVID-19
by Target Liberty**

JB reports in:

I just got home from back surgery where I spent 4 days in the hospital to start the recovery process. I was able to have some really good conversations with the nurses that were caring for me.

First off, the hospital was empty (in Alaska).

I asked one nurse if I could ask a few questions that I just needed answers for.

First, “Do masks do anything to stop a virus?” She looked at me shocked, then said “no, they don’t do anything, the N95 does stop a percentage of a virus when you wear one, but overall they don’t do a thing”.

So I asked why are there so many mandates then? We are being bombarded with wearing a mask to save grandma?

At this time another nurse said,

“Well, when this all started we were pressured to report everyone who was admitted into the hospital as a covid case. We were also told that we were to report every death as a covid death, and to do our best to get people on a ventilator, even though we knew that it seemed to actually make things worse for the patient.”

Bottom line, most of them refused, and several were fired.

I asked what they suggested was the best way to fight the virus, and was told, the same things you would do to fight the flu.

It was pretty intense, and they were very upset when they started talking about it. Upset as in mad.

I didn’t wear a mask while I was there and was only asked one time if I would put one on when a certain nurse was coming to that section of the hospital to generally check on patients. So, I did, as it seemed important to the people I was working with. No sense in getting them in trouble. When that person left, I took it back off.

There was more conversation, including their thoughts on schools requiring masks, kids committing suicide “in one month more than we’ve had in a year”.

They had strong opinions on lockdowns when “the very thing we need to fight a virus is fresh air and the vitamin D we get from sunlight.”

One fun thing, when I was being wheeled through the hospital, the nurse stopped a few times to introduce me to other nurses working there, and she would simply say, “Hey so and so, I want you to meet Joshua, he thinks like we do”.

So there is a resistance in some of these hospitals!

<https://www.revolver.news/2020/08/study-covid-19-lockdowns-deadlier-than-pandemic-itself/>

Exclusive Study: COVID-19 Lockdowns Over 10 Times More Deadly Than Pandemic Itself

...CHEAT SHEET: Back-of-the-Envelope Calculations Show COVID-19 “Cure” Is Worse Than Disease

Standard approaches to evaluating epidemic policy responses, involving the Value of a Statistical Life, have conceptual problems and are biased towards the elderly and rich.

Using a life-years criterion as an alternative shows that the lockdowns cost an order of magnitude more life-years than they saved.

Most of the publicized cost-benefit analyses of COVID-19 lockdowns have used coarse measures like lives as units rather than life-years, which misleads politicians and the general public. COVID-19 deaths disproportionately impact the oldest members of the population, whereas the economic impacts of lockdowns disproportionately harm the youngest of the working population, who have far greater life expectancies at the time of impact.

Using prior research on workforce entrants and recent graduates entering into a market marred by an economic recession, empirical estimates of life-years lost can be determined. Extensive research on job displacement can be used to estimate the economic impact in life-years of starkly increased unemployment for mid-to-late career workers.

Combining these analyses, we found that an estimated 18.7 million life-years will be lost in the United States due to the COVID-19 lockdowns. Comparative data analysis between nations shows that the lockdowns in the United States likely had a minimal effect in saving life-years. Using two different comparison groups, we estimate that the COVID-19 lockdowns in the U.S. saved between a quarter to three quarters of a million life-years.

Every broad age category lost life-years from the lockdowns including those 55 and older.
The media and state and local governments contributed to the panic by selectively presenting evidence on COVID-19 and shutdowns of dubious benefit.
Public health researchers and health economists gave poor policy advice and made selective use of the prior research literature. They will likely be rewarded, not punished, by academia for their failure because of academia's biases.
Public health in general is so biased and vulnerable to motivated cognition that it is not "not yet ready for policy analysis."

<https://www.zerohedge.com/geopolitical/its-game-changer-new-who-backed-research-finds-cheap-steroids-reduce-covid-19>

"It's A Game-Changer" - New WHO-Backed Research Finds Cheap Steroids Reduce COVID-19 Mortality By One-Third

For the last 2 months, we've been wondering: whatever happened to that British study purporting to show surprising efficacy of cheap steroid dexamethasone in treating COVID-19?

While we suspected that drug companies working on vaccines and fancy new treatments (see Gilead's questionably effective remdesivir) might secretly be working to undermine this type of research for fear it might interfere with "innovation" their bottom lines, on Wednesday, a group of doctors brought together by the WHO published a report analyzing several studies on the effectiveness of steroids in treating late-stage COVID-19.

The studies, which involved a total of 1,700 patients, apparently show that a number of cheap, plentiful corticosteroids (anti-inflammatory drugs that can damp the effects of an overactive immune system) helped lower COVID-19-related mortality by roughly one-third, compared with the 'control' group that didn't receive the medication.

The paper published by JAMA featured a meta-analysis performed by the group of scientists and doctors encompassing seven studies done between February and June. All the studies evaluated the use of the commonly used steroid drugs dexamethasone, hydrocortisone and methylprednisolone. The study found relatively consistent benefits for using the drugs in severely ill patients: Of 678 severely ill patients who received steroids, 32.7% died, compared with 41.5% of patients receiving either the usual care, or a placebo (depending on the study).

**Ivermectin treatment 'could bring us all together by Christmas'
Sky News Australia**

Gastroenterologist Professor Thomas Borody says the combination of Ivermectin, Doxycycline and Zinc has shown to be almost 100 per cent effective as a treatment for COVID-19 based on the findings of six publications.

"The Ivermectin has two roles," Mr Borody said.

"It blocks the landing sights on the spike of the receptors called AC2 receptor throughout the lungs and the gut, and secondly, it inhibits replication within the cell by using Zinc which it forces or helps to get in the cells.

"The Doxycycline helps in those two areas as well.

"From the six publications that have actually examined it and published, it works close to 100 per cent.

"We've been given a gift, of these three drugs together which are already registered, licensed and ready to use that work so well.

"You will recall, the World Health Organisation encouraged mass therapy for parasites, how much more should we encourage mass therapy where we have such mortality.

"And if we do treat, yes we will be together by Christmas and even beyond, while we're waiting for a vaccine in a couple of years."

‘Famine of biblical proportions’ looms over humanity due to Covid-19, UN food chief warns

“All the data we have, including WFP forecast that the number of people experiencing malnutrition will grow by 80 percent by the end of the year, ... points to a real disaster,” David Beasley, Executive Director of the UN World Food Program (WFP), said.

<https://www.naturalnews.com/2020-08-21-fda-trying-make-n-acetylcysteine-illegal-could-help-treat-covid19.html>

Use N-acetylcysteine? The FDA is trying to make it illegal because it could help treat COVID-19

As a favor to drug companies that are studying it as a potential “drug” treatment for the Wuhan coronavirus (COVID-19), the U.S. Food and Drug Administration (FDA) is going after N-acetylcysteine, a natural compound that the agency is suddenly claiming no longer qualifies as a legal dietary supplement.

Reports indicate that the FDA has sent out a series of warning letters to supplement manufacturers warning them that NAC, as it is also called, does not meet the definition of a dietary supplement because it was supposedly first approved as a “drug” back in 1963.

The FDA claims that NAC was never marketed as a food or supplement prior to the agency’s approval of it as a drug. This, according to the agency, means that the “rights” to sell it are under the jurisdiction of the FDA, which is steering it towards Big Pharma entities now trying to capitalize on it as a possible Wuhan coronavirus (COVID-19) remedy.

<https://www.naturalnews.com/2019-05-09-nae-is-a-powerful-antioxidant-that-stops-cancer-cell-growth.html>

In a 2017 study conducted by researchers from the Thomas Jefferson University, NAC succeeded in slowing down the growth of cancer cells in patients with breast cancer. The natural antioxidant reduced the aggressiveness of tumors by modulating the metabolism of cancer cells. NAC also depleted the cancer cells of nutrients, forcing them to starve and die. (Related: Yale researchers add “reduction of hearing loss” to the many benefits of NAC supplements.)

<https://summit.news/2020/08/20/swedens-senior-epidemiologist-wearing-face-masks-is-very-dangerous/>

Sweden’s Senior Epidemiologist: Wearing Face Masks Is “Very Dangerous”

“Having face masks and then think[ing] you can crowd your buses or your shopping malls — that’s definitely a mistake”.
Steve Watson

Sweden’s top expert on the coronavirus has warned that encouraging people to wear face masks is “very dangerous” because it gives a false sense of security but does not effectively stem the spread of the virus.

“It is very dangerous to believe face masks would change the game when it comes to COVID-19,” said Anders Tengell, who has overseen Sweden’s response to the pandemic while resisting any form of lockdown or mask mandate.

“Face masks can be a complement to other things when other things are safely in place,” Tengell added.

“But to start with having face masks and then think[ing] you can crowd your buses or your shopping malls — that’s definitely a mistake,” he further urged.

Tegnell has consistently spoken out against the use of masks, last month declaring that “With numbers diminishing very quickly in Sweden, we see no point in wearing a face mask in Sweden, not even on public transport.”

“The findings that have been produced through face masks are astonishingly weak, even though so many people around the world wear them,” Tengell has urged.

“I’m surprised that we don’t have more or better studies showing what effect masks actually have. Countries such as Spain and Belgium have made their populations wear masks but their infection numbers have still risen,” the epidemiologist also declared.

Sweden, which didn’t enforce any mandatory lockdown order, has seen its coronavirus cases and deaths slow to a trickle.

“That Sweden has come down to these levels is very promising,” Tegnell has said, adding “The curves are going down and the curves for the seriously ill are beginning to approach zero.”

As Newsweek acknowledged earlier this month, Sweden’s COVID-19 death rate is lower than those of Spain, the UK and Italy, countries which all imposed lockdowns.

Sweden’s GDP fall of 8.6 in Q2 2020 is also significantly less severe than the 12.1 average experienced in the Eurozone, leaving the Scandinavian country in “much better shape than the rest of Europe.”

Sexual Health in the SARS-CoV-2 Era Jack L. Turban, et al.

Abstract

Sexual contact carries some risk for exposure to infection with severe acute respiratory syndrome coronavirus 2 during the coronavirus disease 2019 pandemic. This commentary provides clinicians with guidance on how to address sexual health and activity with patients in this context.

More than 200 000 people have died of severe acute respiratory syndrome-coronavirus-2 (SARS-CoV-2) infection, leading to widespread concern regarding physical morbidity and mortality. The sexual health implications, however, have received little focus. On the basis of existing data, it appears all forms of in-person sexual contact carry risk for viral transmission, because the virus is readily transmitted by aerosols and fomites. This has resulted in broad guidance regarding physical distancing, with substantial implications for sexual well-being. Given the important role of sexuality in most people’s lives, health care providers (HCPs) should consider counseling patients on this topic whenever possible. This is an unprecedented and stressful time for HCPs; facilitating brief conversations and referrals to relevant resources (Table) can help patients maintain sexual wellness amid the pandemic.

<https://www.techocracy.news/nursing-homes-shocked-at-insanely-wrong-covid-19-data/>

Nursing Homes Shocked At ‘Insanely Wrong’ COVID-19 Data

When the administrator of the Saugus Rehab and Nursing Center in Saugus, Massachusetts, heard that a new Medicare website reported her facility had 794 confirmed cases of COVID-19 — the second highest in the country — and 281 cases among staff, she gasped.

“Oh my God. Where are they getting those numbers from?” said Josephine Ajayi. “That doesn’t make any sense.”

Those weren’t the numbers that her facility reported to the CDC’s National Healthcare Safety Network, under new rules from the Centers for Medicare & Medicaid Services (CMS), she said.

Ajayi said her 80-bed facility actually reported 45 residents have tested positive and five residents died, although the CMS website showed no Saugus deaths. About 19 staff members tested positive for the virus, and most have returned to work, she said.

<https://articles.mercola.com/sites/articles/archive/2020/04/27/is-quercetin-safer-alternative-to-hydroxychloroquine.aspx>
Is Quercetin a Safer Alternative to Hydroxychloroquine?

...Considering the risks of chloroquine and hydroxychloroquine, and the evidence suggesting the reason these drugs work for COVID-19 is because they act as zinc ionophores, it's worth questioning whether other more natural zinc ionophores can be used.

One prime example would be quercetin, which is a naturally occurring zinc ionophore.²⁴ As reported by the Green Stars Project,²⁵ "Researchers from Oak Ridge National Lab used the world's most powerful supercomputer, SUMMIT, to look for small molecules that might inhibit the COVID-19 spike protein from interacting with human cells and, interestingly, quercetin is fifth on that list."²⁶

Quercetin is one of only three natural products found to inhibit the SARS-CoV-2 spike protein. The only natural product found to be slightly more effective is luteolin, a polyphenol found in radicchio, green peppers, serrano and green hot chili peppers, chicory, celery and many other foods.²⁷

Quercetin is another flavonols compound found in a variety of foods, including apples, Brassica vegetables, capers, onions, tea and tomatoes, just to name a few. It's also contained in medicinal products such as Ginkgo biloba, St. John's Wort (*Hypericum perforatum*) and elderberry (*Sambucus canadensis*).

Research has already demonstrated that quercetin is a powerful immune booster and broad-spectrum antiviral. As noted in a 2016 study²⁸ in the journal *Nutrients*, quercetin's mechanisms of action include the inhibition of lipopolysaccharide (LPS)-induced tumor necrosis factor α (TNF- α) production in macrophages.

TNF- α is a cytokine involved in systemic inflammation, secreted by activated macrophages, a type of immune cell that digests foreign substances, microbes and other harmful or damaged components. Quercetin also inhibits the release of pro-inflammatory cytokines and histamine by modulating calcium influx into the cell.²⁹

According to this paper, quercetin also stabilizes mast cells and has "a direct regulatory effect on basic functional properties of immune cells," which allows it to inhibit "a huge panoply of molecular targets in the micromolar concentration range, either by down-regulating or suppressing many inflammatory pathways and functions."³⁰

Another 2016 study³¹ concluded it helps modulate the NLRP3 inflammasome, an immune system component involved in the uncontrolled release of pro-inflammatory cytokines that occurs during a cytokine storm.

Another 2016 study³¹ concluded it helps modulate the NLRP3 inflammasome, an immune system component involved in the uncontrolled release of pro-inflammatory cytokines that occurs during a cytokine storm.

In vitro studies ^{32,33,34} have shown quercetin exerts antiviral activity against SARS-CoV, and preliminary findings³⁵ suggest quercetin can inhibit the SARS-CoV-2 main protease as well. ...

As for dosage, here are some basic recommendations:

Quercetin — According to research from Appalachian State University in North Carolina, taking 500 mg to 1,000 mg of quercetin per day for 12 weeks results in "large but highly variable increases in plasma quercetin ... unrelated to demographic or lifestyle factors."⁴¹

Zinc (and copper) — When it comes to zinc, remember that more is not necessarily better. In fact, it can backfire. When taking zinc, you also need to be mindful of maintaining a healthy zinc-to-copper ratio. As noted by Chris Masterjohn, who has a Ph.D. in nutritional sciences,⁴² in an article⁴³ and series of Twitter posts:⁴⁴

"In one study, 300mg/day of zinc as two divided doses of 150 mg zinc sulfate decreased important markers of immune function, such as the ability of immune cells known as polymorphonuclear leukocytes to migrate toward and consume bacteria.

The most concerning effect in the context of COVID-19 is that it lowered the lymphocyte stimulation index 3 fold. This is a measure of the ability of T cells to increase their numbers in response to a perceived threat. The reason this is so concerning in the context of COVID-19 is that poor outcomes are associated with low lymphocytes ...

The negative effect on lymphocyte proliferation found with 300 mg/day and the apparent safety in this regard of 150 mg/d suggests that the potential for hurting the immune system may begin somewhere between 150-300 mg/d ...

It is quite possible that the harmful effect of 300 mg/d zinc on the lymphocyte stimulation index is mediated mostly or completely by induction of copper deficiency ...

The negative effect of zinc on copper status has been shown with as little as 60 mg/d zinc. This intake lowers the activity of superoxide dismutase, an enzyme important to antioxidant defense and immune function that depends both on zinc and copper ...

A study done with relatively low intakes of zinc suggested that acceptable ratios of zinc to copper range from 2:1 to 15:1 in favor of zinc. Copper appears safe to consume up to a maximum of 10 mg/d.

Notably, the maximum amount of zinc one could consume while staying in the acceptable range of zinc-to-copper ratios and also staying within the upper limit for copper is 150 mg/d."...

Masterjohn stresses that you'll want to keep your total zinc intake below 150 mg per day to avoid negative effects on your immune system. He also recommends getting at least 1 mg of copper from food and supplements for every 15 mg of zinc you take...

'AeroNabs' Promise Powerful, Inhalable Protection Against COVID-19

...by UCSF graduate student Michael Schoof, a team of researchers engineered a completely synthetic, production-ready molecule that straitjackets the crucial SARS-CoV-2 machinery that allows the virus to infect our cells. As reported in a new paper, now available on the preprint server bioRxiv, experiments using live virus show that the molecule is among the most potent SARS-CoV-2 antivirals yet discovered.

In an aerosol formulation they tested, dubbed "AeroNabs" by the researchers, these molecules could be self-administered with a nasal spray or inhaler. Used once a day, AeroNabs could provide powerful, reliable protection against SARS-CoV-2 until a vaccine becomes available. The research team is in active discussions with commercial partners to ramp up manufacturing and clinical testing of AeroNabs. If these tests are successful, the scientists aim to make AeroNabs widely available as an inexpensive, over-the-counter medication to prevent and treat COVID-19....

An ultra-high affinity synthetic nanobody blocks SARS-CoV-2 infection by locking Spike into an inactive conformation
Michael Schoof, et al

Abstract

Without an effective prophylactic solution, infections from SARS-CoV-2 continue to rise worldwide with devastating health and economic costs. SARS-CoV-2 gains entry into host cells via an interaction between its Spike protein and the host cell receptor angiotensin converting enzyme 2 (ACE2). Disruption of this interaction confers potent neutralization of viral entry, providing an avenue for vaccine design and for therapeutic antibodies. Here, we develop single-domain antibodies (nanobodies) that potentially disrupt the interaction between the SARS-CoV-2 Spike and ACE2. By screening a yeast surface-displayed library of synthetic nanobody sequences, we identified a panel of nanobodies that bind to multiple epitopes on Spike and block ACE2 interaction via two distinct mechanisms. Cryogenic electron microscopy (cryo-EM) revealed that one exceptionally stable nanobody, Nb6, binds Spike in a fully inactive conformation with its receptor binding domains (RBDs) locked into their inaccessible down-state, incapable of binding ACE2. Affinity maturation and structure-guided design of multivalency yielded a trivalent nanobody, mNb6-tri, with femtomolar affinity for SARS-CoV-2 Spike and picomolar neutralization of SARS-CoV-2 infection. mNb6-tri retains stability and function after aerosolization, lyophilization, and heat treatment. These properties may enable aerosol-mediated delivery of this potent neutralizer directly to the airway epithelia, promising to yield a widely deployable, patient-friendly prophylactic and/or early infection therapeutic agent to stem the worst pandemic in a century.

US 2005/0014785 -- Treatment of radiation disorders

ABSTRACT

The present invention provides methods and compositions for the treatment of DNA damage related disorders. One embodiment is a method for the inhibition of Side effects asAssociated with chemotherapeutic and radiotherapeutic agents using chloroquine compounds. Another embodiment is a method for treatment and/or prevention of lethal or Sub-lethal radiation toxicities associated with terrorist acts or war.

Simple, cheap rapid solution to the pandemic – Video
Dr. Richard Bartlett – ACWT Interview 7.2.20

More than 25 million people live in Taiwan, 25 million people practically stacked on top of each other. If they practiced social distancing they'd be out in the ocean floating around. There's not enough room for them to do social distancing.

But guess how many people have died to date of the pandemic in Taiwan?

Seven! Only seven!

Only seven! (Yes, I confirmed this on worldometers.com. As of today, August 5, the number is only seven.)

Texas physician Dr. Richard Bartlett has had a 100 percent success rate with his patients, many with life-threatening co-morbidities, but the media has been ignoring it.

In this video, Dr. Bartlett shares the stories people who he has treated using a steroid called budesonide, inhaled through a nebulizer. Dr. Bartlett has previously referred to his treatment as a "silver bullet" for the coronavirus. Worth watching at least the first 5 minutes.

Budesonide: That's bu as in blue, des as in dess, o as in oh, nide as in hide) – Budesonide

Only seven deaths of Covid-19 in Taiwan!

"Same situation in Japan," says Dr. Bartlett. "One hundred and twenty-one million people in Japan, and they've had less than a thousand people die during the whole pandemic. In Singapore, only 12 people have died in the entire country during the whole pandemic."

What is the secret to these low death counts?

People in those countries are using an inhaled steroid called budesonide, says Dr. Bartlett, who calls budesonide the "silver bullet."

"It's super cheap," say Dr. Bartlett. "It's about \$200 for the entire treatment if you use cash. Many of my patients who use insurance pay nothing out of pocket."

Budesonide is an asthma medicine, says Dr. Bartlett. It's a respiratory anti-inflammatory, and Covid-19 is a respiratory inflammation disease.

"And it works," says Dr. Bartlett. "A hundred percent of my (Covid-19) patients are alive." "You use a nebulizer machine.

"People start feeling better after the first treatment," Bartlett adds.

Note: This was first posted on YouTube more than a month ago. But have you seen any word about this in the mainstream media?

Every person in the entire world should be made aware of this simple, cheap rapid solution to the pandemic. They should know about Dr. Bartlett's "silver bullet."

Please help spread the word.

Wikipedia

Budesonide

Budesonide, sold under the brand name Pulmicort among others, is a medication of the corticosteroid type. It is available as an inhaler, pill, nasal spray, and rectal forms. The inhaled form is used in the long-term management of asthma and chronic obstructive pulmonary disease.

White Paper on Hydroxychloroquine

This is the culmination of months-long research from all sources. It explains how Americans have come to be in the grip of fear. All the myths and all the misconceptions about a safe, generic drug that has been FDA approved for 65 years, given to pregnant women, breastfeeding women, children, the elderly and the immune-compromised for years and decades without complication, are finally put in the trash heap where they belong. You will have the indisputable proof that you have been massively lied to, often very intentionally. At first you will first be heartbroken. And then you will be furious. Good. Because then you will demand change.

Compendium of HCQ Studies

The safety of HCQ is irrefutable. The evidence supporting HCQ efficacy against Covid-19 is also overwhelming. All negative HCQ studies have used either: too much, used it alone (it needs Zinc), or used it late (it should be early.) The treatment dose is 200 mg HCQ twice a day for five days + Zinc 50 (elemental) daily. The prophylactic dose is 400 mg HCQ weekly + Zinc 50 (elemental) daily. (There are studies right now to see if HCQ 200 mg. weekly is sufficient.) This is very low dose. (The usual dose of HCQ in Lupus, Rheumatoid Arthritis is 400 mg. daily for years.) There are telemedicine physicians who are aware of the facts and if you are concerned about this, please see one. It is also over the counter in many places in the world including Indonesia and most of South America.

American Doctors Address COVID-19 Misinformation with SCOTUS Press Conference

"In the future, we will eliminate the soul with medicine. Under the pretext of a 'healthy point of view', there will be a vaccine by which the human body will be treated as soon as possible directly at birth: So that the human being cannot develop the thought of the existence of soul and Spirit. To materialistic doctors, will be entrusted with the task of removing the soul of humanity. As today, people are vaccinated against this disease or that disease, so in the future: Children will be vaccinated with a substance that can be produced precisely in such a way that people, thanks to this vaccination, will be immune to being subjected to the "madness" of spiritual life. He would be extremely smart, but he would not develop a conscience, and that is the true goal of some materialistic circles. With such a vaccine, you can easily make the etheric (spiritual) body loose in the physical body. Once the etheric body is detached, the relationship between the universe and the etheric body would become extremely unstable, and man would become an automaton, for the physical body of man must be polished on this Earth by spiritual will.

So, the vaccine becomes a kind of aryanique force; man can no longer get rid of a given materialistic feeling. He becomes materialistic of constitution and can no longer rise to the spiritual ".

The treatment of various disease states with hydroxychloroquine.

Preparation method of hydroxychloroquine and sulfate thereof -- CN108689929A

...The invention discloses a preparation method of hydroxychloroquine and sulfate thereof. The preparation method of the hydroxychloroquine comprises the following... to 10%, so as to obtain a

crude product of the hydroxychloroquine, wherein the content of the hydroxychloroquine in... product of the hydroxychloroquine. The purity of the refined product of the hydroxychloroquine can reach 99.9%, the maximum content of ...

(S)-(+)-Hydroxychloroquine. -- EP0588430A1

...The present invention provides (S)-(+)-Hydroxychloroquine substantially free of (R)-(-)-hydroxychloroquine, or a pharmaceutically acceptable acid-addition salt thereof, the... it for the treatment of such diseases. The weight ratio of (S)-(+)-Hydroxychloroquine to (R)-(-)-hydroxychloroquine is preferably at least 90:10, most preferably at least 98:2. ...

Preparation method of hydroxychloroquine sulfate

CN109280029A

The invention discloses a preparation method of high-purity hydroxychloroquine sulfate. The method uses 4,7-dichloroquinoline and hydroxychloroquine side chain as raw materials to directly prepare hydroxychloroquine hydrochloride, hydroxychloroquine hydrochloride is neutralized with sodium alcoholate or potassium alcoholate, filtered, concentrated, beaten and crystallized to obtain hydroxychloroquine refined product, and the hydroxychloroquine refined product finally is subjected to salifying reaction ...

Method for analysis of hydroxychloroquine sulfate raw material and preparation by high performance liquid chromatography -- CN103472154A

The invention belongs to the field of drug analysis and discloses a method for analysis of a hydroxychloroquine sulfate raw material and preparation by high performance liquid chromatography. The method can realize effective separation of related substances in hydroxychloroquine sulfate so that hydroxychloroquine sulfate quality is controlled, hydroxychloroquine sulfate raw material and preparation content is accurately determined, and hydroxychloroquine sulfate ...

Hydroxychloroquine amphiphilic polymer drug precursor, preparation method and application thereof -- CN110694076A

...The present invention discloses a hydroxychloroquine amphiphilic polymer drug precursor. The hydroxychloroquine amphiphilic polymer drug precursor is composed of hydrophilic polyethylene glycol monomethyl ether and a hydrophobic hydroxychloroquine polymer. The hydroxychloroquine polymer is bonded to the polyethylene glycol monomethyl ether... size of 20-300 nm in water, which improves pharmacokinetic behaviors of free hydroxychloroquine and enables the hydroxychloroquine amphiphilic polymer drug ...

NEW PREPARATION OF HYDROXYCHLOROQUINE -- KR101115412

...PURPOSE: A method for preparing hydroxychloroquine is provided to suppress generation of by-product by reducing reaction temperature and time and prepare the hydroxychloroquine with high yield and purity. CONSTITUTION: A hydroxychloroquine of chemical formula 1 is prepared by reacting... step of reacting sulfuric acid with hydroxychloroquine to obtain hydroxychloroquine sulfate. ...

Systems and Methods for the Detection of Hydroxychloroquine-Mediated Cardiotoxicity -- US2020046860A1

A method for detecting hydroxychloroquine-mediated cardiotoxicity in a subject. The method can comprise administering a radiotracer to the subject and acquiring an image to detect the presence or absence of hydroxychloroquine-mediated cardiotoxicity in the subject. If cardiotoxicity is ...

Industrial preparation method of hydroxychloroquine sulfate -- CN102050781A

The invention relates to an industrial preparation method of hydroxychloroquine sulfate, which comprises heating 4, 7-dichloroquinoline and hydroxychloroquine side chain at refluxing temperature to 120-125 DEG C, allowing reaction to obtain hydroxychloroquine, and reacting with sulfuric acid to obtain hydroxychloroquine sulfate. The method can obtain high-purity hydroxychloroquine sulfate with single impurity less than or equal to 0.1 ...

Preparation method of hydroxychloroquine sulfate -- CN104230803A

The invention discloses a preparation method of hydroxychloroquine sulfate. The preparation method is characterized by comprising the following steps: condensing 4,7-dichloroquinoline serving as an initial raw material and a hydroxychloroquine side chain under the action of a catalyst, so as to obtain hydroxychloroquine; and reacting hydroxychloroquine with sulfuric acid, so as to prepare the hydroxychloroquine sulfate. According to ...

Hydroxychloroquine linolenate and synthesis method thereof -- CN103772277A

...The invention discloses a structural formula of hydroxychloroquine linolenate and also provides a method for preparing hydroxychloroquine linolenate. The method comprises the following steps: preparing hydroxychloroquine from hydroxychloroquine sulfate and a sodium hydroxide liquid, and purifying by adding ethyl acetate...1)-(1:1.5); and finally, carrying out column chromatography separation to obtain high-purity hydroxychloroquine linolenate. After lots of hydroxychloroquine ...

Treatment of hepatitis c virus related diseases using hydroxychloroquine or a combination of hydroxychloroquine and an anti-viral agent -- CN103096891A

... effective amount of hydroxychloroquine. Therapeutically effective amounts of hydroxychloroquine are disclosed which are sufficient to inhibit HCV-induced autophagy in the subject. An antiviral agent may be co-administered with the hydroxychloroquine. Methods utilizing synergistic combinations of hydroxychloroquine and an antiviral agent are disclosed. Further disclosed are compositions comprising hydroxychloroquine and an antiviral agent, as well as hydroxychloroquine and uses ...

Technology for preparing hydroxychloroquine sulfate tablets -- CN102920674A

...The invention discloses a technology for treating a hydroxychloroquine sulfate raw medicament. The treatment technology comprises the following steps of: performing wet granulation on the hydroxychloroquine sulfate raw medicament by using absolute ethanol as a wetting agent, and drying. The... for preparing the hydroxychloroquine sulfate tablets by using the hydroxychloroquine sulfate obtained by the treatment technology. The method is easy ...

Application of chloroquine or derivative hydroxychloroquine -- CN110638818A

The invention belongs to the technical field of biomedicine, and relates to new application of chloroquine or a derivative hydroxychloroquine medicine, in particular to application of chloroquine or derivative hydroxychloroquine in medicine for treating Graves eye diseases. The invention proves that the chloroquine or the derivative hydroxychloroquine thereof has an obvious inhibition effect on excessive proliferation, adipogenic differentiation and hyaluronic ...

Medicinal composition capable of preventing or treating inflammatory diseases -- CN107456455A

The invention discloses a medicinal composition which comprises hydroxychloroquine and leflunomide, and further relates to applications of leflunomide in preparing medicines capable of alleviating side effects, such as retina cytotoxicity, of hydroxychloroquine and salts of hydroxychloroquine. The compound composition has ...

Hydroxychloroquine Synthesis

Hydroxychloroquine linolenate and synthesis method thereof -- CN103772277A

...The invention discloses a structural formula of hydroxychloroquine linolenate and also provides a method for preparing hydroxychloroquine linolenate. The method comprises the following steps: preparing hydroxychloroquine from hydroxychloroquine sulfate and a sodium hydroxide liquid, and purifying by adding ethyl acetate...1)-(1:1.5); and finally, carrying out column chromatography separation to obtain high-purity hydroxychloroquine linolenate. After lots of hydroxychloroquine ...

Application of chloroquine or derivative hydroxychloroquine -- CN110638818A

...The invention belongs to the technical field of biomedicine, and relates to new application of chloroquine or a derivative hydroxychloroquine medicine, in particular to application of chloroquine or derivative hydroxychloroquine in medicine for treating Graves eye diseases. The invention proves... acid synthesis of fibroblasts; the effects are superposed to show that: the chloroquine and the derivative hydroxychloroquine thereof can effectively ...

Side chain, synthesis method thereof, and method for synthesizing hydroxychloroquine sulfate from side chain -- CN107266323A

...The invention discloses a side chain, a synthesis method thereof, and a method for synthesizing hydroxychloroquine sulfate from the side... to obtain the side chain. The synthesis method of the hydroxychloroquine sulfate comprises the following steps: 1, reacting 4-amino... the hydroxychloroquine sulfate. The synthesis method of the new side chain avoids the ammonification process and the catalytic hydrogenation process ...

Method for simultaneous detection of hydroxychloroquine side chains, raw materials and intermediates by gas chromatography -- CN107894474A

... hydroxychloroquine side chains, raw materials and intermediates by gas chromatography. The method can simultaneously determine the hydroxyl side chains, ethylamine, xylene... Pharmacopoeia 2015 Edition Volume IV. The method aims to provide a technical basis for the detection and monitoring of the synthesis process of the hydroxychloroquine side chains. ...

HIGH-YIELDING CONTINUOUS FLOW SYNTHESIS OF ANTIMALARIAL DRUG HYDROXYCHLOROQUINE -- WO2019165337A1

Cost effective, semi-continuous flow methods and systems for synthesizing the antimalarial drug hydroxychloroquine (HCQ) in high yield are provided. The synthesis method that uses simple, inexpensive reagents to obtain the crucial intermediate 5-(ethyl(2-hydroxyethyl)- amino)pentan-2 ...

SELECTION AND TREATMENT OF SUBJECTS -- CA2824089A1

... antibody. In one embodiment the first therapeutic agent is a DMARD (Disease Modifying Antirheumatic Drug), such as gold salts; hydroxychloroquine; an antifolate, such as methotrexate; a pyrimidine synthesis inhibitor, such as leflunomide; or a sulfa drug, such as sulfasalazine. For... of 20 mg/day or less; sulfasalazine, administered at a dose of 3000 mg/day or less; or hydroxychloroquine, administered at a dose of 400 mg/day or less. ...

Asymmetric synthesis method of optically pure (R)/(S)-hydroxychloroquine -- CN105693606A

...The invention discloses an asymmetric synthesis method of optically pure (R)/(S)-hydroxychloroquine. 4-amino-7-chloroquinoline and 5- ethyl... under the catalysis of chiral acid, optically pure hydroxychloroquine is obtained, and the spatial configuration of a product is controlled ...

Preparation method and application of indocyanine green loaded self-assembled multifunctional nano targeting system -- CN105193831A

... connected with hydroxychloroquine in a manner of using disulfide bonds as connecting arms so as to form self-assembled nanoparticles... is 1-4kDa. The indocyanine green loaded self-assembled multifunctional nano targeting system is simple and convenient in synthesis process ...

The Mask Scam

<https://beforeitsnews.com/health/2020/07/in-cell-studies-seaweed-extract-outperforms-remdesivir-in-blocking-covid-19-virus-3033517.html>
In Cell Studies, Seaweed Extract Outperforms Remdesivir in Blocking COVID-19 Virus

In a test of antiviral effectiveness against the virus that causes COVID-19, an extract from edible seaweeds substantially outperformed remdesivir, the current standard antiviral used to combat the disease. Heparin, a common blood thinner, and a heparin variant stripped of its anticoagulant properties, performed on par with Remdesivir in inhibiting SARS-CoV-2 infection in mammalian cells.

Published online in Cell Discovery, the research is the latest example of a decoy strategy researchers from the Center for Biotechnology and Interdisciplinary Studies (CBIS) at Rensselaer Polytechnic Institute are developing against viruses like the novel coronavirus that spawned the current global health crisis. In a test of antiviral effectiveness against the virus that causes COVID-19, an extract from edible seaweeds substantially outperformed Remdesivir, the current standard antiviral used to combat the disease.

The spike protein on the surface of SARS-CoV-2 latches onto the ACE-2 receptor, a molecule on the surface of human cells. Once secured, the virus inserts its own genetic material into the cell, hijacking the cellular machinery to produce replica viruses. But the virus could just as easily be persuaded to lock onto a decoy molecule that offers a similar fit. The neutralized virus would be trapped and eventually degrade naturally.

Previous research has shown this decoy technique works in trapping other viruses, including dengue, Zika, and influenza A. To hear the researchers discuss their findings, watch this video.

"We're learning how to block viral infection, and that is knowledge we are going to need if we want to rapidly confront pandemics," said Jonathan Dordick, the lead researcher and a professor of chemical and biological engineering at Rensselaer Polytechnic Institute. "The reality is that we don't have great antivirals. To protect ourselves against future pandemics, we are going to need an arsenal of approaches that we can quickly adapt to emerging viruses."

The Cell Discovery paper tests antiviral activity in three variants of heparin (heparin, trisulfated heparin, and a non-anticoagulant low molecular weight heparin) and two fucoidans (RPI-27 and RPI-28) extracted from seaweed. All five compounds are long chains of sugar molecules known as sulfated polysaccharides, a structural conformation that the results of a binding study published earlier this month in Antiviral Research suggested as an effective decoy.

The researchers performed a dose response study known as an EC50 — shorthand for the effective concentration of the compound that inhibits 50% of viral infectivity — with each of the five compounds on mammalian cells. For the results of an EC50, which are given in a molar concentration, a lower value signals a more potent compound.

RPI-27 yielded an EC50 value of approximately 83 nanomolar, while a similar previously published and independent in vitro test of remdesivir on the same mammalian cells yielded an EC50 of 770 nanomolar. Heparin yielded an EC50 of 2.1 micromolar, or about one-third as active as remdesivir, and a non-anticoagulant analog of heparin yielded an EC50 of 5.0 micromolar, about one-fifth as active as remdesivir.

A separate test found no cellular toxicity in any of the compounds, even at the highest concentrations tested.

"What interests us is a new way of getting at infection," said Robert Linhardt, a Rensselaer professor of chemistry and chemical biology who is collaborating with Dordick to develop the decoy strategy. "The current thinking is that the COVID-19 infection starts in the nose, and either of these substances could be the basis for a nasal spray. If you could simply treat the infection early, or even treat before you have the infection, you would have a way of blocking it before it enters the body."

Dordick added that compounds from seaweed "could serve as a basis for an oral delivery approach to address potential gastrointestinal infection."

In studying SARS-CoV-2 sequencing data, Dordick and Linhardt recognized several motifs on the structure of the spike protein that promised a fit compatible with heparin, a result borne out in the binding study. The spike protein is heavily encrusted in glycans, an adaptation that protects it from human enzymes which could degrade it, and prepares it to bind with a specific receptor on the cell surface.

"It's a very complicated mechanism that we quite frankly don't know all the details about, but we're getting more information," said Dordick. "One thing that's become clear with this study is that the larger the molecule, the better the fit. The more successful compounds are the larger sulfated polysaccharides that offer a greater number of sites on the molecules to trap the virus."

Molecular modeling based on the binding study revealed sites on the spike protein where the heparin was able to interact, raising the prospects for similar sulfated polysaccharides.

"This exciting research by Professors Dordick and Linhardt is among several ongoing research efforts at CBIS, as well as elsewhere at Rensselaer, to tackle the challenges of the COVID-19 pandemic through novel therapeutic approaches and the repurposing of existing drugs," said CBIS Director Deepak Vashishth.

"Sulfated polysaccharides effectively inhibit SARS-CoV-2 in vitro" was published in Cell Discovery with the support of the National Research Foundation of Korea. At Rensselaer, Dordick and Linhardt were joined in the research by Paul S. Kwon, Seok-Joon Kwon, Weihua Jin, Fuming Zhang, and Keith Fraser, and by researchers at the Korea Research Institute of Bioscience and Biotechnology in Cheongju, Republic of Korea, and Zhejiang University of Technology in Hangzhou, China.

NewsBreak 81 CONFIRMED COVID-19 Plandemic a Known, Live "Training & Simulation Exercise" under WHO

Major documentary confirmation of something many of us have come to know for certain in recent times: the entire COVID-19 world-shutdown is part of a live training and simulation exercise run by the unscrupulous WHO and United Nations, as documented in their Global Preparedness Monitoring Board's annual 2019 report and their International Health Regulations treaty of 2005—which 194 or 196 countries signed off on—which pretty much establishes a Global Government (of the WHO & United Nations, & the high-level international GMPB) along with their sponsors, the Bill and Melinda Gates Foundation, the Wellcome Trust, & other unnamed donors....

How to make CDS - A purer version of MMS / Chlorine Dioxide

<https://elopage.com/s/naturalbiophysics/basic-course-clo2>

Here we present the first course of our online training, it is an introductory course, a basic level, which we have made as simple as possible so that everyone can learn the basics of:
- What is chlorine dioxide and how does it work, as well as learning how to do it and use it safely at home. We will see cases of people who used it with their respective diseases, we will also analyze the progress we have made, especially with the research done by Andreas L. Kalcker, who will share his long experience with all of us. In this way we will have the necessary tools to act in case of suffering one of the innumerable ailments that can be improved or even eliminated with the use of chlorine dioxide...

A country level analysis measuring the impact of government actions, country preparedness and socioeconomic factors on COVID-19 mortality and related health outcomes
Rabail Chaudhry et al.

Preparedness and socioeconomic factors on COVID-19 mortality and related health outcomes

Abstract

Background

A country level exploratory analysis was conducted to assess the impact of timing and type of national health policy/actions undertaken towards COVID-19 mortality and related health outcomes.

Methods

Information on COVID-19 policies and health outcomes were extracted from websites and country specific sources. Data collection included the government's action, level of national preparedness, and country specific socioeconomic factors. Data was collected from the top 50 countries ranked by number of cases. Multivariable negative binomial regression was used to identify factors associated with COVID-19 mortality and related health outcomes.

Findings

Increasing COVID-19 caseloads were associated with countries with higher obesity (adjusted rate ratio [RR]=1.06; 95%CI: 1.01–1.11), median population age (RR=1.10; 95%CI: 1.05–1.15) and longer time to border closures from the first reported case (RR=1.04; 95%CI: 1.01–1.08). Increased mortality per million was significantly associated with higher obesity prevalence (RR=1.12; 95%CI: 1.06–1.19) and per capita gross domestic product (GDP) (RR=1.03; 95%CI: 1.00–1.06). Reduced income dispersion reduced mortality (RR=0.88; 95%CI: 0.83–0.93) and the number of critical cases (RR=0.92; 95%CI: 0.87–0.97). Rapid border closures, full lockdowns, and wide-spread testing were not associated with COVID-19 mortality per million people. However, full lockdowns (RR=2.47; 95%CI: 1.08–5.64) and reduced country vulnerability to biological threats (i.e. high scores on the global health security scale for risk environment) (RR=1.55; 95%CI: 1.13–2.12) were significantly associated with increased patient recovery rates.

Interpretation

In this exploratory analysis, low levels of national preparedness, scale of testing and population characteristics were associated with increased national case load and overall mortality.

5G Technology and induction of coronavirus in skin cells
M Fioranelli, et al.

Abstract

In this research, we show that 5G millimeter waves could be absorbed by dermatologic cells acting like antennas, transferred to other cells and play the main role in producing Coronaviruses in biological cells. DNA is built from charged electrons and atoms and has an inductor-like structure. This structure could be divided into linear, toroid and round inductors. Inductors interact with external electromagnetic waves, move and produce some extra waves within the cells. The shapes of these waves are similar to shapes of hexagonal and pentagonal bases of their DNA source. These waves produce some holes in liquids within the nucleus. To fill these holes, some extra hexagonal and pentagonal bases are produced. These bases could join to each other and form virus-like structures such as Coronavirus. To produce these viruses within a cell, it is necessary that the wavelength of external waves be shorter than the size of the cell. Thus 5G millimeter waves could be good candidates for applying in constructing virus-like structures such as Coronaviruses (COVID-19) within cells.

Coronavirus Pandemic 2019: Environment Omitted by Jim West

<https://www.youtube.com/watch?v=A9-fJqDqOvU>

Covid-19 Is So Hard To Defeat Because It's So Alien To Us

Covid-19 is one of the most "alien" viruses our modern health care system has encountered.

Not because it came from extraterrestrials, but because of all of the various different ways it's able to wreak havoc on the human body. It's so novel that we don't have a good natural analog to compare it to.

And it's still confounding us. While it looked as if we had contained it here in the US, it's now surging back so strongly that overwhelmed hospitals are convening "survival panels" to determine who gets treated and who gets sent home to likely die.

We are learning more about it every day, and have a long way to go until we really understand well how it works and how to fight it. So we need to remain vigilant in our efforts to avoid it, or else the resurging death count may go a lot higher...

Potent neutralizing antibodies directed to multiple epitopes on SARS-CoV-2 spike

Here we report the isolation of 61 SARS-CoV-2-neutralizing monoclonal antibodies from 5 infected patients hospitalized with severe disease. Among these are 19 antibodies that potentially neutralized the authentic SARS-CoV-2 in vitro, 9 of which exhibited exquisite potency, with 50% virus-inhibitory concentrations of 0.7 to 9 ng/mL.

Headaches and the N95 face-mask amongst healthcare providers
Lim, et al.

Background: During the 2003 severe acute respiratory distress syndrome epidemic, healthcare workers mandatorily wore the protective N95 face-mask. Methods: We administered a survey to healthcare workers to determine risk factors associated with development of headaches (frequency, headache subtypes and duration of face-mask wear) and the impact of headaches (sick days, headache frequency and use of abortive/preventive headache medications). Results: In the survey, 212 (47 male, 165 female) healthcare workers of mean age 31 years (range, 21–58) participated. Of the 79 (37.3%) respondents who reported face-mask-associated headaches, 26 (32.9%) reported headache frequency exceeding six times per month. Six (7.6%) had taken sick leave from March 2003 to June 2004 (mean 2 days; range 1–4 days) and 47 (59.5%) required use of abortive analgesics because of headache. Four (2.1%) took preventive medications for headaches during this period. Multivariate logistic regressions showed that pre-existing headaches [P = 0.041, OR = 1.97 (95% CI 1.03–3.77)] and continuous use of the N95 face-mask exceeding 4 h [P = 0.053, OR = 1.85 (95% CI 0.99–3.43)] were associated with development of headaches. Conclusions: Healthcare providers may develop headaches following the use of the N95 face-mask. Shorter duration of face-mask wear may reduce the

frequency and severity of these headaches.

ANTI-MASKERS: RIGHT OR SELFISH?

As Americans turn against each other over mask mandates, many scientists are speaking out, including former professor of physics at the University of Ottawa, Denis Rancourt, PhD, who just released a paper compiling seven studies on the science surrounding the effectiveness of masks.

From the comments: "...Thank you for this video. I'm a scientist from Portugal. Here we have a 0.014% death rate attributed to Covid. However mortality reports show absolutely no excess death as compared to previous years (<https://evm.min-saude.pt/>). Today I was invited at a restaurant at the beach. The lunch was on a terrace outside. The terrace was already full of tables full of people, nobody wearing a mask at all. ..."
